Today Geddes Bros. grocery placed on the streets a model wagon for delivery service. It was made by A. Dutcher, who is a wagon maker of high repute. The vehicle is made of genuine hickory and the iron work is of Norway iron. The inside wood work is four feet high and the standards are extra well braced. The fifth wheel is a full circle which gives better balance and longer wearing qualities. The whole job is very artistic and A. S. Geddes is well pleased with the new wagon.
