AUTO OWNERS TO FORM CLUB

BIG BAQUET TO BE HELD NEXT WEEK AT FOLEY GRILL.

Over Thirty Have Already Signed Agreement in La Grande Alone.

Between 30 and 40 automobile owners of this city today signed an agreement to create an automobile club in this city and late this afternoon, A. V. Andrews, the prime mover in the original plans, is assured of a membership in this club alone that will include every auto owner and motorcycle owner. The club is not to be confined in membership to La Grande but every owner in the county is to be invited to join. The agreements

Electric Hose

If you watch a man spraying his lawn for about two minutes you can tell whether he has confidence in the hose or not.

If he keeps glancing from one end of it to the other you can depend that he's getting nervous and is watching for a wetting. Don't take chances when you can buy Electric Hose and be absolutely sure of the highest efficiency.

Electric hose will not burst, crack or split. It's made of seamless seine twine sockets and rubber tubes.

W. H. BOHNENKAMP,

F. L. LILLY,

Agents.

are being signed as fast as the men can be reached.

The first big gun in the club's history will be fired next week when a rousing gathering will sit down to eat at the Foley grill. A banquet at which at least 100 are expected will be arranged and at that time the auto fans will elect permanent officers and get under way as an organization.

Portland Lh's "Spendthrift."

(Portland Oregonian.) "Men work hard and their wives spend all the make, or else the wife works hard and the husband spends it all."

So says one of the character in "The Spendthrift," at the Helligs.

It is essentially a man's play. Every mother's son of them whether of the la-nov-benedict, will-be-sometime or has-been state will relish it greatly. Its homilies and preachments are morsels sweet that the average man, and a few women, will find sweet to roll under the tongue. For it's all about the folly and extravagance of woman kind; a sordid, almost heart-breaking tale of the existence that goes on under too many American roofs.

Primarily, the story is a plea for domesticity in woman kind. "God meant women first of all to be mothers, after that to be good mothers, and after that they can be doctors or lawyers or carpenters or suffragettes or anything they want," is one line that is much applauded. The cast is small and good in every particular. Lionel Adams is the husband, a role marked by substantiality and ease, and standing out notably in the quiet methods of the artist-actor.

The keynote of Mr. Adams' entire work is naturalness.

Doris Mitchell, an unusually lovely woman, gives a remarkably interesting study of the spendthrift, making her an almost tactician, falling short of it only by the egregious self-love that compelled attention, even if it gained no admiration for the character.

One of the best bits of the performance is the work of Mattie Ferguson as the aunt, who describes herself as having "one foot in the grave and one in Wall street." The play will close with the Sunday evening performance. At the Steward Thursday night.

Wonderful Picture at the Isls.

"Winsor McCoy," the famous cartoonist of the New York Herald, and his moving picture comics is a headliner at the Isls.

Winsor McCoy and a party of boon friends is engaged in a friendly game. The subject of moving pictures is then broached. Winsor says he feels positive that he can produce drawings that will move. One month later he has 4,000 drawings ready for the Vitagraph company's camera. He shows them characters from his "Little Nemo" series. They go through evolutions, gyrations, stunts, tricks and acts. The friends of McCoy are surprised and puzzled and tumble all over themselves to congratulate the wizard of the pen and pencil.

It is wonderfully shown at the Isls. Tuesday, Wednesday and Thursday.

FIRE TRUCK POPULAR.

Fire Chief Jones and Councilman Orvis Find Truck to Their Liking.

Thoroughly convinced of the practical applications of the automobile fire truck, Fire Chief Jones and Councilman Orvis, two members of the committee of four sent to Portland last week to study fire apparatus, returned this morning, and though their report is not made public, there seems little question but that they will recommend the purchase of the truck.

Mud and hills form little impediment to the truck. With 10 other men Mr. Jones and Mr. Orvis were taken up steep hills at the rate of 45 miles an hour, were whirled through the deepest kind of mud and at a rate of speed that few automobiles can equal on pavement.

The rear wheels are provided with double sets of tires that form an arch in which mud is squeezed, the water being forced out, leaving the hardened mud, prevented skidding or sinking. The machine is guaranteed to pass over 10 to 15 inches of mud with high speed.

POST OFFICE CANDY STORE Mrs. C. C. Combs, Prop. Fine Line of CANDY, FRUITS, ICE CREAM, POSTCARDS, TOBACCO NEWS DEALERS.

Big Sums Enter Cove.

(Continued from page one)

A considerable number of apple trees have been planted, but mostly in small blocks, nevertheless aggregating over 10,000 trees for the season.

New Yorkers Plan Orchards.

A New York syndicate is forming to take over and develop 300 acres of our finest land and a local company will be formed to put out another 200 acres in pears and apples.

Last Wednesday evening a Fruitgrowers' association was formed, which will incorporate and elect permanent officers at once. This fruit union, like the rest in this valley has decided to sign up with the Northwestern Fruit exchange for the season and will undoubtedly place the general fruit marketing in a much better and more reliable condition than in the past.

The present condition and outlook for a crop is somewhat reduced from last year's abnormally heavy crop, the several freezes in April thinned our cherries too much, and less than half of last year's crop may be figured on. All kinds of berries are in excellent condition, and so far promise a full crop.

Some peaches and plums were also injured considerable, but most varieties will have a fair crop.

The Italian and other prunes, of which Cove annually produces from 350 to 400 tons, fresh, will be only slightly reduced.

The apple crop was uninjured by the freezes, but on account of over-bearing, and the semi-annual quality for bearing, in many varieties of apples, the crop will be considerable smaller than a year ago; but, this does not mean that Cove can't or won't pack more boxes of this fruit than last year because better care and more careful spraying can increase the output 10 cars over last year.

Unions Not Tolerated.

Washington, May 9.—Straight admission that the postal clerks have been dismissed from the service of the United States simply because they had been active in the forming of a union, was made here today by Second Assistant Postmaster General Stewart before the house committee on civil service reforms. The admission came with special reference to the cases of Clerks Van Dyke and Diff. He testified the both were good clerks but were dismissed on account of "pernicious activity" in forming the postal employees' union.
