Wash That Itch Away.

It is said that there are certain springs in Europe that give relief and cure to Eczema and other skin diseases. If you knew that by washing in these waters you could be relieved from that awful itch, wouldn't you make every effort to take a trip to Europe at once? Would you not be willing to spend your last cent to find the cure?

But you need not leave home for these distant springs. Relief is right here in your own home town!

A simple wash of Oil of Wintergreen, Thymol and other ingredients as compounded only in D. D. D. Prescription will bring instant relief to that terrible burning itch, and leave the skin as smooth and healthy as that of a child.

If you have not already tried it, get at least a 25 cent bottle today. We assure you of instant relief. The Newlin Drug Co.

NATURE'S WARNING.

La Grande People Must Recognize and Heed It.

Kidney ills come quietly—mysteriously.

But nature always warns you. Notice the kidney secretions. See if the color is unhealthy—

If there are settlings and sediment, Passages frequent, scanty, painful. It's time then to use Doan's Kidney Pills.

To ward off Bright's disease or diabetes.

Doan's have done great work in this locality.

Mrs. R. H. Hedrick, 619 Thompson St., Pendleton, Ore., says: "I can speak a good word for Doan's Kidney Pills for they were used in my family with the best of results. The person who took this remedy complained a great deal of a dull pain across the back and was also troubled by irregular passages of the kidney secretions. The use of two boxes of Doan's Kidney Pills corrected these difficulties and there has been no return at all."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. York, sole agents for the United States.

Remember the name—Doan's—and take no other. Oct 17-19-21

In buying a cough medicine, don't be afraid to get Chamberlain's Cough Remedy. There is no danger from it, and relief is sure to follow. Especially recommended for coughs, colds and whooping cough.

To Voters.

Less than 300 voters in the district affected signed the Washington-Multnomah county annexation petition; 500 in the district have signed a remonstrance, practically all outside the district are against annexation, yet you are called upon to vote the addition of practically one-fourth of Washington, one of the smallest counties, to Multnomah, already the wealthiest, most substantial and powerful. Voters of the state outside of the counties affected can know but little of these county division measures. We of Washington know nothing of the merits of those not affecting us, and believe such questions should be left to the counties affected. Washington county cannot afford to lose this territory and Multnomah does not need it. We ask you to vote 339 X No.—W. W. Wood, Chairman Anti-Annexation Committee, Hillsboro, Oregon.

If that won't check the falling hair and cause new hair to grow; nothing on this earth will.

SURVEYORS ARE IN MOUNTAINS

EXACT PURPOSE OF THEIR MISSION A MYSTERY.

Claim to be After Power Sites, But Otherwise Mission is Unknown.

Outfitting so quietly that no one was aware of the fact and leaving this city in the night to escape detection, it is said that six surveyor's crews all working under the same direction have gone into the mountains for the purpose of locating power sites. Nothing can be learned of the identity of the backers nor the purpose, beyond an assertion by one of the engineers that power sites were the objective.

The destination of the crews is divided into as many parts as was the gang of surveyors. They were going to the Alpowa, beyond Pomeroy, to the Patit, Tucanon, beyond Dayton; to the Walla river; to Mill creek above this city and to the Looking Glass and Salmon, on the other side of the mountains.

Just what the move means cannot be figured here. All clues to identity of the parties have been covered carefully. The engineer in charge of one party said he did not know for whom or what he was working, that he only knew he was going into the mountains to locate power sites.

It is variously thought here that it is a new electric line, a Strahorn move, a Pacific Light & Power company plan or that a new power company is to enter the field. All efforts to learn anything of the surveyor's plans have failed.

The Curious Mistletoe.

The story of how the mistletoe gets on the trees is a most interesting one. Covering the mistletoe twigs are pearly white berries. These come in the winter season, when food is comparatively scarce, and hence some birds eat them freely. Now, when a robin eats a cherry he swallows simply the meat and flips the stone away. The seed of the mistletoe the bird cannot flip. It is sticky and holds to his bill. His only resource is to wipe it off, and he does so, leaving it sticking to the branches of the tree on which he is sitting at the time. This seed sprouts after a time, and not finding earth—which, indeed, its ancestral habit has made it cease wanting—it sinks its roots into the bark of the tree and hunts there for the pipes that carry the sap. Now, the sap in the bark is the very richest in the tree, far richer than that in the wood, and the mistletoe gets from its host the choicest of food. With a strange foresight it does not throw its leaves away, as do most parasites, but keeps them to use in winter, when the tree is leafless.

Already Planned.

There were few persons who knew the Locke family even in a casual way who had not discovered that Mrs. Locke was in the habit of nagging her husband and children. She loved them dearly, but at times nobody would have surmised it.

"What did Mr. Locke say when he found himself safe after those hours of danger?" some one asked a friend who had been in company with Mr. Locke on an ocean steamer which met with an accident in mid-Atlantic. "He never says the ordinary thing."

"No," said the friend, with a dry smile. "He didn't that time. I said to him, 'James, we ought to make something more of our lives from having them spared to us in this way,' for I had felt pretty solemn, I can tell you. I've no doubt James did, too, but what he said was, 'William, a good share of the rest of my life will be spent in explaining to Theodora how I happened to choose that steamer when there were dozens of others that reached home without any accident.'"—Youth's Companion.
