Coast League Race Interests Local Fans

**BASKET BALL**

Great Interest  
More Players Than Ever

Basketball—for girls and boys alike—promises greater things for the season of 1910-11 than any fall outlook has yet presented. Greater interest, greater efficiency and a great number indulging in the indoor pastime are the self-evident facts.

**M. I. A. Team strong.**  
Reorganization of the M. I. A. team—always a contender for the basketball honors of the county has already taken place, and Manager Geddes—re-elected, is combing the county for games to start things off. A greater per cent of last year's team however plans on being here for the series of games, and some interesting contests are sure to ensue.

It is seldom that basketball fever is inoculated into the athletic inclined at this early date in the year, but it is so this fall and the consequence cannot help but be faster and better teams all around.

**The Delgas Plan Appearance.**  
The M. I. A. will not be alone in amateur basketball circles for the Delta club has a team in formation and will be in the running for the leading laurels.

**Football Over, Then Basketball.**  
In the high school it will be some time before the boys get going with basketball. Football must first be taken care of and then will come basketball all in its due season. With the loss of Childers, Carpy and Hamilton the high school team has to realign itself pretty thoroughly, but there is so much material at hand that the vacancies can be well taken care of. The Lambda Phi Alpha and the Blue

Mountain Association have each prepared players that will work in the regular high school shoes like a top.  
**Girls Already at It.**

A large squad of co-eds, augmented by new players who will make the old-timers sit up and take notice, are going through regular practices this week. Prof. Carruth is going to guide the destinies of the girls' basketball team this winter. Among the new faces is Miss Taft, who starred at the Pendleton academy recently. Her work has already attracted attention and much is expected of her. Other new players who are wearing the court attire at each practice are Helen Currey, Hallie Adler, Misses Topp, Massee. The squad, which it is expected will be enlarged from time to time, now includes among others, Runa Bacon, Captain, Calista Love, manager, Helen Currey, Serena Rohan, Ruth Cotner, Elva Greene, Anna Taft, Hallie Topp, Zoe Bragg, Olive Massee, Miss Adler and Gladys Oesterling.

**SPORTING COMMENT AND KINDRED SUBJECTS**

Union county has its share of honors at O. A. C. when football is discussed. Last Saturday Harry Walters, the Cove athlete, played one of the half positions with the regular team against Willamette, and this week "Shrimp" Reynolds has been switched back to quarter after all the other

candidates for the position have been given their chances to make good. It would not be surprising if Reynolds held that position for all the remaining games.

Dick Stanley, who held the world's championship as broncho buster at one time, was killed at Point Arena California, a few days ago, while riding the horse known as the "Black Demon," which fell upon Stanley and injured him so that he died soon after. Dick Stanley was well known by the broncho-busters of Eastern Oregon and information of his death came by letter to Henry McGrath, one of Union's riders who participated in all events looking toward subduing the wild and woolly cayuse.

La Grande, perhaps, is dippler over the "excruciatingly" close race between Portland and Oakland which ends a week hence, than any other town in the state. To make things all the more up to date, some of the rabid fans should throw in a bone and help the benefit fund of Portland. Found Portland lost and Oakland won yesterday the pennant is practically etched by the Beavers.

In Alf Lindsey, captain last year of the champion basketball team of Utah, at the Utah Agricultural college at Ogden, the M. I. A. have a clever leader. He is the son of Alex Lindsey of this city but during the past two years has not been seen in local togs because he has been acquiring skill and proficiency with the squad

at Ogden. The M. I. A. will benefit immensely by his presence with the team.

La Grande was some Rah! Rah! town sure enough last night; still these things are good tonic for the sourest stomach in the world. Show us the mortal whose hair does not raise and his pulse doesn't throb a wee bit faster and his blood pressure go up a mite when he sees and hears a lot of youngsters jip'n around some football game or other, and we will show you a mortal whose digestion is bad.

Baker City is writing to La Grande for a game this fall. The students and management are undecided just what to do, for taking on Baker City means running in more games than the directors will stand for, and after the Spokane game one more will be the limit. The local exchequer demands a game here Thanksgiving day if it would show a clean sheet, and Baker City cannot come on that date.

With the rivers, tules, swamps and marshes good feeding grounds for ducks this fall, hunters are meeting with more than the usual success. Sunday the hunters were numerous and were the supply not good; many a party would come home with his bag empty. China's pheasants too have been killed quite frequently since the birds could be lawfully shot.

George Ruckman, the Imbler farmer, has turned automobile agent and he now has the local agency for the White machine. He has a steamer "20" demonstration car here now and will use the Dettibrandt auto barn for demonstration headquarters.

Union either has a strong eleven this year or Baker City is weak. A week ago Baker scored only twenty-two points against the light aggregation from Union. Jones is out at Baker and that may have something to do with the small score.

C. G. Mickok of Portland was registered at the Sommer yesterday. Mr. Hickok represents various commercial lines. Among them is fishing tackle which he is working in the Wallowa country. Mr. Hickok is an ardent sportsman.

Dr. G. L. Biggers, Fred Dettibrandt and two Pendletonians were in Baker City yesterday in the Biggers machine. They are expected home this morning. J. W. McCormick, the Pendleton agent for the Franklin, was one of them.

An automatic legatrap, which throws the birds automatically has been ordered for the Union gun club. It will be installed and then the gun men over there will practice at frequent intervals.

The current issue of the Rural Spirit features Starlight King, the high school horse owned by Doctor W. T. Phyl.

Arlo Myer's memory was revived at the ball grounds today; his energetic, starry presence was noticed by everyone.

Johnnie Adams has just received from Frank Lilly a handsome Winchester trap gun which he will use in the future at the trap.

The open season on Buck deer and sage hens closes November first. Hunters should bear this in mind.

Pendleton and Pendleton academy were scheduled to clash at Pendleton today.

**Notice to Trespassers.**  
Positively no hunting allowed on our premises. Do not ask for permission. Blockland Bros.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take.

**Chalmers  
MOTOR CARS**

**Not How Many, but How Good**

The makers of Chalmers Cars don't try to turn out the greatest number of cars, but they bend every effort toward making the very best car in quality, workmanship, style and finish that can be produced for the money.

You don't buy a car simply because of price. A car that is thrown together hurriedly from ordinary materials is dear at any price.

You want quality first of all. You want service. There are many quality cars, but most of them have luxury prices.

In a Chalmers you have the combination of quality with right prices. That's why they are so popular.

New Models will be on exhibition at an early date.

We only ask that you see these cars for yourself and compare them critically with others.
