

SEES SUCCESS AT COMING ELECTION

EDITOR KENNEDY OF BAKER BELIEVES REPUBLICANS HAVE AN EASY VICTORY.

Bowerman and Lafferty are Sure to be Elected According to his Views.

"There is positively no way for the opposition to defeat either Bowerman or Lafferty," said Editor B. E. Kennedy of the Baker City Herald this morning as he departed for his home. "I think the entire state and district ticket will be safely elected, but the congressman and governor have the fight won now. I am glad to see the republican party of the state get together. There never has been a time when Statement No. One or any other statement would have split, and this year it would seem that all sides are giving and taking just a little which insures a united front to the enemy. It is rather amusing to witness Oswald West in his campaign. This is the first elective office Oswald has ever ran for, his career heretofore having been appointive at the hands of Chamberlain.

"If you will notice Oswald tries to emulate the handshake and general good fellow racket of Senator Chamberlain and like everything in this life that is copied, the reality is lacking and West's campaign reminds one of a phonographic record. This is one year he, nor any other democrat, can win the office of governor for Jay Bowerman is the lad the people are bound to have and you know the people must rule in Oregon."

Cochran Will Run Strong.

In speaking of George Cochran, candidate for water commissioner, Kennedy said there is little chance to defeat the La Grande man. His opponent, F. M. Saxton, lives in Baker county, but there is reason to believe that Cochran will carry most of the precincts in that county as well as the major portion of the entire district.

PROMINENT MEN AT LAKE.

Railroad People Looking Over New Station Site.

Among the guests at Hot Lake today are Assistant Superintendent Bollons and A. Buckley of the O. R. & N. and R. G. Higley, a prominent official of the American Express Co. The latter is at the lake to install the express office and from now on there will be every convenience at Hot Lake that other railroad stations have. It is also thought that Mr. Bollons and Mr. Buckley are taking a look at the proposed site for the new station.

W. C. T. U. Will Meet.

There will be a meeting of the W. C. T. U. at the home of Mrs. J. D. Gillilan, 1205 Fourth street Thursday afternoon at 2:30 o'clock.

O. R. & N. MEN PROMOTED.

About Ten Employees to Get Promotion by November First.

Following out its policy of promoting employees who have been long in service and have proved efficient in their respective duties, the Harriman system in Oregon will advance about 10 of its officials in the freight department of both the Southern Pacific and Oregon Railroad & Navigation Company, says the Portland Oregonian.

The first important change made recently was when Frank W. Robinson succeeded W. E. Coman as general freight agent of the O. R. & N. in Oregon. This promotion was the result of the resignation of Mr. Coman, who is now general freight and passenger agent of the North Bank Road and the Hill lines in Oregon.

Mr. Robinson has been connected with the Harriman lines for 19 years, and has since been in service continually, beginning as a clerk in one of the eastern offices when a boy. Mr. Robinson has been in Oregon less than a year, but is probably more familiar with the shipping situation than any one else connected with the road.

H. E. Lounsbury, now district freight agent of the Southern Pacific and O. R. & N. in Oregon. Mr. Lounsbury has been connected with both both lines in various capacities for more than 20 years, and is one of the best-known railroad men in the state.

J. H. Mulchay, now chief clerk in the general freight department of the O. R. & N. and Southern Pacific, is to be advanced to the position as district freight agent of the Southern Pacific. Mr. Mulchay has been with the Harriman lines for 19 years, beginning service as a messenger.

J. R. Stein is to succeed Mr. Mulchay as chief clerk in the general freight department of the Southern Pacific. Mr. Stein has been engaged as chief clerk in the department, handling interstate commerce subjects.

In addition to these changes five or six other employees will receive promotions. The appointments will become effective November 1.

270,000,000 Moslems.

Constantinople, Oct. 19.—That Mohammedanism is gaining converts more rapidly than any other religion and that it has a greater number of adherents, in proportion to the time it has been in existence, than Christianity is indicated by the figures compiled by Turkish newspapers in making a census of Moslems in all parts of the world.

According to these figures now practically complete, 270,000,000 people accept Mohammed as the prophet of God and the founder of the true religion. Of these, Turkey proper has one-tenth, or 27,000,000 and there are about the same number in the Sultan's Asiatic and African possessions. Twenty-four million subjects of the Great White Czar profess the Moslem faith and look to the Sultan of Turkey as their spiritual head. India has 60,000,000 followers of the Prophet. China, 40,000,000 Java 25,000,000, Arabia 20,000,000, Africa 20,000,000 and the Philippines and South Sea Islands about a million.

While these figures, from the necessities of the case, are only estimates, many European observers believe they are conservative. If so, Mohammedanism is the second religion, numerically, of the world, as the disciples of Confucius and ancestor worshippers are not believed to exceed 250,000,000 in number. Hindooism is estimated to have about 200,000,000 adherents, Buddhism 50,000,000 and Polytheism 120,000,000.

The number of Christians, active and nominal, in the world is placed by various authorities at from 450,000,000 to 500,000,000. The religion of Islam is progressing far more rapidly in many sections of the world, notably in India, China and Japan, than is the religion of Christ. The liberalizing influence of the Young Turks has been felt in religion as well as in politics, and many of the intolerant and objectionable features of the Moslem faith have been modified. The spirit of liberty and intellectual progress in Turkey has been manifested by the formation of a considerable school of intellectual agnostics, rationalists and higher critics, who are performing the same service for Mohammedanism that similar scholars have performed for Christianity. Until the deposition of Abdul Hamid, "infidel" was the name applied only to Christians and Jews, since every Turk was of necessity a Mohammedan.

FANCY SHOOTERS PRAISE THE WALLOWANS

PARKER SAYS GREAT INTEREST IN BEING SHOWN IN SPORT.

Teddy is Not Needed to Slaughter the Big Game in This Part of the Country.

W. R. Parker, who travels for the Remington company is in the city today on his way home to Baker from the Wallowa shoot which was held the first of the week. Mr. Parker is one of those fancy shooters who can entertain a large crowd with a rifle and a bunch of blue rocks. He says he is delighted with the spirit developing in this part of the state for hooting and it is his intention to do all he can to assist in making these events successful.

Just returning from a bear hunt this fancy shooter tells of nine bruin with age on them and five cubs being slaughtered without the assistance of Teddy, and also states this year for bear.

When the train on the branch was wrecked yesterday and a delay was necessary in the mountains, Parker enlivened the occasion by giving exhibition shooting while the wrecker was at work.

Wallowa Shoot a Good One.

"I consider the shoot at Wallowa a great event," said Parker this morning. "Had the weather been favorable it would doubtless have been the biggest thing of the kind ever held in Eastern Oregon."

The scores made at that shoot follow:
