reaved by the death of his wife.

F. S. Bramwell, field superintendent for the Amalgamated Sugar company, is a business visitor in Baker today, going east on Number 6 this morning.

## FOUR CLUBS TO ORGANIZE

### BAKER AND LA GRANDE NOT TO BE INCLUDED.

Pendleton Athena Weston and Walla Walla to Perfect Club.

Walla Walla, Jan. 30.—All hopes of Walla Walla being included in the recently formed Inland Empire circuit class "D" league for the coming season were shattered Saturday when it became known that the league had been formed by its backers in Spokane, but Walla Walla, Pasco and Kennewick, the latter two planning to enter a joint team, were left out. The league as now formed will include the towns of Spokane, Coeur d'Alene, Rosalia and Colfax. Manager Denno of the lake city team is promoting the league and has already secured capable managers each of the cities to be represented, Ripley a former Independent pitcher, has already signed up with the Colfax club.

It had been hoped by local fans that a place in this league would be secured for Walla Walla, but owing to lack of a leader and financial reasons which are familiar to everyone here, the management decided to get along with the four clubs mentioned. This is an old story of Walla Walla's attempts to have real league ball, and it was with much regret that local fans have given up the proposition.

That the city will not be without good league ball, however, is now practically assured, all credit due to the efforts of Manager August Bade, of the local team last year. Bade attended a meeting in Pendleton recently where the organization of what is known as the Blue Mountain league was discussed by representatives from the four cities interested, Pendleton, Weston, Athena and Walla Walla.

The Blue Mountain league was organized last year and ended successfully, and this year it is the intention to organize on a sounder basis and serve up regular class "D" ball during the spring season. Pendleton baseball lovers were enthusiastic over the proposed reorganization. L. Frazier, who managed the Pendleton club last season and Clark Nelson, president of last year, stated that they were willing and ready to assist in reorganizing this year.

The expenses of the different teams in the league last year were lumped and each club assessed an equal amount. The plan worked excellently and it is thought will be used again this year.

Another meeting of those interested will be held in Weston one week from yesterday, when final arrangements will be made and formal organization perfected.

With Pendleton, Athena, Weston and Walla Walla in a league together, success seems certain with the proper article of ball. Travelling expenses are light between the towns, the rivalry existing is keen enough to create an interest among the fans of each town, and the spirit of friendliness and goodwill existing between those promoting the league in each town is unusually noticeable. Squabbles such as existed when Baker City and La Grande were in a similar league would not exist and with proper management there seems no reason why this league should not be a grand success.

### To Cure a Cold in One Day.

Take Laxative Bromo Quinine Tablets. Druggists refund money if it fails to cure. E. W. Groves signature is on each box, 25 cents.

The goods are going fast but we can supply your every want, don't hesitate, but hasten to this great bargain carnival.

## LEWIS BROS. & CO.

1305 Adams Avenue

### FIREMEN HAVE PIG DINNER

Listened to Music and Ate of the Swine Last Evening at Hall.

One of the good time events of the present season was a pig dinner held last night by local firemen in the hose house of the city hall. Chief Joe Jones was in command and did the Chesterfieldian act to all guests. The La Grande band furnished music and after several selections Chief Jones announced that the pig was ready to be served, and it was served in the most approved style. A number of guests were present and all had a splendid time.

### Permitted Law Infringement.

Washington, Jan. 30.—An infringement of the customs laws of the United States was sanctioned by the Comptroller of the Treasury in order to facilitate the work of safe-California from flood damage consequent to the annual inundations of the Colorado river.

The Comptroller in a special opinion permits Special Disbursing Agent J. C. Hering, of Yuma, California to pay the customs duties on materials shipped into Mexico by check, and through a third party, and also authorizes the use of American fifty cent pieces as Mexican dollars in this payment. Much of the work authorized in the million dollar appropriation by congress last year for guarding the Imperial Valley has to be done in Mexico, where the troublesome Colorado river runs. When the engineers began work they discovered that while it was easy to confine the Colorado river on the American side of the boundary line, it was imperative that some work be done on Mexican soil.

On informational agreement was finally negotiated to permit of this. Then the obstacle of Mexican duties developed. In order to remove this, the Comptroller decided to sanction a violation of the laws, Statutes in force now prohibit all of the things which the Comptroller in his opinion permits Hering to do. The Special Disbursing agent before the granting of this permission found it impossible to supervise all exportations of materials and machinery to Mexico because the customs house was

ten miles distant from his office, and also found it impracticable to make payments of Mexican customs duties in the coin of that nation.

### Will Fill Big Bridge.

Portland, Ore., Jan. 30.—One of the longest wooden railroad bridges in the world is soon to be filled. This prominence is claimed for the structure over Sprague Gulch, where the Spoken, Portland & Seattle Railway crosses it, about 40 miles west of Spokane. It will cost about \$400,000 to fill it and the contract has been let.

The railroad trestle is 5,000 feet long, almost a mile, and varies in height from 40 to 90 feet. It will take about 2,500,000 yards of earth to complete the fill, it is estimated. A tract of 100 acres nearby has been purchased by the railroad company and steam shovels will scoop the dirt into the cars, which will dump it into the gulch. An idea of the magnitude of the work may be gained from the fact that it will take at least two years, and possibly longer, to complete the job.

The gulch spanned by the trestle is a very long and deep ravine, but comparatively little water flows through it. A concrete arch will provide for the flow of this water.

### MONEY BACK

On That Basis the Newlin Drug Co. Will Sell you a Bottle of Parisian Sage Hair Grower.

Hair must have nourishment or die. If it does not have proper nourishment it will lose its vitality, grow weak, and become an easy prey to the ravages of the vicious germs of dandruff.

Parisian Sage is a hair nourisher; it is the result of sincere study and experiment by one of the world's leading scientists.

It should be used regularly as a hair dressing by everyone with healthy hair, because it never fails to prevent dandruff, falling hair, or any scalp disease.

But Parisian Sage is not only a preventive it is a certain cure for dandruff; it stops itching of the scalp instantly; it makes hair grow thick

and luxuriant. It is especially in demand by ladies, because it makes the hair beautiful, soft and fluffy. It is sold by the Newlin Drug Co. and druggists everywhere, under a positive guarantee to do all that is claimed for it, or money back.

Mail orders filled, charges prepaid, by the American makers, the Giroux Mfg. Co., Buffalo, N. Y. The girl with Auburn hair is on every package. Jan 11, 21 Feb. 1
