UNION NEWS ITEMS.

(From Union Republican)

The machinery of the Union woolen mill is being taken out for removal to Washougal, Washington, a place which it is understood has put up a bonus of \$20,000 to secure the location of the mill at that point. The plant has been lying idle at Union for a long time, and the people of this place were given an opportunity to secure its continued operation at this point, but evidently did not think it worth while. The woolen mill while in operation at Union under the Eaton-Wilbur management was a success, but that does not argue that it will be always so everywhere. The northwest is full of woolen-mill schemes that have not been successful. Just what will be done with the old building has not yet been announced.

The Fruit Exhibit.
The fruit growers of Union met at the commercial club rooms Tuesday night for the purpose of arranging for an exhibit of fruit at the Spokane apple show and at the International fair at Chicago. This exhibit will be in charge of Chief Booster Vogel of Union, and will be a credit to the valley and the state. Union growers are determined to do their part.

Bond Election Carries.
In the city election Monday last for the purpose of voting upon three classes of bonds, the result favored the bond issue by an overwhelming figure, the different propositions submitted footing up as follows:

For	Against
Redemption of warrants	133 39
Repair of water system	157 18
Installation Light Plant	131 48

There can be no doubt about the wishes of the majority of the people upon these propositions, and while the vote was light comparatively, an increase of the vote would probably only have increased the majorities for the various propositions submitted.

The people have authorized the issue; it is now up to the city council to proceed with the work authorized.

The New Road.
The new road up Catherine was completed this week and is now open for travel. Superintendent Wigles-

work is given credit for a fine piece of work, and travel coming over the road speaks in high terms of the change. This road will be better from year to year, as it becomes packed and the surface is improved. Now if the city can widen up the street with in the old territory, the thoroughfare will be greatly improved.

Has Always Been Catcher.

From the time that I was old enough to play ball, barring a few times when I played in the outfield, I have always been behind the plate. Although Charley Comiskey once told me that I'd make a better taller than I would a backstop, I've managed to keep there still. Buck Ewing gave me my preliminary training, and when I was eighteen years old I signed with the Indianapolis team. That season I was the whole show. The club was the proud possessor of twenty-one pitchers, so in warming up that bunch I gained considerable experience.

Schultz to Play Professional Football.
Germany Schultz, the big center of the Michigan football team for the past three years, is to go into football professionally this fall. He has agreed, it is reported, to play center rush and captain the Oakwood eleven of Cincinnati, which is one of the strongest semiprofessional teams in the country. Games will be played on Sundays in Ohio, Illinois and Pennsylvania.

DAILY DUTIES.

The best things are nearest—breath in your nostrils, light in your eyes, flowers at your feet, duties at your hand, the path of God just before you. Then do not grasp at the stars, but do life's plain, common work as it comes, certain that daily duties and daily bread are the sweetest things of life.—Robert Louis Stevenson.

SPORTSMAN and TELEPHONE

EVERY TIME a man wants to get away from all connection with the busy world, the telephone is an important helper.

The local service is useful in arranging his affairs at home, and the Long Distance service of the Bell System helps him to decide where to go and what to take.

By means of his Bell telephone he can find out whether the fish are biting or the birds are flying, and whether guides or horses can be secured.

After he has been out a while if he wants to get word from the city, the nearest Bell telephone is a friend in need.

Pacific Telephone and Telegraph Co.
Every Bell Telephone is the Centre of the system.

A Great Player.

Sir Walter Parratt had an extraordinary memory. Some eight or ten men were assembled one evening in one of the lodges attached to St. Michael's college, Tenbury. Sir Walter Parratt and Herr von Holst played in turn upon the piano such music as was asked for. This went on for some time until at last the chessboard was brought out. Sir Walter then proposed to play two men at chess in consultation, still remaining at the piano and playing from memory what was demanded either from Bach, Beethoven, Mozart, Chopin or Mendelssohn. Without even a glance at the chessboard he won the game in an hour.—London Globe.

A House in the Air.

In 1863 a balloon of 200,000 cubic feet capacity was constructed at Paris. It was named the Giant and was intended to show the great possibilities of the air. The car attached consisted of a small two story house, fitted with every modern comfort, lavatories, dining room, bedroom, kitchen, parlor, etc. Thirteen passengers made the first ascent, but the journey was of only four hours' duration. The last ascent was for seventeen hours and was abruptly terminated by a high wind, which, when the balloon descended, dragged the little house bumping over the ground. The remains of this giant of the air was for a long time exhibited in the Crystal palace in London.
