PLAN CONGRESS AT SUMPTER

MOVEMENT ON FOOT TO PROMOTE INDUSTRY LOCALLY.

Mining Industry of the Northwest to be Discussed at Sessions.

Sumpter, Ore., Oct. 6 (Special)—In the past few months the renewal of mining activity in eastern Oregon has become so general that it is realized that the time is ripe for the holding of a mining congress or convention of the mining men of the northwest. As Sumpter is in the heart of the district that produces more than 50 per cent of the gold taken out in the state of Oregon, it is thought to be the most logical point for holding the meeting.

The primary object of the congress is to take up for discussion and organized action matters of importance to the mining industry in the northwest or of national import to mining for that matter. Men of reputation in the mining world will be here from distant points to talk on mining topics.

The congress will be held on the 20th and 21st of this month, and the proposition is backed by the mining and business men of Sumpter. So confident are they of the success of the congress that they have contributed a large fund for property entertaining visitors and paying expenses of the meeting. Invitations have been sent in all directions to mining and other men of note to attend, and the indications are that a large assembly will be on hand.

Sumpter will take the opportunity presented by this congress of showing what is really contained in the Sumpter mining district. Attention will be directed to the great possibilities for future operations. The great scope of the district will also be made evident. Ideas of treating ore will also be shown what will be the best for future treatment of the vast amount of ledge matter that lies within the mountains of eastern Oregon.

The program of the congress has not as yet been fully prepared, but at this early date it is safe to state that it will be both interesting and instructive to every person in any manner interested in mining. Therefore a cordial invitation is extended to all mining men and people interested in mining to attend the convention.
