L. S. Kelley, a well known North Powder stockman is in the city today. Mr. Kelley is putting on the market 1500 acres of irrigated land under two ditches which are all completed, excepting three miles. This land will be cut up into 40 acre tracts.

RUSIE'S TERRIFIC SPEED.

His Thunderbolt Delivery Terrorized the Batters.

A veteran ball player who has batted against nearly all of the noted pitchers in the last twenty years named Amos Rusie as the universal standard of speed in shooting the ball across the rubber.

"There have been many fast pitchers in baseball, and all of them in their time when they cut loose for fair have baffled the best of hitters with their speed, but you will notice that when fast pitchers are spoken of the one remark is always made, 'Has he the speed that Amos Rusie had?' And, I think, it will be that way forever. As long as great names are remembered or baseball is the nation's game Rusie will remain the champion speed merchant, the one pitcher who could send in the ball faster than any one else that ever lived. When you say 'fast as Rusie' you don't mean it, either; you only wish to show that your favorite pitcher is a very speedy boy.

"Words fail really to describe the speed with which Rusie sent the ball. He was a man of great width, great strength and the ability to put every ounce of his weight into the pitch. Coupled with this he had a set of dazzling curves which were manufactured with the same effort required to produce the speed. Some men can throw a straight ball with great force, but have to slow up in order to develop curves, but Rusie drove in a curved ball with all of his tremendous power.

"Facing Rusie to a timid man was like going into battle must be to an inexperienced soldier. The distance was shorter then. Rusie had the whole box to move around in instead of being chained to a slab, and he simply drove the ball at you with the force of a cannon. I have stood up to all the great pitchers of nearly twenty years. I have seen scores of them come and go, and none of them inspired the terror in a batsman's heart that was put there by the mighty Rusie. The ball was like a white streak tearing past you without time to balance yourself or figure the course of the ball [illegible] at it. The fellows [illegible] a night [illegible] fool you [illegible] sing them, but [illegible] out at Rusie—[illegible] white streak [illegible] you [illegible]

"T[illegible] [illegible] [ter]rib[le] [illegible] other [illegible] [R]usie [illegible] from the [illegible] to the hos[pital] [illegible] was worse than [illegible] man smash you with a [illegible]."—New York World.

Her Declaration.

"Have you anything to declare?" asked the customs inspector.

"Yes," replied the lady who was returning from Europe. "I unhesitatingly declare that it is an outrage the way this government permits things to be mussed up in one's trunk."—Chicago Record-Herald.

Let those who complain of having to work undertake to do nothing. If this does not convert them nothing will.

Tender Hearted Youths.

Sympathetic Old Lady—You're kind hearted boys to help that poor fellow up. Here's a quarter for some candy.

Enthusiastic Small Boy (helping fat man worse for, liquor)—Thanks, missus, but jest hang around a minute and watch th' fun when he falls ag'in. —New York Times.

TOUCHY SERVANTS.

Japanese Nesans Have to Be Handled With Gloves of Velvet.

Japanese servants must be treated with tact, however trying they may be, and often they are very trying indeed, especially the nesans, who are usually untidy, cross and lazy. Yet the dear little things have admirers who praise their kittenish ways, their tiny hands and even, of all things, their artistic temperaments.

A certain writer solemnly says: "A Japanese nesan—any nesan, even one in a hotel—will set out your hairbrushes, clothesbrushes, nail scissors, collar box and tooth powder on the average hotel dressing table and make a design of them—a picture, an artistic whole." All I can say is that no nesan has ever arranged studies of still life with the nail scissors and the tooth powder for me, though, possibly by way of compensation, one has started little lakes of boiling water on my carpet when I rang for you, or toppled over the morning tea tray and arranged the fragments in an unconventional design on my bed quilt, or dragged a table with scrapings in a minor key the whole length of the veranda.

If corrected roughly the maiden will first cry and then leave. The hotel manager is well aware of this—aware with all the nervous perception of a person whom one hasty or ill considered sentence can throw into a situation seriously threatening his comfort and prosperity; hence his attitude of habitual meekness. He dares not let his little lecture slide over the line which divides it from a scolding and is careful to deliver a necessary exhortation with a smiling face and frequent laughs just to show that it is really not a scolding at all.—St. Louis Post-Dispatch.

Couldn't Kill Him.

"Spotted fever" received some queer treatment in John Wesley's day, according to Wesley's journal of September, 1746. A man named John Trembath had the fever, and Wesley wrote: "It was the second relapse into the spotted fever, in the height of which they gave him sack, cold milk and apples, plums, as much as he could swallow. I can see no way to account for his recovery but that he had not yet finished his work."

Abraham Could Read and Write.

Some people persist in thinking that the art of writing is recent and that in primitive times poems and literary productions had to be memorized. But more than 3,000 years before the Christian era people in Abraham's native town wrote receipts for garden and market products just as we have them now, showing that the patriarchs certainly must have known how to read and write.—Dr. William Hanna Thomson in Designer.

Not Interested.

"You really ought to take up the study of reincarnation," said the young woman of great mentality.

"Not I," answered Mr. Dustin Stax. "These investigations are giving me all the trouble concerning my past that I can handle at present."—Washington Star.
