Don't Envy the Tailor-Dressed Man; Wear Royal Clothes and Be That Man.

You will see and hear a good deal of this new home of the best tailored-to-order clothes. The men you meet at fashionable social functions; the men who sit at the desks of power in business; the men who have an eye and an appetite for the best things of this world—

These are the men you will see dressed in Royal Tailoring.

For this store is here to say. And it is here to win.

It is here to give you better clothes service and better clothes.

The Famous Royal Tailors will make this store their La Grande home

I am proud to have my shop the headquarters for Royal Tailoring. That tailoring is known and sold in 5,000 American cities—and it stands for the best that there is in men's custom-built garments. The Royal Tailor service is a "service of certainties"—it is the one clothes service that guarantees you absolute satisfaction in your clothes purchases—not alone when you first try on a suit or overcoat.

but for as long as you wear that garment.

The Royal Tailors guarantee the cloth you pick; the workmanship; the construction; the material that goes into your garment; the fit and the shape-holding qualities.

And even the day for delivery is guaranteed in a Royal Tailor suit. We pay \$1.00 a day forfeit for delays.

If you want to get the full purchasing value of your "clothes dollars"—you will make no mistake in coming here and, at least, get acquainted with Royal Tailoring.

I have one of the handsomest displays of exclusive Spring woolsens ever shown in this country—the latest and smartest cloth innovations. A call obligates you to nothing—and I think we'll both be mighty glad that you came. At any rate come in and shake hands.

ORCHARD DEALER HOME STATION AGENT RESIGNS

FRANK R. BRIDGES RETURNS FROM LONG TRIP.

Has Been on the Southern Border—Talked Grande Ronde Freely.

F. R. Bridges, a member of the firm of Cleaver & Bridges, and heavily interested in timber fruit land, returned this morning from an extended tour which took him to Colorado Springs, then south to the border and home by way of Southern California. He spent several weeks in California before completing his journey home.

While on the border he got over into Mexico and was along the scene of heated rebellion squabbles and is well versed in the situation, having seen it and heard the interior reports first-hand.

Aside from seeing plenty of country he succeeded in spreading the Grande Ronde gospel and everywhere possible aimed to give this valley due publicity.
