Children's Eyes

SHOULD BE EXAMINED BEFORE SCHOOL COMMENCES.

You are a Parent!

Your child is in school a certain number of hours each day, using the eyes constantly. Each year the lessons become harder, books are taken home, studies are continued in the evening, the eyes are being overtaxed, the delicate muscles are strained; yet perhaps no thought is given to helping the eyes. I know that injury results from this neglect. We must realize that, if there is a cause for eye strain, there must be a remedy, the remedy most naturally would be rest for the eyes. This rest can be obtained by wearing resting glasses. My advice to you is: Come and get my advice; let me explain to you scientifically why resting glasses should be worn.

I believe that parents use very poor judgment in not caring for their children's eyes, when the remedy is so simple and the cost so slight.

My 25 years of experience is at your service.

Every known facility for the testing of eyes is available, and I guarantee satisfaction in every respect. Charges very reasonable.
