Everybody knows the kind of goods we carry, but nobody has known such prices on them as we are giving in this sale.

Moderate prices being the keynote of our policy, we would not promise you so much unless these bargains were extraordinary. **THEY ARE.** We have tried to prove this in type, but that is a difficult matter. The goods themselves will prove it conclusively and more easily than anything we might say.

We hope for the attendance of all our regular patrons. We invite also those who have not made our acquaintance to come and see for what little prices really good goods can be sold.

Remember that the quantities in most instances are small, but the prices are smaller still. So don't be late, come early.

Remember we give a liberal discount on every-
thing except rubbers and overalls

James McLaughlin, wife and child of Wallowa, are guests with the J. Clark and Mr. Ferris families in South La Grande. Both these families are relatives of Mr. McLaughlin. He is on his way to California to spend the winter, for his health.

Snails Are Queer Creatures.

The snail is found everywhere, over 3,000 species being known. Some of the large tropical snails, as bulimas, form nests of leaves, their eggs being as large as a pigeon's. The snail is extremely skillful in mending its shell, and some curious experiments may be made with them. Thus I have seen a holix of a yellow species attached to another shell of a reddish hue by cutting off the top whorl of the latter, when the snail will proceed to weld the two shells together and occupy both, using the addition as a door and possibly wondering at this sudden extension of its house. In the winter some of the snails hibernate or lie dormant until warm weather. A snail of the Philippine Islands has a faculty of throwing off its tail when seized. This is also true of a West Indian variety, stenophus.—London Telegraph.

A Brougham Pun.

John Brougham was celebrated for his ready wit, and a story is told of him and Pat Hearne, who was the Canfield of his day. Hearne was a big man and addicted to flashy waistcoats. In one of his parts Brougham made up to resemble Hearne and wore a particularly loud and gaudy waistcoat. Hearne's friends persuaded him to go to see the play, anticipating considerable amusement at his expense. As they were coming out of the theater he was asked what he thought of Brougham's performance. "Not a bit like me. Why, I wouldn't own such a waistcoat." Brougham, hearing this, said, "I see; he wouldn't acknowledge the Pat Hearne-ity (paternity)."—"Recollections of Lester Wallack."

Dead as a Doornail.

The phrase "dead as a doornail" originated in this way. In early days, when door knockers were common, the plate upon which the knocker struck was sometimes called a nail. In the course of years it was struck so often that all life was supposed to be knocked out of it; therefore when it became necessary to refer to anything hopelessly lifeless it was merely an emphatic expression to say that it was "as dead as a doornail."—Home Notes.
