Gould Trunks Under the Hammer.

New York, March 8.—Twenty-two trunks and numerous traveling cases and hat boxes left by Mrs. Katherine Clemons Gould at the Hotel St. Regis as security for an unpaid board bill were included in a lot of unclaimed baggage that was put up for sale at auction today. Mrs. Gould left the baggage at the hotel when she went away nearly two years ago and the management has been unable to get any response from numerous bills and letters sent to her at her present home near Lynchburg, Va. Neither has the management been able to secure any satisfaction from her former husband, Howard Gould, who is understood to have disclaimed all responsibility for the bills. The exact amount of Mrs. Gould's indebtedness to the St. Regis has not been made public, but it is reported to be more than \$5,000, as it includes not only the rent for her apartments, but also the charges for entertainments and parties she gave during her stay.

The Home Independent Telephone company will commence stringing the wire this week, tomorrow perhaps, and installation of the service will be rushed. The improvement involves the expenditure of several thousand dollars, but will give that company a splendid toll service between Union and this city.

FOUNTAIN CONNECTED UP

AFTER NEARLY A YEAR OF IDLE-
NESS IS USED AGAIN.

Connections Made Today and Public
Can Benefit by Service.

After several months of uselessness the fountain now planted at Fourth and Depot, has again become of service and Assistant Water Superintendent L. M. Hoyt has connected the fountain with the water system.

The fountain was dismantled about a year ago and after occupying space in the rear of the city hall for a time was finally erected again on its present location and the public will find it ready for use again. Draymen and deliveries find it especially convenient to water their horses during their working hours.

SPORTSMAN and TELEPHONE

EVERY TIME a man wants to get away from all connection with the busy world, the telephone is an important helper.

The Local Service is useful in arranging his affairs at home, and the Long Distance Service of the Bell System helps him to decide where to go and what to take.

By means of his Bell Telephone he can find out whether the fish are biting or the birds are flying, and whether guides or horses can be secured.

After he has been out awhile, if he wants to get word from the city, the nearest Bell Telephone is a friend in need.
