DR. M. P. MENDELSON

DOCTOR OF OPTICS

Chinese vs. White Men

"The white man is regulated by society and is heavily taxed to support the city, its schools and other institutions. He is expected to work, and only allow his employees to work a stated number of hours daily, which is quite right and proper.

The Chinese laundries are subject to no regulations. Old buildings are occupied. Here they sleep, amuse themselves and work under conditions which are extremely unsanitary. They work twice as long as a white man could, perhaps work for a penny or two cheaper, only because their mode of living enables them to do so. Every dollar they save is sent out of your country to China. You and your city lose.

A plant such as Cherry's New Laundry represents an investment of time, talent and thousands of dollars. A visit to this plant will show you that here is the "Spirit of the Times." Congenial employment is given a number of skilled assistants who live and spend their wages in La Grande.

Can you compare the organization and plan of this modern plant with the ill-kept Chinese laundries? To appreciate the difference, watch them, then watch us.

Steam laundry methods are perfectly sanitary. Our methods cleanse, we do not polish over and above the dirt.

We want you to think this over, then give us a chance to show you how nicely we launder your linen at very reasonable charges.

Perfection is not claimed, but it is our aim to get as near to it as possible.

FALLING HAIR.

Easy to Stop it and Make it Lustrous and Beautiful.

If your hair is falling out; if you have dull, unattractive hair, or if you need a daily hair dressing, read what Mrs. Hettie Hedgeman of Nelsonville, Erie county, Ohio, writes June 3, 1910, about Parisian Sage:

"I used Parisian Sage for falling hair and find it the finest thing I ever heard of. My hair was falling out by combs full, and I could run my fingers through it and they would hang full of loose hair. I washed my hair and got a bottle of Parisian Sage and used two applications, and I could see a great difference. My hair was lustrous and nice and had almost stopped falling out, and by the use of one more bottle it stopped altogether."

For women, for men or for children, Parisian Sage is without any doubt the finest preparation for the hair. It is guaranteed by the Newlin Drug Co., to stop hair from falling; to eradicate dandruff and stop itching scalp in two weeks, or money back. It is a most daintily perfumed and refreshing hair dressing, free from grease or stickiness, and ought to be in every home where every member of the family could use it daily. Large bottle 50 cents at the Newlin Drug Co. and druggists everywhere. The girl with the Auburn hair is on every package. Nov. 26-Dec. 7

to Imbler next Saturday night when the first game of the year will be played against the huskies from that town. Manager Geddes has hooked on about the hardest team in the county for the first game as the entire Imbler team of last year is back in the game and have been practicing consistently for the past several weeks.

Pendleton High is coming here January 28 to meet the L. D. S. team. This should be a highly exciting game and should give the fans a vision of fast basket ball.

Both the boys and girls' basketball rules for 1910-11 have reached here and the high school students are cramming on the rules. On the whole there have been but few changes, especially in the girls' rules which are identical with last year in the major respects. The boys' rules change somewhat but not in such a way as to make it particularly different from a spectator's viewpoint.

The B. M. A. has organized again for the winter and in all probabilities will have a class embryo gymnasium within a few days if negotiations for a "home" now on are closed. Basketball and handball will be specialized in this winter very likely though regular gym. classes will be conducted.

Some of the amateur teams of the city are finding difficulty in securing places in which to practice, and the Delta club is one of them. The skating rink is not to be thrown open to all teams this winter for practice work, though the manager is perfectly willing to have games played there. The city may need street improvements and more business houses but it also needs a public gymnasium fully as badly.
