

IMBLER TO ADD NEW COURSES

HIGH SCHOOL WILL BE STANDARD IN THREE YEARS' TIME

Building to Be Constructed to House Needed Classes Next Year.

Addition of another standard high school to Union County's educational facilities, was made possible at Imbler Saturday afternoon, when the taxpayers of the district expressed their determination to build a concrete or four-room brick school house on a new site and continue to add grades until the full four-year course is taught. As the schools there teach but the ninth grade at present, it will require three years to attain the ambition of the taxpayers which was expressed at a meeting held for that purpose. The steps to be taken to carry out this desire are merely to hold a formal special election at a nearby date and authorize the expenditure of the needed sum of money.

The plan discussed and adopted is to build a structure such as can be added to with little expense. The ten grades will be taught, commencing next year and as the class advances the school district will add facilities and will bring the school up to the standard when the present freshman class graduates.

The feeling for a new structure was unanimous and the vote will show a huge majority in favor of the building.

Plans will be submitted to an architect at once. The cost has not been determined but the amount so expended will be sufficient to meet the needs.

BIG VOLUME OF BUSINESS

LAND OFFICE FORCE SYSTEMATIZED TO HIGHEST DEGREE
Business Done Last Week Reaches to Many Thousands.

The local land office on Saturday closed the week's work with a record of business transacted that will be surprising to many. A mere summary of the work done the first seven work days of April will give an idea of the splendid organization Register Bramwell and Receiver Eberhard have created, and the capabilities of the force when working under pressure. With only two assistants, the local officers have in that time received and allowed 12 homestead filings, 4 reclamation homesteads, 4 timber and stone applications and 2 Umatilla Indian filings. Twelve homestead proofs have been filed, four of which were taken in the office. During the same period, there has been received and accepted for \$33,533.05 on account of water right charges due the government from entrymen upon the Umatilla project at Hermiston, Oregon. Some of the items range as low as \$1.50, and for each separate item an elaborate receipt, fully describing the land by technical legal sub-divisions is required to be issued. At the close of business Saturday night, the desks had been cleared of everything received at the office up to three o'clock that afternoon and receipts for every cent of money received up to closing time were mailed.

The reports for the Month of March showed receipts as follows: Fees and commissions, \$580.20; sales of public lands, \$2755.83; Umatilla Indian lands, \$67.44; water right charges, \$1,385.74; receipts not deposited to credit of treasurer of United States, \$1268.49.

For the month of March there were received and filed 60 homestead applications, 7 desert applications, 2 timber and stone applications, 20 water right applications, 20 isolated tract applications, 29 homestead proofs, 11 desert proofs and one timber and stone proof. Twenty-two entries were relinquished during the month.

There were mailed 1974 letters, 590 of which were letters answering communications from the public alone. These letters do not include letters containing only a pamphlet or circular.

The force of the land office at present is: F. C. Bramwell, register; Colon R. Eberhard, receiver; Geo. Carpy, clerk; Hugh T. Kinne, stenographer and typewriter, the latter two being civil service employees.
