Franklin Would Have Been Amazed

If his vision could have extended far enough into the haze of evolution to foresee the ultimate triumph of incandescent electric lighting—the GENERAL ELECTRIC MADZA LAMP.

The sage old philosopher flew his kite during a thunder storm, and, by means of a key attracted and discovered electricity, but evolution decreed that modern inventive genius should discover an incandescent lamp that is revolutionizing artificial light. THE GENERAL ELECTRIC MADZA LAMP gives nearly three times the light of the ordinary carbon incandescent—and costs no more to operate. In addition to this it gives light of a vastly superior quality—a clear white light like the sun's rays.

Everywhere people are having their houses wired for electric light, since the invention of the GENERAL ELECTRIC MADZA LAMP. It has made electricity as cheap as it is convenient. Come in for a moment today and let us prove to your entire satisfaction that there is no longer a possible excuse for you to be without the greatest of all household conveniences—electric light.

SKIN SUFFERER SAYS "IF I HAD ONLY KNOWN."

"If I had only known how quickly Eczema can be cured what long years of awful suffering it would have saved me," writes F. A. Will of 2506 Washington St., San Francisco, Cal.
