Idle Capital is an Extravagance

no community can afford; to do anyone a benefit it must be kept moving and to do the most good it should seek legitimate channels. Then let us divorce ourselves from the prevailing "get rich quick" fever and get back to the good ways of our forefathers. Put your money into something at home, where it will

and enhance the other interests you may have. Why not build a home? There's no satisfaction like that born of the knowledge you own a home. Start it today and tomorrow you'll awaken with a feeling of independence like that of 1776. Of course you'll need lumber, but we can quickly help you out, as our stock is complete and most orders can be filled the day we get them.

FAKE TREE DOCTORS

Frauds Perpetrated by Using Agricultural College as Reference.

Corvallis, Ore., May 25.—Frauds are being perpetrated in several parts of the state by men who give as their references the names of professors of the state agricultural college, without authority. One claims preposterous things in the way of curing apple trees of anthracnose and protecting them from the codling moth by applying chemicals to the roots. Another is offering a premium with subscriptions to a paper, which turns out to be a fake.

Dean A. B. Cordley of the agricultural school has received a letter from a farmer near Toulitin, asking if he gave his endorsement to such men.

The letter says: "A man named Saunders claims to have a treatment whereby he renders trees immune from diseases by the application of some chemicals to the roots, especially apple trees. He claims that they will be cured of anthracnose, and that the codling moth will not bother such trees for six years, and that no spraying is required on treated trees. Mr. Saunders gave me the name of Professor Cordley as reference, so I ask the college to give me its opinion. I regard this fellow as a fraud, pure and simple, and in order to protect my neighbors from his operations I have written to the college."

"I know nothing whatever of him," Dean Cordley replied, "and if I should give my testimony in the case, it probably would be to the effect that any man who claims to be able to render trees immune from the attacks of the codling moth, anthracnose, and the other fungus diseases by an application of certain chemicals to the roots of trees, is a fraud."

Another letter from Lebanon states that a young man claiming to be connected with the college is taking subscriptions for a paper and offering a premium, which turned out later to be a fraud. Dean Cordley has issued a statement that there is no such person connected with the institution, and that he is evidently trading upon the popularity of the college to make a smooth way for his fraud.

Happiest Girl in Lincoln.

A Lincoln, Neb., girl writes, "I had been ailing for some time with chronic constipation and stomach trouble. I began taking Chamberlain's Stomach and Liver Tablets and in three days I was able to be up and get better right along. I am the proudest girl in Lincoln to find such a good medicine." WEATHER RETARDS WORK

"New Waldorf" at Kamela May Yet Be Finished on Time.

Kamela, May 25.—(Special)—Work on the "New Waldorf" hotel has been retarded by reason of the inclement weather, but with his characteristic push and energy, proprietor Norden is expediting the construction and promises that the edifice will be ready for the grand opening planned for June 10th, notwithstanding. This is gratifying to Kamelites, who look forward to this important event with enthusiasm.

Dumas' Royal Extravagance

Dumas' Monte Cristo villa was a lordly pleasure house, tropical in its taste and its extravagance—a weird confusion of Bohemia and the Arabian Nights. The spoils of the bazaars of Algeria and Tunis lay about the house, commingled with costly treasures of home manufacture. In a sumptuous disorder, and there was every embellishment which the caprices of a luxurious and undisciplined imagination could suggest—gothic turrets, pavilions, minarets, an artificial lake with an island and a cascade, a picture gallery, a studio, an aviary, a monkey house, a stable, a bison theater, a kitchen with a blue ceiling studded with stars to serve as a workroom for the master, who had the titles of his principal plays and stories graven conspicuously on the stones of his dwelling.—"Passions of the French Romantics."

An Easy Task.

"Pa, what is a philosopher?" "A philosopher, my boy, is one who tells other people that their troubles don't amount to much."—Detroit Free Press.

A Finishing Touch.

"When Esau gave up his birthright for mere pottage?" "Yes, I know—he made a mess of it."—Exchange.

Joy comes, grief goes, we know not how.—Lowell.

This to You

Mr. Renter

Is the house you are living in wired for electricity?

If not, why not?

Electric lights are not a luxury; they are a modern necessity. They are just as indispensable as running water and cess-pools.

For your health's sake, and for your safety, as well as your convenience, insist on having your house wired now.

Your landlord owes that much to you, and he'll be surprised how reasonable our charges will be for wiring. Have him call at our office, or phone Main 34. We'll do the rest.

Take the "Kiddies" to the Circus

in a Heywood Go-Cart or "Sidewalk Sulkey"

YOU NEEDN'T LEAVE THE LITTLE ONE AT HOME, AND IT ISN'T NECESSARY TO WEAR YOURSELF OUT CARRYING HIM. HE'LL BE HAPPY IN ONE OF OUR FOLDING GO-CARTS OR SULKYS.

HEYWOOD GO-CARTS

These carts have entirely superseded the old style baby-carriage. They are strong, compact, rubber tired go-carts, covered to protect the baby from sun, rain, and wind—yet open in front to allow him plenty of fresh air. They can be arranged in any position, and when not in use, fold up out of the way. They fold in a small package that weighs but twenty pounds, and can be carried over the arm into a car, or crowd, or hung on a nail when not in use. They're not expensive, either, \$7.50 to \$13.50.

HEYWOOD "SIDEWALK SULKYS."

Fills a long-felt need for the little fellow from three to five, when he has outgrown his go-cart, and before his little legs are strong enough to carry him very far—when he is too tired to walk and too heavy to carry. Made with long handle, narrow body, and easy-running wheels. Have a seat that is reversible—like a car seat—and can be either pushed or pulled. These carts are handsome and attractive and will be useful to the parent, as well as a delight to the child. They sell for \$2.00 and up.
