Today a new phase crept in when it became known

WHOLE TOWNS DESTROYED

Havana, Oct. 18.—With at least one hundred dead, hundreds injured and damage reaching into the millions from two hurricanes, reports that a third hurricane is forming south of Jamaica reached here today, terrorizing the inhabitants. It is impossible to estimate the number of dead in Cuban provinces. Six towns are reported obliterated. Two steamers are overdue and damage in Havana alone is a million.

Telegraph service is down so the fate of the people of Key West and other cities in southern Florida peninsula is unknown today.

It was the worst storm in several years. The last reports from St. Augustine say that gigantic waves are being carried inshore by the hurricane and the lower part of the city is inundated.

The list of known dead is three though it is reported eighty are dead. The heaviest deaths are among the workmen of the east coast railroads. Titusville reported the heaviest damage.

WORTH OVER 9 BILLIONS

INCREASE OVER LAST YEAR IS ABOUT ONE BILLION SAYS CROP REPORT TO DATE.

WHEAT UNUSUALLY FINE

Some Districts Short of Corn, and Others of Wheat, but General Corn Crop is a Bumper One—Indian's Corn Crop Beats Records—Hay, Potatoes, Corn, Tobacco and Cranberries Generally Good.

Washington, Oct. 18.—Crop reports received this month from every section of the country indicate that the total value of all crops and agricultural products for the year 1910 will reach the astounding and unprecedented figure of \$9,000,000,000. This is nearly a billion dollars more than last year, and proves that for the farm population, at least, prosperity is not on the way but is here.

Hay, corn, potatoes, tobacco and cranberries, the principal New England crops, have all turned out fair to good. Eastern and central states all send in good reports. Wheat crops are fair and the corn crop a bumper one in most sections. Drought has hurt some sections, but not seriously except in a few places. Indiana has the biggest corn crop in its history. Dry weather has injured crops in parts of Illinois and Wisconsin, but the yield will not fall far below the average, the apple crop of the central west is poor. Iowa reports bumper oats and corn yields. North Dakota and parts of South Dakota have suffered greatly and the North Dakota yield will be only half of normal. Minnesota crops have been good, except hay. Nebraska has a big corn crop, but wheat is rather light. Missouri and Kansas are both both prosperous. Oklahoma is short on corn, but long on wheat. Sugar beets and fruits have made Colorado growers happy and contented. The Pacific northwest has a bumper apple yield, but the wheat crop is light in some states. California oranges and some other fruits show a considerable drop in yield, but high prices will make up for the shortage. Kentucky, Tennessee and other southern corn-growing states report unprecedented yields. Texas and Louisiana report excellent crops. Georgia crops are fair. The cotton crop in many sections of the south depend to a great extent on a late frost.

SING SING WILL DISAPPEAR IN THE SPRING

MODERN PLACE OF DETENTION TO TAKE ITS PLACE.

Repeated Escape of Prisoners from Sing Sing is Responsible.

Albany, N. Y., Oct. 18.—Sing Sing will soon be no more. What is perhaps the most famous prison in the world will pass out of existence and be replaced by the \$2,500,000 penitentiary to be built at Wingdale, Dutchess county. Architects are now at work on the plans for what is to be an ideal modern place of detention, and the contracts will be let in a month or two. Active work will commence next spring and will be rushed to completion. The new institution will be known as Harlem prison, and will embrace everything desirable for the sanitary housing and scientific and humanitarian treatment of criminals. The new prison has become absolutely necessary, as Sing Sing is now crowded to the utmost limit, and the use of "overflow" buildings has made the escape of convicts comparatively easy.

IN DISTRESS LONG TIME

Messages of Abbreviated Nature Received in America This Morning But So Fragmentary That Actual News Were Guess Work—Wireless Sends Details of Finding the Ship With Much Difficulty—Crew is All Safe.

New York, Oct. 18.—Walter Wellman and his companions were rescued by the Royal Mail steamer Trent. News of the rescue came by wireless from Captain Downs of the Royal mail steamer in a message which read, "At 5 o'clock this morning we sighted Wellman's airship America in distress. They signalled by the Morse code that help was required. After three hours maneuvering with fresh winds blowing, we picked up Wellman and the entire crew and cat. All are now safe aboard the Trent. All are well. The America was abandoned at latitude 35.45 north, longitude 63.18 west." This is due east of Cape Hatteras and half way to the Bermudas.

Siasconset, Mass., Oct. 18.—The Transport Masaba has picked up a wireless from Wellman's dirigible at sea, today that was sent from the steamship Helig Olava. The message placed the airship south of Sable Island. Without endeavoring to pick up the airship itself, the Masaba passed out of wireless range of this plant. The Sable Island station is now trying to pick up the airship. The Masaba only picked up the end of a message.

CRIPPEN PLEADS NOT GUILTY.

Old Time Criminal Dock in London Scene of Another Noted Case.

London, Oct. 18.—Standing in the time-eaten dock at Old Bailey, Doctor Crippen today pleaded not guilty to the charge of murder. Standing beside him was Leneve, his stenographer, charged with being an accessory. She was pale and agitated as she whispered "Not Guilty." The trial of Crippen started at once and hers will follow the completion of his.

Prosecutor Mair speaking in behalf of the Crown said Crippen was in need of funds on account of supporting a wife he did not love. He said, "After his wife's disappearance Crippen adopted a campaign of false fiction to prevent suspicion from falling on him.

While attempting to besmirch the character of a woman who he had already murdered he was preparing to flee. The remains were found in his house, a house occupied by none but himself. The manner which the body was mutilated shows that only a skilled physician could have done it."

Frisco Merchant Threatened.

San Francisco, Oct. 18.—Two police detectives are today guarding B. Katchinski, a local shoe merchant to prevent possible harm from blackmailers who threatened to kill him unless he agreed to pay them \$500. Katchinski told the police last night. He left a bag of washers and when the alleged blackmailers arrived the detectives sprang out and fell over each other and the quarry escaped with the bag.
