FESTIVAL PLANS MATURING

PORTLAND ROSE SHOW HOLDS NEW INDUCEMENTS.

Many Features Will Make the Event the Best in History.

Portland, Ore., April 12.—(Special)—A brilliant historical street pageantry developing the growth and progress of northwestern civilization since the empire was first discovered, is the unique and novel feature which the thousands of school children of the city will add to the program of the Portland Rose festival to be held here the week of June 5-10. This public street procession will supplement another strikingly elaborate spectacle, also of historical purport which will take place on the new Multnomah Club field.

These two events will be novelties which will be a part of the continuous program for the six days in which there will be parades, decorative for the daytime and illuminated for the night. All told six such street pageants will be given in what is by all means the most elaborate week of pastime, amusement, entertainment and education ever held in the Pacific Northwest if not in the west.

No like celebration has been favored by the railroads with such generous rates and combination of selling dates. This applies both to through transcontinental fares and rates from points in the northwest.

The Rose Festival visitor will have the opportunity to an number of side-trips, and in fact many inquiries have been received at Festival headquarters from all parts of the country indicating that a goodly number of easterners expect to see all they can of the matchless scenic beauties of this territory as well as to look for desirable investments.

Even New Englanders and people from the south are making such inquiries.

Of especial importance will be the Festival rates this year because with a 90-day return limit, the easterners will be able to spend that time on the coast, seeing the Rose Festival in Portland in June and the Astoria Centennial celebration in August.

Never before have the communities of Oregon had such an opportunity for getting the eastern friends, business men and investors, interested in local enterprises, for two such attractions as the Rose Festival and the Astoria celebration are bound to induce thousands of strangers to come here that would not otherwise do so.

The Tree Frog of Paraguay. In the manner of disposing of their eggs many species of frogs exhibit remarkable peculiarities. A tree frog, native of Paraguay, makes its nest in a bush overhanging a pond. The lower ends of a number of leaves are drawn together and fixed in that position by a number of empty egg capsules. The eggs are also covered with a shield of empty capsules to protect them from the sun and air. When the eggs are hatched the plug at the bottom appears to fall out and the tadpoles tumble into the water.

Out of His Class. Dissatisfied Patron—Gentle disposition! Why, he wants to bite the head off every dog he meets. I've been swindled!—Dog Merchant—You didn't ought to keep dogs at all, mister. The animals you ought to keep wiv your temperament is silkworms.—London Punch.

These horses were purchased from the best breeders and importers in the United States and out of the very best families and show herds. They were bred in one of the great horse centers of the world. Why not come where you can buy horses at your own price, and every one of them is for sale, and will be sold for the high dollar, instead of going where there are only a few for sale, and half of them are supposed to be kept for their own use, unless a fancy price is paid.

These horses are as wide as a wagon, and a number of them weigh over two thousand pounds. FARMERS, is this not one of your best opportunities to secure good stallions and mares at your own price? These horses are fresh, right off the farm, subject to no disease and ready to go to work. It was the Percheron horse that made Illinois famous as a horse center.
