Extension elephone

The Pacific Telephone and elegraph Co.

An extension is an additional telephone connected on the same line as the main telephone.

It may be located in any part of the

It may be a wall or desk type. It may have a bell or may not have

bell, as the subscriber may wish.

When a bell is installed on the exrension it will ring whenever the bell ings on the main telephone.

An extension will save many steps in running to the main telephone to send or receive calls.

An extension will save the climb-

An extension telephone will save the

limbing of stairs

An extension telephone will be found to be one of the most useful appliances in the modern household.

Let us suggest a convenient extension service at a low cost. Consult our local manager.

COMMITTEES REPORT ALL WELL EVERYWHERE.

Most Fashionable Function of the Year Occurs This Evening.

With afternoon trains bringing in guests from out of town, and more to come on the night trains, Elkdom of Eastern Oregon is making La Grande its mecca tonight. The annual most elaborate of any social function attempted during the year occurs tonight and not only are the orators tions are as near perfection as human hand can make them and the banquet will be ready for the diners at the proper hour.

The spacious dance hall under the direction of Mr. F. B. Conners and assistants has been turned into a wonderland. The walls are adorned with beautiful and rare Elk heads, pictures and Elk robes; The stage has been converted into a miniature forest from which protrudes the head of the embl:m of the order. And the center of the dance hall is occupied by a life size Elk surrounded by miniature pine trees.

The following committees have had the arrangement for the ball under

Bryce Commends Canal

Washington, Feb. 22-Enthusiastic tribute not only to the skill of American engineers in the Panama Canal but to the United States for its devotion to the vast project is found in the recent words of Ambassador Bryce of Great Britain. The Ambassador pronounced the canal. "A magnific nt work which sands alone in the appals of the world."

With the approach of the time for the opening of the canal and the dis- mach tablets. cussion of the part it is to play in the future history of the world. Washington has been listening eagerly for ness will disappear. some expression of opinion from the

European powers. Ambassador Bryce is the first of European statesmen to respond.

When asked for a statement of his views regarding the canal the Ambassador declared that he could not violate his rule, adopted when he became Great Britain's representative here, of never giving an interview He added, however, that at a recent dinner in this city, he had present d his views on the Panama canal. Quoting from memory, he repeated his remarks as follows:

"On my recent visit to the canal, where I was shown every courtesy by the officials there, I was profoundly impressed by the grandeur of the work and by the amount, not only of labor, but skill which had been applied in its construction.

"All of the appliances at work for digging and building the canal were striking instances of modern science. and of the extraordinary capacity of American engineers that have developed for the turning the results of science to the best advantage.

"All England admires the zeal and energy with which the United States is devoting herself to the completion of this magnificent work, which stands alone in the annals of the world. It may have most important results in its effect on the great lines of international commerce."

ROYAL **Baking Powder** Economy

The manufacturers of Royal Baking Powder have always declined to produce a cheap baking powder at the sacrifice of quality.

Royal Baking Powder is made from pure grape cream of tartar, and is the embodiment of all the excellence possible to be attained in the highest class baking powder.

Royal Baking Powder costs only a fair price, and is more economical at its price than any other leavening agent, because of the superlative quality and absolute wholesomeness of the food it makes.

Mixtures made in imitation of baking powders, but containing alum, are frequently distributed from door to door, or given away in grocery stores. Such mixtures are dangerous to use in food. In England, France, Germany and some sections of the United States their sale is prohibited by law. Alum is a dangerous mineral acid, and all physicians condemn baking powders containing it.

The label of alum baking powders must show the Ingredients.
