PLAYTIME AS WELL AS SPRINGTIME IS HERE.

Many Towns Without Recreation Centers—Have We One?

The warmer the weather gets the more do the children want to play. But where can they frolic and run about as they like? Almost every town in this country, including our own, is confronted with this question. Some have answered the question already by either providing a public

playground or accepting an offer from some private citizen who has been generous enough to offer one.

"Happy Hollow," a magnificent playground of Philadelphia, was presented to the Playgrounds association by Mr. and Mrs. E. W. Clark, Jr. The playground, with its beautiful grounds, its wading pools and playhouse, is one of the finest in the United States, if not in the world, and cost more than \$100,000. Mr. Clark presented the grounds without any stipulations, and the only restricting provision was introduced at the suggestion of the association, that the property shall be used forever for play purposes and shall always be open to the public.

A MENACE TO RETAILERS.

Buying Exchange Threatens to Take Business From Small Merchants.

It is a question whether or not the buying exchanges can be made to supplement the jobbing houses and the wholesale establishments, says the Agricultural Southwest. In certain lines it may be possible to make the exchange a power, but in general lines it appears that it will be a difficult matter to improve upon the established system of distribution. In fact, the manufacturer cannot well maintain depots directly under his own supervision in the different distributing points. Neither can the manager of an exchange establish warehouses at all important points and carry in stock goods for distribution. This would be merely a multitude of wholesale houses under one management and would not be any improvement over the present system, but rather a menace to the retail trade.

It is possible for a dozen or more stores to combine and do purchasing collectively. In fact, this is now a plan pursued by a number of western concerns. But we venture to say that as an economical proposition the buying exchange will not be found more advantageous than the established system of from manufacturer to jobber and from jobber to retailer, a system that is the outgrowth of a few thousand years of commercialism.

The early worm is easy picking for the first bird.

THE VALUE OF A KICK.

It is Good For Your Business to Know People's Opinion of It.

The best time to remedy a mistake is before it happens. And the next best time is as soon after it happens as possible.

No business house can know too much of what the outside world thinks of it. The average man is slow to complain. That is why thousands of concerns are habitually back on their orders. The average man will let the grievance pass, but next time he takes his business somewhere else.

The big department stores in large cities realize the importance of knowing what possible grievances people may have against them. They put the complaint department in the most accessible places, and they make sure that the person with the kick may be able to give it while it is hot.

"Please complain when anything seems wrong," is the constant invitation to the public. "We want to treat you right, but we can't watch everything at once."

A SPECIAL TRAIN FAM US KING SUNDAY

NOT DEFINITELY ANNOUNCED AS YET, HOWEVER.

If Train is Provided, Will Leave at 8 O'Clock Sunday.

While definite decision is slow in culmination, it is almost a safe assertion to say that there will be an excursion to Baker next Sunday morning leaving La Grande at about 8 o'clock and returning, leaving Baker at 7 o'clock. This would accommodate many who wish to go to Baker for the day. It is necessary that about 80 or 90 go to make up the train as the guarantee is a heavy one.

Further announcement will be made, tomorrow, though there seems miscarry.

The round trip fare will be \$2.00.

Sprains require careful treatment. Keep quiet and apply Chamberlain's Liniment freely. It will remove the soreness and quickly restore the parts to a healthy condition. For sale by all dealers.

Lighting Economy

"If electric lights were as economical as coal oil lamps, we'd all use them."

—but wait a minute. What do you call economy? Is it economy to impair your health with ill-smelling lamps that burn up the life-giving oxygen in the air?

Is it economy to strain your eyes using a dim yellow light that smokes and flickers.

Is it economy to run the terrible risk—fire and explosion—that is ever present when coal oil lamps are used?

These are not economies; they are dangers.

Electricity furnishes a cool steady light, that leaves the air pure; that won't flicker, and can't explode. All you need to do is press the button, and it's ready any time.

When your health, comfort, and peace of mind are taken into consideration, **ELECTRIC LIGHT IS CHEAPER.**
