STOCK COMPANY FORMED

CONNORDALE REALTY CO. WILL IMPROVE ADDITION TO CITY.

Selling of Lots to Follow Finishing of Improvements.

A forty thousand dollar corporation has just been formed in the name of the Connordale Realty company for the purpose of improving and placing on the market the large tract of desirable residence property in South La Grande. It is the intention of the incorporators to sell sufficient stock to improve the tract, each lot having a cement sidewalk and a well graded street. The sale of lots will begin under certain restrictions with the final intent of making this part of the city the desirable residence portion.

According to other syndicates that have formed in other cities for the handling of such an undertaking there should be good profit to those who become stockholders in the Connordale company.

That La Grande as a community will abundantly appreciate the improvement of this valuable piece of property there is no question and doubtless the undertaking will be given loyal support.

In all the World No Car Like This!

The car of established quality—established value and low price. Backed by a company worth millions and completely organized. The lightest car in the world, size, power and capacity considered. The cheapest car in the world to buy and maintain—simplest to operate. The strongest made car in the world—a car of Vanadium steel.

The Ford Model T Touring Car \$900 F. O. B. La Grande

COMPLETELY EQUIPPED WITH TOP, WIND SHIELD, SPEED, OMEETER, GAS LAMPS, GENERATOR, 3 OIL LAMPS, HORN.

With so many hundred different makes of automobiles from which to choose and each different in design, weight, price, size or reputation a prospective buyer is at a loss to decide which to select.

We believe these facts will appeal to you as being applicable to your own automobile requirements, and because they are the actual experiences of more than 40,000 satisfied owners of this same Model T Ford car. They are worth your most earnest consideration.

1ST—LIGHT WEIGHT—The Ford Model T car weighs less than any other five passenger touring car manufactured.

This light weight is achieved by simplified construction, elimination of superfluous part and the use of the highest grade of material. Quality in quantity is the true measure of strength. The Ford car is an all Vanadium Steel car. That is one reason it is not only the lightest car made but the strongest and will actually stand harder service. There has not been a pound of unnecessary weight sacrificed in the Ford, it weighs plenty for every need but there isn't any deadweight.

The New York to Seattle Race, in which a Ford car arrived first proved the car to be right weight as well as to light weight.

2ND—Price—Cost is the first consideration in the minds of many buyers. Price has sold a great many Ford cars but Ford quality has sold a greater number. The price of the Ford car is lower this year by many hundred dollars than the price of any other car nearly as good. The new price is nearer the price of the smallest of modern runabouts while the car has all the features and values of the much higher priced and so called big cars. It is the lowest price 4 cylinder car in the world. This price is the result of a combination of Ford "know how," enormous output, small profit per car and inexpensive manufacturing methods. Up to October 31, 1910, 30,358 Model T Ford cars had been delivered. During 1911, 30,000 more will be built. All the experimenting has been done and paid for, all the special machinery has been bought and the cost distributed. There is nothing new but automobile cost in the Ford Price and the car is better than ever.

3RD—REPUTATION—The Ford cars backed by a company worth millions. Reputation and financial ability count. The Ford reputation is your guarantee. Ford cars have demonstrated their superiority. There have been over 60,000 of the various models manufactured to date. A Ford buyer is not experimenting, he is not buying a visionary success, a paper car or a capitalized advertisement. He buys an automobile that eight years of manufacturing has built up and improved. The Ford is favorably known in every country of the world. It sells in Europe in direct competition with the best of Europe's manufacturers. It sells in South Africa or South America or the Far East in spite of or because of the inferior roads. It sells wherever civilized man is found because the test has proven that Henry Ford knows how to and does build the best all around automobile for practical every day service everywhere.

4TH—COST TO OPERATE—It takes a large sized income to run a heavy car. Excess weight is hard on tires, uses extra gasoline and oil and calls for bigger, costlier repairs. Because of the light weight plus the scientific design a Ford car will average more miles per set of tires, more miles per gallon of fuel, more miles per dollar of repair expense than any other touring car made. That is a strong statement but is made only after Ford users have repeatedly assured us of its truth. 25 to 28 miles per gallon of gasoline, 5,000 to 8,000 miles per set of tires, \$5.00 to \$15.00 per month total expense, these are the figures our customers tell us are correct.

The tires on the Ford are bigger in proportion to the weight of the car than the tires of any other touring car manufactured. In the same way the brakes are larger, horsepower's greater and life longer. We have the figures to prove this.

L. C. Smith, La Grande

Right in your busiest season when you have the least time to spare you are most likely to take diarrhoea and lose several days' time, unless you have Chamberlain's Colic, Cholera and Diarrhoea Remedy at hand and take a dose on the first appearance of the disease. For sale by all dealers.

Why pay Rent? We loan you money to build, and you pay us as you would rent.

J. R. OLIVER,

A good plate glass, walnut frame, show counter for sale very cheap at Silverthorne's family drug store, 2t.

STARTS OFF WITH A

RUSH!

We were confident that the big values we offered in yesterday's paper would find ready takers, and already three of these fine pianos have been snapped up.

Only 4 Left

Only 4 of the stock moved from our old quarters remain. These are 4 of the best piano buys ever shown. Come and see for yourself. **\$167, \$248, \$297 \$327**—these are the prices. Terms 10 per cent down 3 per cent per month.

Two Carloads Exhibition Pianos Will Soon Be Here.

These pianos intended for the Grand Opening of our splendid new building in Spokane. Delay in the completion makes it necessary to sell these pianos elsewhere. La Grande selected as the best point of disposing of such quality pianos. These pianos now enroute, will be here this week.

Iron Clad Guarantee. Free Insurance. You'll have to hurry, there are only 4 pianos in stock now.
