Need of better streets in La Grande was reflected again today when a Warren Construction company roller became fast in the mud at the terminal of the Sixth street pavement. The big wheels jared themselves far down into the mud and it was only after a lapse of an hour or more that the heavy engine was jacked up and removed from the mire.

Jail For Mail Order Man.

Imprisonment in the federal prison at Leavenworth, Kan., for three years and a fine of \$1,000 is the sentence imposed upon William F. Harrison, wealthy head of a mail order concern, by Judge Hollister in the United States district court at Cincinnati.

He was found guilty of using the mails to defraud, conviction coming upon all seven counts of two indictments, alleging that he advertised and sold through the mails a vacuum carpet cleaner and a washing machine neither of which would do the work required. The trial lasted more than four weeks and cost the government thousands of dollars to bring witnesses from all parts of the country.

IRONCLAD RULE IN TRADE.

Best One Is, Have No Such Rule—A Case in Point.

Of all ironclad rules in business only one is fit to tie up, and that is to have no such rule.

Fifteen years ago a man wishing to order a suit of clothes entered a certain tailoring establishment and became interested in what today we call a pinhead check.

"I admire that," he said, "but I never wore anything like it before and want my wife to see it. Cut me a sample—just an inch square will do."

"I'm sorry, but it is against the rules of the house to cut samples," said the salesman.

"What—not even an inch square?" The man walked into another tailor shop on the same block, and for fifteen years he has been getting his clothes there—forty-five suits in all.

How many samples would Tailor No. 1 have given to get an order on forty-five suits of clothes?

As it is he'll never get the chance to hand over samples. If he were the last tailor in Christendom probably this customer would prefer the latest styles in fig leaves and shoestrings to the original pinhead check.

In business the only rules that count are made by the customer.—Philadelphia North American.
