

BUILDING NOW ABOUT DONE

SATURDAY NIGHT WILL SEE THE FINISHING TOUCHES.

Many Important Rules Laid Down for Convenience of the Public.

As the date for opening the Union county fair approaches, captains and lieutenants charge d'affaires are rounding up their particular departments in such shape that there will be no possible chance for annoying delays or inconveniences. Chairman Sargent of the building committee reports that the structure will be ready by Saturday night and that booths can be decorated and arranged at any time after that day. The facilities for handling the stock exhibits are greatly improved over last year and with promises of an abundance in the stock line, that department of the fair will outstrip every other effort.

Detailed Announcements. Manager Church has several important announcements ready for the public's perusal. In the first place all exhibits for the pavilion, such as the fruits and fancy work must be presented at the rear door of pavilion at the alley on Spring street where clerks will receive them. They must not be presented at the main entrance of the pavilion.

Women are now decorating the interior of the pavilion and it will be a place of beauty before they are through. The streets under the roofing are to be prepared so as not to be dusty or rough. It is important that exhibitors have their booths prepared by Wednesday morning.

All exhibits must positively be in place by Wednesday noon or they will not be received or allowed space. This is imperative.

Several Entrances Provided For. The main entrance to the monster building which covers four blocks of streets and which leads to the pavilion, will be on fifth street, facing Depot. There will be another on Fourth and Pennsylvania, one at Fifth and one on Spring.

Your complexion as well as your temper is rendered miserable by a disordered liver. By taking Chamberlain's Stomach and Liver Tablets you can improve both.

POLK'S GAZETTEER

A Business Directory of each City, Town and Village in Oregon and Washington, giving a Descriptive Sketch of each place, Location, Shipping Facilities and a Classified Directory of each Business and Profession.

R. L. POLK & CO., Inc. Seattle, Wash.

Lowney's Dainty Candies

Pure and Delicious

For years the name LOWNEY has stood for all that was purest and most wholesome in confectionery. The products of this house are as good today as ever.

We receive them in small quantities and often enough to insure business.

We have the popular Variety Chocolates, Bon Bons and small packages.

AUTO ACCIDENT IN PENDLETON

DRIVER HURT AND MACHINE RUNS AMUCK.

Well-Known Pendleton Woman Crushed Against Building.

Mrs. Ed. Barr lies at St. Anthony's hospital with a fractured thigh and other serious injuries while Charles McBee, the well known stockman, lies at his home in North Pendleton with two ribs torn loose from his breast bone and suffering from injuries and bruises as a result of an automobile accident which occurred on Main street last evening. Both will probably recover, says the Pendleton East Oregonian.

McBee was returning from the Round-up grounds in his touring car, having but one other passenger, Chester Reed, an East Oregonian carrier boy who occupied the back seat. McBee came up Alta street and slowed down to make the turn onto Main which was crowded at the time with vehicles and pedestrians. He attempted to pass between a rig and a cab being driven by Baker. The latter seeing there was danger of a collision reined up his horses, and threw them onto their haunches. This caused the tongue, which had caught under the steering wheel of the car to be jerked up suddenly, tearing off the wheel and throwing McBee to the pavement.

Without a driver and with the steering gear wrecked the car plunged on and turned onto the sidewalk in front of the office saloon. The walk was crowded with pedestrians all of whom made frantic efforts to escape. Mrs. Barr and young son were in the crowd, the latter being far enough in advance to escape the onrushing car, which caught the mother and pinned her up against the front of the building. A bicycle standing against the wall also added to the confusion and to the injuries which the woman received.

McBee was dazed when struck by the cab tongue and did not know what happened after that. The woman was rushed to the hospital while McBee was taken to his home.

THREE MILES OF CEMENT WALK

PRESENT WALKS IN DEPLORABLE CONDITION IN PLACES.

Entire Streets to be Included in Repairs to be Ordered Tonight.

Over three miles of cement walks will be ordered in resolutions that are to be introduced at tonight's council meeting. Some time ago a resolution was passed forbidding construction of wooden sidewalks in a specified district, and since that time, the walks have been allowed to deteriorate to such an extent that in many places they are in a frightfully bad condition. At various places, it is true, they have been repaired with cement, but entire streets are not systematically improved. As there are pieces of walks in both the main and north sections of the city that positively have to be repaired at once to insure safety to pedestrians, the street committee of the council was ordered to determine where the repairs were necessary and report tonight. This will be done with resolutions asking for cement walks.

Cement Walks Cheap. There is a trifle difference in the cost of cement and board walks. It costs approximately thirteen cents per running foot to construct a good board walk, and it is the belief of the street committee that this large batch of work can be contracted for 17 cents. Consequently the difference is very small.

FOR SALE—Milk cow. Inquire 1203 B avenue.

Elegance

is the word that describes what well groomed women are seeking for at all times in all places.

That they find what they seek is best evidence by the number of elegantly attired women who are constant visitors to our store.

From top to toe--from millinery to boots, we provide that eleganced for which they seek.

APPLE CROPS IN NORTHWEST BIG

WASHINGTON OUTPUT WILL REACH 2,000,000 BOXES.

Big Consignment Will Be Shipped to Orient and Europe Again.

Spokane, Wash., Sept. 28—Northwest apple growers will have plenty of money to invest in automobiles, pianos and similar little trinkets this winter, with a bumper yield, the orchardists offered good prices for their crops, owing to the shortage in other apple sections. It is estimated that the apple growers of this state alone will realize some \$14,000,000 and the growers in Oregon, northern California, Idaho and Montana will also roll in wealth.

The yield in Washington is estimated at about 4,000,000 boxes, nearly double that of last year. The Oregon crop will be about half of that of Washington, or in the neighborhood of 2,000 boxes.

For three months past buyers from New York, Chicago, Boston, St. Louis and other great cities, and from London, Paris and Berlin, have been competing for the crop and more than half of the apples grown in the northwest have been sold. Growers who can afford to do so, however, are holding their fruit in expectation of big prices in December, when the holiday season will cause an increased demand. The average wholesale price this year will probably be 25 per cent. higher than last year, with a corresponding increase to the consumer.

Many large consignments of extra choice fruit will go to England, Australia, South America, China, Japan, Germany, France and Italy. The eastern and middle states will likely get less than half of the Northwestern crop, and with a shortage in those sections, the easterners will probably find apples a luxury this winter. Many of the extra choice apples for export will be packed in boxes with cardboard layers, similar to egg cases, in order to protect the valuable fruit from damage in transit.

Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. It cures griping, diarrhoea, dysentery, and should be taken at the first unnatural looseness of the bowels. It is equally valuable for children and adults. It always cures.

PRES. JOHNSON'S PATENT HERE

INSTRUMENT BROUGHT IN FOR RECORDANCE TODAY.

Patent Issued by President Johnson in 1865 and Put on Record Today.

A patent issued by Andrew Johnson, president of the United States, on a piece of land included in the sale of public lands at Oregon City in 1865, was put on record on the Union county books of conveyances this afternoon by Recorder I. R. Snook. The aged document is really a relic, and has been the object of comment about the court house all day. President Andrew Johnson gave the patent to I. W. Knight of Baker county on the year named, but for some reason it has never been put on record until today.

The parcel of land is described as S 1-2 of the S E 1-4 of Section 8 and S 1-2 of N. E. 1-4 of section 17, township 3 South 38. This would bring the land west of La Grande.

The document is perhaps one of the rarest of the rare on file at the courthouse and the owner has a relic worth keeping.

central too. It is also reported that another small apartment house is to be erected near the Zuber building but this is indefinite.

CALDWELL IS AT THE HEAD

Will Manage Northwest Territory for Gasoline Harvesters.

H. A. Caldwell is in the city having just returned from Walla Walla where he spent several days demonstrating the new gasoline harvester put out by the Best Manufacturing Company. During the fair he sold eleven machines and has many more orders almost closed.

The new gasoline machine is one of the greatest improvements of the present century and is greeted by the grain grower with the warmest appreciation.

Mr. Caldwell has been placed at the head of the Northwest territory for the sale of gasoline outfits and he is well pleased with the outlook for a tremendous business.

Southern Land Opening.

Washington, Sept. 28—President Taft today signed the proclamations opening 63,000 acres of the national forest reserves in Southern Arkansas and Utah.

Don't waste your money buying plasters when you can get a bottle of Chamberlain's Liniment for twenty-five cents. A piece of flannel dampened with this liniment is superior to any plaster for lame back, pains in the side and chest, and such things.

NEW APARTMENT HOUSE SURE

WILL TAKE SHAPE AT THE CORNER OF SEVENTH AND PENN.

Preliminary Plan Shows Five Rooms Suites on Each Floor.

Construction of a two-story apartment house with about five-room suites on each of the two floors, is the next important building step in La Grande. Mrs. S. E. Zuber has such a building under consideration and it will go up at the corner of Pennsylvania and Seventh street. A cottage now standing on the site is being moved back to face on Pennsylvania avenue in the center of the block, leaving sufficient room on the corner property for the construction of a new modern apartment house. The venture is one that will spell good financial returns for it there is anything La Grande needs it is just such a building or buildings. The location is
