### The First Question Asked

—when buying or renting a house, the ONE question of the modern renter or buyer invariably runs this way:

### Is the house wired for Electricity?

EVERYBODY has come to realize that electric light is not a luxury they want, but a Necessity they must have.

### ADOPTS NEW WAY OF OBSERVANCE

COMMONWEALTH DAY AT UNIVERSITY INTERESTING.

Many Things Discussed That Were of Importance.

University of Oregon, Eugene, Or., Jan. 19.—(Special).—A novel and interesting program occupied the Friday afternoon session of the Commonwealth Day exercises, when the students took complete charge of the program for the first hour. Charles Robinson, after the introductory talk of President Collier, read lengthy resolutions, commending the Commonwealth plan and urging student support. An able discussion by the students followed. Tom, '11, told of the student's obligation to the state for his education, and his moral responsibility to initiate civic reform wherever the opportunity is offered. Leslie Doble, '11, talked of the wonderful undeveloped resources in the state, and the part the college should play in the development of them. Ralph Moores, '10, discussed the portion of Governor West's message concerning higher education, commending his liberal views and favorable attitude toward the two big Oregon colleges. The resolutions were unanimously passed.

H. A. Darnell, state lecturer of the Oregon State Grange, gave a short talk on Oregon's need for a greater appropriation, promising his support in the move.

The meeting was characterized by a show of the famous Oregon spirit. The Glee club was heard for three numbers and the session closed with enthusiastic college yells, loudly given by about 150 rooters.

### BAD DREAMS.

Nightmare, Restlessness and Night-Sweats Caused by Indigestion

Half of the nervousness in the world, all of the disturbing dreams and nightmares can be ended in a few weeks by a simple, inexpensive treatment guaranteed by the Newlin Drug Co.

Upset stomach is the cause of nervousness and bad dreams. Your food is lying in your stomach undigested and fermenting; it is forming poisonous gases which irritates the pneumogastric nerve that leads direct from the brain, and ends in a network of tiny branches running through the stomach.

It is also the irritation of this great pneumogastric nerve that causes headaches. Many times people have severe headaches and know they are caused by the stomach, but do not know how.

If you are nervous, have dreams or nightmare, and do not sleep sound at night, get a 50 cent box of MI-O-NA stomach tablets and take one or two after or with meals. MI-O-NA stomach tablets relieve distressed stomach in 5 minutes. Sold by the Newlin Drug Co and druggists everywhere who guarantee MI-O-NA to cure indigestion, or money back. Jan 10, 19, 31

### SPOKANE BUILDS AIRSHIP

TOWN THAT HAS MANY AIR CRAFTS ENTERS FIELD.

To Put 100 Horse Power Motors in Flying Machines.

Spokane, Wash., Jan. 19.—Two Spokane men will get the credit of originating a new idea in aeroplane construction, according to experiments and the forecasts made by many flying machine men who have seen the models at work here.

The airship is known as the Coyne Helicopter and it is the invention of Dr. W. E. S. Coyne and George Foster, both of Spokane. The declared possibilities of the machine are such as to startle those who are not familiar with the plans.

Instead of a little six-cylinder engine, the Helicopter will be equipped with four 100-horsepower motors to work the planes above the machine, which rotate at a rapid rate and give the airship a lifting power of 125,000 pounds. An additional motor of great power is installed to run the propeller which drives the machine ahead.

The car is built on the idea of a plum-bob. It cannot "turn turtle," for it will always hold its poise and is designed in such a manner as to enable it to land on the top of a roof. It requires no flying start, but once the machinery is set in motion it can rise immediately into the air.

The two sets of planes are miniature biplanes and the upper and lower sets rotate in opposite directions. They are installed at an angle and the speedy rotation gives it the tremendous lifting power. It is estimated the car will have a speed of from 75 to 150 miles an hour. According to the computations made it is expected to be able to carry from 35 to 40 passengers.

A company has been formed under the name of the Coyne Helicopter Airship company, and has miniature models on exhibition here. The company is now planning the erection of a full-sized aeroplane.
