this connection a petition signed by 125 business men and voters asking for the appointment of L. M. Hoyt, present assistant superintendent, was read to the council. As the water superintendent has not been appointed it is natural of course that the office of assistant will go unfilled as well.

C. T. Darley was recommended as city engineer to succeed "Doc" Curtiss but action on ratification was deferred on this too. The same was true on the recommendation for assistant night patrolman. Mr. McCorkle was nominated by the mayor but action was deferred.

## MAKE ROOM FOR NEW SALOON

O'CONNEL BAR TO FACE ON JEFFERSON AVENUE.

Cigar and Pool Room to Join it and Face on Depot Street.

La Grande's new saloons are rapidly nearing the point where all of the eight will be open to business. J. P. O'Connell, the last man to secure a license, is fitting his place of business up for speedy opening for trade. The cigar store and billiard hall which he has operated will be remodeled so that what was formerly the billiard hall will now be the saloon and will front on Jefferson. The former cigar store has been enlarged by tearing out the partition between it and the Wilson real estate office and combining the two rooms in one. A cigar store and billiard hall will be put in shape there, and it will front on Depot street. Herman Roesch, next to the last man to get a license, will do business in the place known as the Blue Front.

## POPULAR YOUNG MAN BURIED

ELABORATE BANKS OF ROSES BURY CASKET AT CHURCH.

Practically Entire Town of Perry Attends Funeral Here Today.

Marked by the attendance of practically every family in Perry and scores of friends from this city, and with one of the most elaborate banking of flowers and roses seen here in years, the funeral of the late Albert Hanson, son of Mr. and Mrs. C. M. Hanson of Perry, was held this afternoon from the Presbyterian church. The young man was extremely popular in Perry—he was born and raised there and everyone knew him intimately. He was killed earlier in the week by an explosion of a heating tank.

An entire drayload of flowers and roses banked the casket as it lay in the church. The attendance was large, comprising his host of friends from Perry and here.

He is survived by his father and mother and an older brother, Harry, his sisters, Agnes, Margaret and Cornelia.

## MRS. KERSH IS SENTENCED

GIVEN FIFTEEN YEARS IN THE STATE PRISON.

For Complicity in Trunk Murder in Portland Must Stand Term.

Portland, Jan. 5.—Mrs. Carrie Kersh, convicted of manslaughter for assisting Webb in the murder of William Johnson, the trunk victim was today sentenced to fifteen years in the penitentiary. She took her sentence calmly. A stay of the sentence for thirty days was granted.

and inventions are lessening toll and anxiety. But our very prosperity has led to richer and ampler diets, and there is where the mischief lies—there, and in our indoor life. We shun nature, we shut out light and air; we walk little and seldom eat or rest in the open air, in gardens, fields or on porches.

This is all wrong, and the wages of this wrong are ill health, depression, gloom, the shortening of the natural span of life. Habits of outdoor life should be formed early—at school, as much teaching as possible should be done in the open air—and as much playing likewise. After graduation boys and girls should continue to cultivate the outdoor life and families should continue the practice.—Chicago Record-Herald.

### WOMEN IN PORTUGAL.

Dig In the Fields and Do Laboring Work in the Cities.

A good part of the farm work is performed by the women, who see no reason why they should regard digging, hoeing and plowing as the work of men alone. The man who owns a few acres of land will often leave its cultivation to his wife and daughters, while he labors as carpenter, stonemason or cooper, for caskmaking is one of their important industries. He also likes to get a job as a waiter in one of the numerous hotels at seaside resorts, for the country has thousands of continental and English visitors.

Women share in the heavy work of the cities as well. There are female porters, laborers on the docks, market tenders and even women coal heavers, fishermen, or, rather, fisherwomen, and sailors. They are as strong and hardy as their husbands and brothers and seem to stand long hours and hard labor as well.

Of course it rather takes away the glamour of romance when one sees a young woman with finely chiseled features and beautiful black eyes digging with spade and mattock or heaving a basket of coal into a ship's hold with as much ease as the American girl plays tennis and golf. Women seem happy under what we would consider hard conditions, so the reformer would probably have his labor for his pains if he suggested a change in this department of Portuguese national existence.—Christian Herald.

### KILL THEM YOUNG.

Do Not Tolerate Weeds in the Garden of the Soul.

An old man was once walking with a little boy. They came across four shrubs. The old man said to the youthful companion:

"Pull up the last one."

He obeyed with ease.

"Now the next."

He obeyed, but it did not come so easily.

"And the third."

It took all his strength to move its roots.

"Now the fourth."

In vain the lad put forth all his strength. He only made the leaves tremble. He could not move the roots. They had gone strongly into the earth, and no effort could dislodge them.

Then the wise old man said to the ardent youth:

"This, my son, is just what happens with our passions. When they are young and weak one may by a little watchfulness over self and the help of a little self denial easily tear them up, but if we let them cast their roots deep into our souls there is no human power can uproot them. The almighty hand of the Creator alone can pluck them out. For this reason, my child, watch well over the first movement of your soul and study by acts of virtue to keep your passions well in check."—St. Louis Globe-Democrat.

### DIET AND AGE.

Proper Eating Would Insure Better Health and Longer Life.

Medical experts, insurance men, educators and teachers of the science of health and happiness generally are in favor of simpler living and a return to nature. The mortality of adult age—of the period between forty and sixty—is increasing, but it is not due to the stress of modern life, to worry and overwork, as some have supposed. It is due, we are assured, to overeating and bad diets. There is every reason why we should live longer and be healthier, for statistics are increasing

### HER HOMEMADE HAT.

It Brought a Proposal That She Promptly Turned Down.

The bohemians were making merry in the dim lit studio discussing the latest novel that one of their number was trying to write, the brutal editor who had refused the best article ever written—a masterpiece of the host—bemoaning the nonintelligence of the art critics, execrating the mercenary theatrical manager and utterly repudiating the general public—the vast horde of the Philistines. By way of diversion the painter of pastel portraits said to the bachelor maid:

"That's a charming hat you have on. Who else would know enough to combine turquoise and old rose? You have a genius for color. What a pity you only write!"

"Glad you like my hat, anyway. I made it myself. I trust it will only enhance its merit in your eyes to know that it cost me but 50 cents."

"Impossible!" screamed all the bohemians with one breath, ceasing their arguments in order to take notice of the vastly becoming creation which capped the bachelor maid's brown hair.

"Fifty cents, did you say?" asked the man who once wrote a poem—aye, and had it published. Then rising, placing his hand above his heart, bowing low and solemnly, he said: "Fair one, will you be my wife? All my life I have been looking for a woman who could trim her own hats for nothing. Pray be mine."

"Nixie!" scoffed the bachelor maid cruelly. "All my life I have been looking for a man who would be willing and able to pay \$50 for my hats."—New York Press.

### FIGHTING LIFE'S BATTLE.

Of Things That Must Be Done Tackle the Hardest First.

I know a very successful man who early in life resolved that no matter how hard anything might be or how seemingly impossible for him to do he would do it if the doing would prove of value to him, says Orison Swett Marden in Success Magazine. He made this the test and would never allow his moods or feelings to stand in the way of his judgment. He forced himself in the habit of promptly doing everything, no matter how disagreeable, if it would further his advancement.

People who consult their moods, their preferences or their ease never make a great success in life. It is the man who gets a firm grip on himself and forces himself to do the thing that will ultimately be best for him who succeeds. The man who goes through life picking out the flowers and avoiding the thorns in his occupation, always doing the easy thing first and delaying or putting off altogether if possible the hard thing, does not develop the strength that would enable him to do hard things when necessity forces them upon him.

It is pitiable to see young men and women remaining far below the place where their ability ought to have carried them just because they dislike to do disagreeable things until compelled to. The best way always is to tackle the hardest things first.

### A Snake Tale.

A man took his small son to the park. They fed bread to the swans and then stood for a long time in front of a cage of serpents. The boy looked at them with fascinated eyes. At last he exclaimed, "I like these tails all right, but where are the animals?"—Lippincott's.
