SAN DIEGO FAIR BOOMING

San Diego, Cal., April 27.—(Special)

—The date for the ground breaking ceremonies of the Panama-California exposition is July 10-22. Elaborate preparations are in progress for this event which will occupy four days. The celebration will include historical features covering the period from the discovery of the Pacific ocean by Vasco Nunez de Balboa in 1513 to the founding of the California missions in 1769 by Father Junipero Serra of the Order of St. Francis. This history will be presented in gorgeous pageantry and floats illustrating the chief episodes of that history. Especially notable will be the procession of the 21 missions of California, each mission presenting its history in appropriately costumed characters depicting the historical phases of its foundation medieval, religious and allegorical.

The civic ceremonies with which the celebration will begin will be under the direction of the exposition officials and will include participation by the governor of California, state officials, municipal officers, and representatives of the national government. The cornerstone of the administration building will be laid on this occasion, occupying the first day.

Commemorative of the founding of the mission of San Diego de Alcalá, a pontifical high mass will be celebrated by Bishop Conaty of the diocese of Los Angeles and Monterey on the 14th anniversary week of the planting of the cross on California soil by Father Serra. This ceremony will be under the direction of the Franciscans and will be held before a great floral altar in one of the canyons of Balboa park.

Throughout the celebration the carnival spirit will prevail and each day will be a fiesta of mirth, music and dancing expressive of the condition of a happy and contented people.

WHEAT CROP IS EXCELLENT.

(Continued from Page Two)

ever in the history of Idaho county. There is a greater acreage in crop than ever before, and the weather condition have been most ideal for a splendid crop. While there is some demand for more rain, the opinion prevails that thus far there has been sufficient rain this season already. The spring plowing is now on in full blast in some sections, but during March the weather was so ideal that the work was started early.

Fall Grain Stands.

Prineville, Ore., April 26.—Late frosts in Crook have killed some of the tender crops, but most of all the fall grains are not affected.

Gilliam Grain Crop.

Rock Creek, Ore., April 26.—Alfalfa fields look fine. Fall wheat which is up is looking healthy but rain is badly needed. Quite a number of farmers are finishing sowing barley.

Good Wheat Outlook.

Davenport, Wash., April 26.—Wheat seeding is practically finished in this section and the farmers are ready for a good soaking rain to start the grain growing. With the most favorable spring for seeding for several years and an early rain, prospects

are most bright for an excellent crop in the Big Bend.

Wheat Acreage Heavy.

Pullman, Wash., April 26.—Grass, grain and alfalfa are making rapid growth. The trees are putting forth leaves and blossoms and flowers are blooming.

"I have lived in this country 29 years and never saw winter wheat looking so well at this time of year," said Fred Humphrey, a pioneer of Pullman, today. Mr. Humphrey and John Matlock who has lived in Whitman county 35 years, drove through the country yesterday. They drove north of Kamia butte and around the butte on the north and west sides, returning through the country near Albion.

Mr. Humphrey said: "The acreage is the largest in this country. There is but little land being summer fallowed. A large acreage of land was in oats last year but was plowed up last fall and sowed to wheat."

YOU MAY HAVE APPENDICITIS AND NOT KNOW IT

If you have wind or gas in the stomach, sour stomach or constipation, you very likely have chronic appendicitis, which may at any minute become acute. A SINGLE DOSE of simple buckthorn bark, glycerine, etc., as compounded in Adler-I-ka, the new Ger-
