FIRST-CLASS LAUNDRY WORK

If you are not a customer of Cherry's New Laundry we urge you to give us a trial. We guarantee all work to be satisfactory and will re-laundry any article not so found or cheerfully refund your money.

We want to build up a home laundry employing American labor, which will be a credit to the town. We merely ask a chance to prove that we can satisfy you. Can't you grant that much?

All work called for and promptly delivered. There is enough laundry work in La Grande to keep a good sized force busy and keep the money at home. Are you a booster for home industry?

We are now comfortably housed in our new building, just a few steps from Fir st. We are safe from dust and dirt and are easily found if you want to carry a bundle down town. But we'll gladly call in our wagon.

BANISH CATARRH.

Breathe Hyomei for Two Minutes, and Stuffed-up Head Will Vanish.

If you want to get relief from catarrh, cold in the head or from an irritating cough in the shortest time, breathe HY-O-MEI (pronounce it High-o-me). It will clean out your head in two minutes and allow you to breathe freely, awake or asleep.

HYOMEI will cure a cold in one day. It will relieve you of disgusting sniffles, hawking, spitting and offensive breath in a week.

HYOMEI is made chiefly from eucalyptus, a soothing, healing, germ-killing antiseptic, that comes from the eucalyptus forests of Inland Australia, where catarrh, asthma and consumption were never known to exist.

HYOMEI is pleasant and easy to breathe. Just pour a few drops into the hard rubber pocket inhaler, breathe it, and cure is almost certain.

A complete Hyomei outfit, including inhaler and one bottle of HYOMEI, costs only \$1.00 at the Newlin Drug Co. and druggists everywhere. If you already own an inhaler, remember that you can get an extra bottle of HYOMEI for 50 cents. For free sample write Booth's Hyomei Co., Buffalo, N. Y.

LITTLE BALD SPOT

Men be Sensible, Don't Let it Grow More Conspicuous.

If you are beginning to worry about that spot right on the top of your head, where the hair is thin or has disappeared entirely;

Don't worry any longer.

Go to the Newlin Drug Co. and get a 50 cent bottle of Parisian Sage.

If that won't check the falling hair and cause new hair to grow; nothing on this earth will.

Dandruff causes hair to fall and baldness; dandruff germs cause dandruff.

Parisian Sage kills the germs; eradicates dandruff; stops falling hair and itching scalp, or money back at the Newlin Drug Co.

It will cause the hair to grow, if the hair root is not dead.

It causes the hair to grow thicker, more luxuriant, and puts so much new life into it that it grows lustrous and beautiful.

The girl with the Auburn hair on every package. 50 cents at the Newlin Drug Co. and druggists everywhere. Mail orders filled by American makers, The Giroux Mfg. Co., Buffalo, N. Y.

CERRO, PERU, INTERESTS. LA GRANDE RAILROADERS

a week to get off his clothes. Also they belong to the union, and if you try to make them carry more than the stated 70 pounds or so, they lie right down and refuse to move. The natives in the hills use the wool for their clothes.

Enormous Hole in Ground.

These natives, called colos, are the descendants of the ancient Incas, made famous by the stories of their richness in the precious metals, and one can hear these same stories here in Peru, so there must be something in them. Right here in Cerro de Pasco I can show you a hole in the ground that would hold an ordinary sky scraper and have plenty of room left to wedge in three or four like the Wells Fargo building in Portland, and from this hole the paniards extracted four hundred years ago something like four million dollars worth of silver. The old church through which all of this passed is still standing up in town, though closed to the public now. Catholicism certainly extracted its pound of flesh from Peru in the early days, and while it is still the recognized state religion, and it is against the law to hold open services of any other nature than catholic, it lacks a great deal of having the hold on the people it used to have. True the priests still maintain a considerable hold on the women and children, and among the Indians, and a great many of the men of Peruvian blood are rather of no religion, than Catholic.

Choles.

But of the choles. They are harmless rather than otherwise. In fact they are more or less afraid of the Gringos. I think that may account to some extent for their harmlessness. Up here in the hills where it is rather chilly, and water is not over plentiful, they are almost entirely unwashed. Their hands and faces are caked with dirt, and as they have no fire in their houses they go bundled up almost all of the time. The women carry their babies on their backs in a shawl with the ends tied in front so as to leave their hands free. If they haven't got a baby on their back then they have a bigger pack of their personal belongings, or eatables, or whatever they really have collected together. They say the women never take off or throw away a skirt, but continue to put the new ones they get on over the old ones, till one can almost tell the age by the number of skirts, and they bulge out as if they were wearing the hoops of the American women of a decade ago. Their habit of speaking to you is rather attractive in its way. If you are out on the road a little ways from town perhaps, the most wrinkled old woman or a little bit of an urchin with his dirty face and ragged clothing will greet you with their rather expectant "Buenos tardes Senor," (good afternoon, Sir.)

Further to the northeast of here are several tribes of Indians, some of them cannibals. They have their poisoned arrows, and other means of torture. One tribe has a means of reducing the heads of their enemies killed, keeping the features lifelike, till they are only a four or fifth of their natural size. How they do it is unknown. Some Americans have secured heads of this kind as souvenirs, and value them highly. The lower country is very rich in rubber, and forests, and will grow anything of a tropical nature. Its development is hindered by those savage Indians, and lack of transportation facilities. Tributaries of the Amazon are navigable for up into the interior of northeastern Peru, a five or six days ride on a mule from here.

Wine Pops at Banquet.

In closing I must not leave the impression that all the natives are Indians. Not long since I attended a banquet given in honor of the Perfect, who is the same as one of our governors of state, and after the champagne had had a chance to take effect, there were all sorts of flowery speeches, patriotic and otherwise. Wine in its various forms is the main thing at a banquet in this country. They would hardly call a most elaborate dinner a banquet without wine.

The laws of the country cover every part of railroading, from the number of kilometers an engine can run until she is overhauled, to restricting the hand baggage a person carries that it may not interfere with some other passengers getting seats. The latter might be a good thing in the United States. I must pass over that however.
