FEW CHANGES ASKED FOR

ROBERT EAKIN JR. IS SECRETARY OF COMMISSION.

Headquarters for Water Commission to be Brought to La Grande.

According to George Cochran, superintendent of water division No. 2, there will only be minor changes made in the water law provided the legislature listens to the request of the board. He says it is a very good measure as it stands and with a few small changes in order to better facilitate the handling of cases he thinks it will render the state a great deal of good.

Mr. Cochran has just returned from the state capitol where he will practically be headquarters of the board so far as Eastern Oregon is concerned and most of the cases handled in this section of the state will be reviewed and passed upon by Mr. Cochran in his home office. This will necessitate an increased office force and will bring to this city considerable prominence for La Grande will be known to every water litigant.

James Chinoek, formerly a law partner of Samuel White at Baker City, is the other member of the board. He was elected from the first district, having removed there when he was appointed secretary of the old board. His ambition was to become water commissioner and when the landslide in politics appeared this fall he grabbed it by the horns and rode into office. According to those who should know he will make a good official because of his former training during his term and secretary of the old board.

Robert Eakin Jr. is Named.
At the new board's organization it was necessary to name a new secretary and Robert Eakin, a former La Grande boy, and son of Supreme Judge Eakin was appointed. The salary attached to this office is \$1200 per year.

OREGON FIR WANTED.

Bids Are Solicited in East for Boat-Building Purposes.

Oregon fir's superiority for boat-building purposes has been recognized by government officials in the east who are soliciting bids from local dealers for furnishing them with 249,466 feet of finished lumber, says a Portland exchange. The proposals came from the United States Engineer's office at Oswego, N. Y., copies of which were received by Major Jay J. Morrow, Corps of Engineers, U. S. A., this morning.

It is the first time representatives of the government on the Atlantic coast have taken steps for procuring a quantity of the finished product of Oregon's forests. The specifications state that the lumber must be Douglas or Oregon fir. It must be dressed on four sides and a portion of it seamed for calking. By the description it is taken that the timbers are

needed for boatbuilding purposes. The bids will be opened at Oswego January 16. Those competing for the order are permitted to quote prices f. o. b. cars at Portland. All of the various dealers are being apprised of the matter and it is presumed they will submit bids.

"My darling," said he, "it can not yet be,
Though it does break my heart to postpone it.
A year or two more, perhaps three before,
I can furnish the house, though I own it."

"Why George, she replied, "this ad. should decide
If you're anxious to wed why delay, dear?
They'll furnish our home from cellar to dome,
And give us our own time to pay, dear."
