**WONDERS OF LAVA**

This Molten Rock is a Most Peculiar Substance.

**REDHOT SNOW SANDWICHES.**

Curious Effect on Mount Vesuvius Produced by the Lava's Amazing Properties as a Nonconductor of Heat—Deadly Volcanic Ashes.  
 Vesuvius, the most famous volcano in the world, with its mighty vomitings of lava and dust, is guilty of many queer freaks. Mighty rainstorms have set in motion the lava dust and lava cinders that lie on its sides, and torrents of muddy lava have overwhelmed towns and villages as it swept down to the sea. The resulting effect from this has been so great that it changed the face of the coast line by forming a new promontory.  
 Lava is one of the most curious of substances. It is simply rock melted by a heat so intense that it flows like thin gruel. When Vesuvius is in eruption thousands of tons of it are squirted up the "pipe" and out of the crater. As it flows out over the edge it soon cools and leaves a thick, ropy coating which spreads over the entire countryside.

But it is only on the top that it really cools. A few inches below the surface of the lava is often red hot. Visitors are often invited to light their cigarettes in the chinks of a bed of lava that has been lying out in the open air for twenty years or more.

It is the most wonderful nonconductor of heat known. Borings made through some lava beds have shown that they are made up of layers of lava and layers of unmelted snow. As successive torrents of lava came pouring down the surface that lay on the snow cooled at once, and the surface open to the air also cooled at once. But between the two surfaces there was blazing heat; so if you bored down through some lava beds you would find a cool upper surface, a redhot inside, a cool layer, snow, a cool layer, a redhot one, a cool one and then snow again.

In fact, a layer of lava will let neither heat nor cold through. If you built a house entirely of lava on a scorching summer day you would still have 95 degrees inside when there was snow outside. If you built it in the winter ice would form in your parlor in July.

This clearly demonstrates what an extraordinary nonconductor lava is. There is, indeed, on the slopes of Vesuvius a little lava but into which summer visitors put bottles of wine to get them chilled.

When a volcano throws its lava out with such tremendous force that it jets high into the air it very often falls in the form of dust, owing to the explosive power of the high pressure steam that spurts out with it. It bursts into a fine spray and falls as dust—dust far finer than any other dust known.

It is so fine, indeed, that sometimes years elapse before it settles. When the mighty island volcano of Krakatoa blew itself nearly into bits in 1883 with a crashing sound of cannonading that smashed windows hundreds of miles away the lava dust was so thick in the air that for hundreds of miles round midday was as black as night. Volumes of infinitely fine dust sailed round and round the earth in the upper atmosphere and made England's sunsets of that year unusually splendid. It was three years before the upper air became quite clear again.

Lava dust has the same properties as lava. Shepherds on the slopes of Vesuvius sprinkle patches of snow in the winter with lava dust so that they may have it when the scorching days of summer arrive.

It was lava dust turned to mud by torrents of rain such as usually come with volcanic outbursts, that, nearly 2,000 years ago, destroyed the famous pleasure city of Herculaneum, and it was showers of volcanic ashes that overwhelmed Pompeii. Herculaneum still lies nearly forty yards from the open air.

There are rivers of lava mud that are blotting out towns and villages now. A curious point has always been noticed when Vesuvius is in eruption, and that is the strong odor of washing day that hangs around the mountain. One might wonder why the slopes of such a mountain are so thickly populated when there is always danger of eruptions and of avalanches of lava mud. Well, the reason is that volcanic soil is always very fertile. Some of the best wine of Italy comes from Vesuvian vineyards, and people are ready to take the risks.—London American.

Nothing to Do but Loaf.  
 The most unfortunate man is the one who gets up in the morning with nothing to do and all day to devote to it.—Chicago Record-Herald.

**AN UNREAD REPORT.**

The Methods of Barney Barnato in His Mining Ventures.

Barney Barnato before the tragic termination of his career was widely known because of his large fortune won in mining ventures. His rapid accumulation of wealth was popularly attributed to luck, but luck of the persistent variety usually rests upon a more solid basis than mere chance. An insight to Barnato's methods is afforded by an incident recently related by A. A. Blow, an American engineer once in Barnato's employ. After an exhaustive examination of a mine whose purchase was under consideration Blow prepared an elaborate and voluminous report. It was accompanied by maps and selections and was a piece of work of which the engineer felt that he could be justly proud. When it was handed to Barnato to read, however, the latter laid it aside unopened.

"Tell me about it," he said.  
 Blow proceeded to make an oral report.

Barnato dozed. Finally he exclaimed:

"I employed you because I think you know something about this business, and I do not. Now, I do not want to hear all of this scientific rot about this mine. All I want you to tell me is whether it is good business?"

Blow told him "No."

"Then that settles it," said Barnato. "You are willing to accept the responsibility of turning down this property at the price offered?"

"Yes," was Blow's reply, "but I want you to examine the reports, maps, assays, plans, etc., and see the reasons I have for my conclusions."

"Why should I do this?" Barnato inquired. "You tell me that it is not 'good business.' And as I cannot understand your report why should I waste my time on anything that is not good business?"—Moody's Magazine.

**VOCAL TRAINING ABROAD.**

The Handicap American Music Students Face in Paris.

"The American voice is better handled at home than abroad," is the conclusion that years of experience have led Mr. Savage to reach, "for here it is better understood than it is there. Vocal training acquired, Europe offers the advantage of generations of tradition and an opportunity to crystallize individual ideas of interpretation. Here the singer has his courses of technology; there he finds the Beaux Arts for polishing.

"One thing that must be keenly felt by Americans studying in Paris and who for years have spent their money and time there is the chauvinistic attitude of the French toward American singers.

"There are, it seems, 3,000 American music students in Paris. You can count on three fingers those in that number who will ever really 'arrive.' In many cases their people are slaving at home to meet constant demands for more money. Yet those students have no more chance of a Paris engagement than an icicle in regions ultra tropical.

"At the Paris Conservatoire, a most excellent institution, they bind native pupils on conclusion of study for years of appearances at French opera houses. In Paris there are the Grand Opera, the Opera Comique and the Lyrique, all signing them for engagements. From these they are in turn subtle to such outlying theaters as those of Bordeaux, Lyons and elsewhere in the provinces. The French do not want the money to go out of the country.

"And still the cry is: 'Go to Paris to study! Go to Paris to study!'"—William Armstrong in Ainslee's.

**Women Without Names.**

"Womankind in Korea," says E. G. Kemp in "The Face of Manchuria," "suffers from a strange lack—the absence of names. A woman may possess a pet name; otherwise she has none. Frequently she does not even know her husband's name. If she becomes a Christian and receives baptism she acquires a name, and this must give her quite a new sense of dignity."

**Helps Trade.**

"Do you believe in love at first sight?"  
 "Sure. It boosts my business."  
 "How so?"  
 "I'm a divorce court lawyer."—Detroit Free Press.

The world is all gates, all opportunities, strings of tension waiting to be struck.—Emerson.

**Same Thing.**

Mr. Simpson was reading the newspaper. "Here's a Chicago man got into a drunken brawl and was stabbed to death," he said aloud.  
 His wife glanced up from her knitting and commented, "In some low saloon, I suppose."  
 "No. The paper says he got stabbed in the thoracic cavity."

"Same thing. You'd think the police would close such a place up."—National Monthly.

**NO DEATHS ON THE RAILS**

HARRIMAN LINES CARRY 49,491,000 PERSONS IN SAFETY.

Block System Telling—Local Agent Receives 1910 Report.

Installation of safety devices and the block signal system are cited for the record of the Harriman railroads in carrying 49,491,000 passengers in 1910 without sacrificing a single life.

The report was compiled in the office of Julius Kruttschnitt, director of maintenance and operation, Chicago. It covers the business of the Union Pacific, South Pacific and affiliated roads, a total of 17,960 miles. The total number of passengers carried on a mile basis is 3,000,000,000.

The Harriman system carried 10 per cent of the estimated 1910 passenger traffic. The figures for most of the other railroads have not yet been compiled by the government, but in 1909 the number of passengers carried was 29,000,000,000. The figures for 1910, it is said, will not exceed a billion more.

Many other railroads have gone through a year without a fatality to any of its passengers, but it is said that no system has made this record for such a large total of passengers.

Results on the Harriman lines are ascribed to a campaign waged by the management for year to reduce accidents. The Harriman system now has more miles of automatic block signal protection than any other system in the world. Mr. Kruttschnitt has directed special attention to the accident problem, and began several years ago to bring about a reduction by given complete publicity to all forms of accidents and their investigations, which, it is believed, spurred officers and employees to greater efforts to safeguard lives.

In 1903-1904 the number of accidents on the Union Pacific was 20 for 1,000,000 locomotive miles. On the Pacific system of the Southern Pacific the number of accidents per 1,000,000 locomotive miles was reduced from 29.5 to 10.5 in the same time.

**MOTHER AND DAUGHTER**

Both Glad to Recommend Parisian Sage the Guaranteed Hair Grower and Dandruff Cure.

Mrs. J. R. Burgess, writes from 514 Plum St., Danville, Va., June 4, 1910, as follows:

"I have used Parisian Sage and find it to be all you claim for it, and cheerfully recommend it to any one who is suffering from any hair dandruff or scalp trouble."

On the same date Ruth Odille Burgess, the charming little daughter of Mrs. Burgess wrote:

"I am only a little girl, but I want to tell what Parisian Sage has done for me. I had a scalp disease that looked like dandruff and when it was combed up there would be a bloody water under the dandruff. Mamma tried everything in the way of hair tonics, without results, until she saw the advertisement of Parisian Sage; she got a bottle and it cured me, but kept on using it. Now I have as beautiful a head of hair as any girl."

Men, women and children, in every section of America who are using ordinary commercial hair tonics should give Parisian Sage a trial. It is so far ahead of all others that one application will prove its great superiority.

It is guaranteed by the Newlin Drug Co. to stop falling hair and itching scalp and to drive out all dandruff in two weeks or money back. It grows hair in abundance and gives to the hair a lustrous and fascinating appearance. 50 cents a large bottle at the Newlin Drug Co. and druggists everywhere.  
 Feb. 15, 25 March 8

**PURE RICH BLOOD**

The Newlin Drug Co. Sells a Prescription That Means Vigor, Vim, Vitality.

Because MI-O-NA causes the blood to get better and more nourishment it is at all times a valuable tonic. It puts vigor into the muscles, clears up the improperly nourished brain

and makes strong nerves that will stand the severest test.

Men who feel that their vitality is slipping away; that the vim and energy that they formerly put into all their work is lacking; that ambitious impulses and clever ideas do not come as they used to—are the kind of men that need MI-O-NA.

Besides being a peerless remedy for indigestion MI-O-NA is a most pronounced tonic.

If you have that blue, discontented feeling through the day and pass restless nights, trying unsuccessfully to get a refreshing sleep, take a month's treatment of MI-O-NA stomach tablets, and bring the sunshine into your life.

MI-O-NA costs but 50 cents at the Newlin Drug Co. and druggists everywhere. Guaranteed to cure indigestion and immediately relieve all stomach misery, or money back.  
 Feb 21 to Mch 12.

**MI-O-NA**

Drives Distress from Upset Stomachs in Five Minutes.

MI-O-NA stomach tablets not only cure indigestion but build up the entire system and make the weak and frail strong and vigorous. They are guaranteed to do so by the Newlin Drug Co.

They cause the glow of health to appear in the cheeks and make the eyes bright and sparkling. They chase out bad blood and cause pimples and sallow skin to disappear.

MI-O-NA stomach tablets are such wonderful stomach invigorators and upbuilders that they are sold under an agreement to return your money if they do not cure indigestion or any other trouble arising from an upset stomach such as biliousness, dizziness, sick headache, loss of appetite, fermentation, nervousness, sleeplessness, nightmare, etc.

And only 50 cents a large box at the Newlin Drug Co. and druggists everywhere.

"Stomach trouble had bothered me a long time, and though I doctored and used several remedies there was no cure given me until I used MI-O-NA.

I used to feel weak, bloodless and depressed, but MI-O-NA built up my health and made me strong."—Mrs. J. Newton, Bellevue, Mich.  
 Feb. 14, 23 Mch 7

**A Notre Dame Lady's Appeal.**

To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatics, lumbagos, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers free. You cure yourself at home as thousands will testify—No change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, restores the blood, and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box. R., Notre Dame, Ind.

**Good Syringes**

Whatever you need in this line we can supply. Very few stores in the country have so complete a line of syringes as we carry.

- Bulb Syringes.
- Fountain Syringes.
- Combination Syringes.
- Infant Syringes.
- Hard Rubber Syringes.
- Glass Syringes.
- Ear and Ulcer Syringes.
- Hypodermic Syringes.
- Horse Syringes.

Our bulb, fountain and combination syringes are bought directly from the makers and you will always find this stock fresh and guaranteed.

**Wright Drug Co.**

**COMING Wednesday, March 8, 1911**
