LA GRANDE, OREGON

IRON HAND RULE NECESSARY IN MEXICO

AT LEAST SUCH IS EDICT FROM PRESIDENT MADERO.

International Complications May Follow Yesterday's Massacres.

El Paso, May 23.—With the accession of Madero to power, the independent revolts will be handled with iron hands, according to Madero's announcement today. The Lower California revolt fostered by the Mexican liberal party, will be the first opposed. Orozco will be used against them. The report that Figueroa, the south rebel commander, has aligned with the liberals branded as false by Orozco today.

Power Leaving Madero.

Juarez, May 23.—Seeing his power going glimmering if he cannot control the fighting spirit of his rebels, Madero has sent his brothers Gustavo and Emilio into the interior to bring about peace. Madero is greatly disturbed on account of the reported slaughter of the Chinese at Torreon.

Story Is Corroborated.

Washington, May 23.—United States Consular Agent Corothers has telegraphed the state department from Torreon confirming the report that 206 Chinese were slain at Torreon. He said the insurgents alleged the federals had armed the Chinese who fired on the insurgents.

Crothers said the Americans were protected by rebels.

Trouble Near Tia Juana.

San Diego, May 23.—Two armed Mexican forces are reported east of Tia Juana today. One is reinforcements for the liberal army and the other is the federals under Colonel Major. The federals are reported march-

ing to relieve Ensenada. The rebels are near Tecate.

Many Foreigners Killed.

Mexico City, May 23.—Grave fears that Japan, China, Germany and Spain may become involved in the Mexican revolution is felt here today as the result of protests already being made as the result of reported massacres by rebels in Torreon.

It is reported that 179 Chinese, 79 Japanese, 12 Spaniards and one German was shot down after the town was captured. The Chinese charge d'affaires has already protested to Mexico.

OLD FAIR GROUNDS SOLD.

Tract Brings \$10,000 at Forced Sale Conducted by Sheriff.

Several acres of land on which lies the dilapidated race track and neglected fair grounds north of the city, were sold yesterday at sheriff's auction. The land brought \$10,000, Julia B. Holmes being the buyer. Her bid was the only one presented.

This ground has been neglected as far as race track or fair purposes are concerned, for several years, but in the past has been the scene of annual gatherings of race meet and county fairs. It lies near Island City and abuts on the Island-La Grande highway.

UNION BRIGADE CAPTURES CITY.

(Continued from Page One.)

terday near the Iowa school house, there were no accidents to mar the trip, so far, though the Lucas mount gave out this morning and Mr. Lucas was forced to ride with the Shetland turnout. Otherwise the trip was a huge success in every way.

The riders continue their trip tomorrow by going on to Hot Lake for lunch and then proceed to their respective homes.

In the party are:

Geo. W. Benson, Will Vogel, Robert Withycombe, George A. Scribd, Harry Cooper, W. B. Gassett, Ralph Hutchinson, John Spain, Willis Phillips, G. W. Delay, C. E. Oral, J. H. Chase, W. J. Townley, J. A. Benson, Guy Church, Herbert Hall, B. J. Ersland, H. J. Lu-

cas, Will McCurrey, M. S. Levy, J. W. Spencer, Harvey Duke, Lester Henpe, Frank Bidwell, W. B. Perregeaux, William Wilson, Frank Wittman, Stanley Shaw, Hense Cochran and Harry Wolfe.

CHICAGO HAS WATER FAMINE.

City Water Supply Is Inadequate for Its Demands.

Chicago, May 23.—(Special)—Notwithstanding the 635,000,000 gallons pumped daily the water famine in Chicago has become serious, the park fountains will be shut down, the park sprinkling will be restricted (as well as that of citizens) and in several sections of the city during some hours of the day no water at all flows from the faucets. No relief of this condition is in sight until late in August when a new pumping plant which will add 25,000,000 gallons daily will be ready. Even with this addition some portions of the city will be short of water all the year. This trouble has been accumulating through the penur-

ous policy of the city council for many years, a black mark against municipal ownership. City Engineer Ericson has been pumping at the council for the necessary money for years with little success. It took six years to get the Roseland pumping station which is soon to be opened, otherwise the famine would not now be so acute. He asked for three pumping engines for another station, and was given one. For years upper flats in Lake View have been short of water at least part of each day in summer and the sprinkling of lawns has practically been prohibited in that and other districts. Summer broke upon the city suddenly this year and the water department was unprepared. It has issued a general warning to Chicago people: "Obey the sprinkling regulations, and do not waste water in bath rooms, laundries or kitchens." During the year 1909 the water pumped for the city's use was one hundred seventy-six billion gallons. The total value of the water works property now is approximately \$60,000,000 but the expenditure of nearly one-third more is necessary to satisfy the thirsts and supply water for the baths and lawns of the city.

This to You

Mr. Renter

Is the house you are living in wired for electricity?

If not, why not?

Electric lights are not a luxury; they are a modern necessity. They are just as indispensable as running water and cess-pools.

For your health's sake, and for your safety, as well as your convenience, insist on having your house wired now.

Your landlord owes that much to you, and he'll be surprised how reasonable our charges will be for wiring. Have him call at our office, or phone Main 24. We'll do the rest.
