HARMONY AIDS GROWERS

FRUITMEN'S CONDITIONS ARE IMMENSELY BETTERED

Get-Together Spirit Has Much to Do With Fruit Success.

By A. P. Batcham, Practical Orchardist at Mosier, Ore., and Manager of the East Hood River Fruit Company.

The brightest sign of the time that I see for the fruit-growers of the Pacific Northwest is the increasing friendliness that comes from better acquaintance. The former feeling of bigotry, mistrust and bitter antagonism between different organizations and districts is disappearing rapidly and with it will go much of costly competition. missionary work, because of its interstate character is the Spokane National Apple show.

Great as is the gain to exhibitors from the publicity obtained through it I think a far greater good to the growers will result from the "get-together" spirit, which inevitably follows this intimate acquaintance of the show, and the friendly rivalry or emulation as to which can show the most marked improvement in product or packing.

The comparison of products and work from all sections makes for a liberal education and sends every visitor to the show back to his home with higher respect for all others.

At this convenient railroad center, the growers of Oregon, Washington, Idaho, Montana and British Columbia come with immense displays of their apples, put up in the best styles. I do not believe that the remarkable advance in excellence, noted these last three years, could have been reached in double the time through any other agency.

The standardizing of pack and packages, which has already been accomplished, is of inestimable value to the trade as a whole and is an index to what may be achieved in the near future when the growers, through their local fruit unions, cordially unite in systematic methods of marketing.

The apples from all districts of these five states must meet in the same markets. Why should not we growers meet beforehand and harmoniously plan the campaign?

You have already been told that definite steps were taken at Spokane to inaugurate this movement and doubtless will soon hear much more about this live topic. What I say is merely to add what emphasis I can to its importance and bespeak the most careful and broad-minded consideration of any and all proposals that may be advanced in seeking a solution of this problem.
