Franklin Would Have Been Amazed

If his vision could have extended far enough into the haze of evolution to foresee the ultimate triumph of incandescent electric lighting—the GENERAL ELECTRIC MADZA LAMP.
The sage old philosopher flew his kite during a thunder storm, and by means of a key attracted and discovered electricity, but evolution decreed that modern inventive genius should discover an incandescent lamp that is revolutionizing artificial light.
THE GENERAL ELECTRIC MADZA LAMP gives nearly three times the light of the ordinary carbon incandescent—and costs no more to operate. In addition to this it gives light of a vastly superior quality—a clear white light like the sun's rays.
Everywhere people are having their houses wired for electric light, since the invention of the GENERAL ELECTRIC MADZA LAMP. It has made electricity as cheap as it is convenient. Come in for a moment today and let us prove to your entire satisfaction that there is no longer a possible excuse for you to be without the greatest of all household conveniences—electric light.

GIANT UMPIRES WANTED IN AMERICAN LEAGUE.
There are so many tall catchers in the American league that President Ban Johnson has instructed Chief of Umpires Jack Sheridan to recommend giants for umpirical positions. The shorts can't see over the shoulders of the towering receivers who stand behind the bat. Multitudinal Western association and European Eastern leagues are the new allies. The B. has a foundation for the new league.
