## CHICAGO DREAMS OF VENICE

SOCIETY ENGROSSED IN A NEW PLAN OF AMUSEMENT.

Islands Off Shore in Lake Michigan Would Be Scenes of Gaiety.

Chicago, June 6.—From Lake Forest to Chicago society is engrossed in a new and dazzling dream of creating an archipelago along the shore of old Lake Michigan which shall supplant boulevards and country roads by motor with aquatic mazes by boat. Instead of dusty motoring to business the nabobs are to go by yachts. Venetian water carnivals are the hot weather substitutes proposed for polo, golf and tennis and bathing beaches, island picnic groves and quiet inlets galore are pictured by the sponsors of the plan. The project produced astonishment for the city and all the drives have been so cut off from it that the big lake almost has been forgotten except by a coterie of adventurous yachtsmen who had no available shelter when a squall came up. The first step proposed is a harbor at Lake Forest. The Harold McCormicks are enthusiastic and the colony at Lake Forest could summon the millions needed for the engineering, dredging and filling as easily as most suburbs could the pay of the weed cutting crew. One who pictured the possibilities of the scheme said:

"To polo, hunting, motoring, swimming, golf and tennis can be added yachting, motor boating, sailing, rowing, canoeing and other methods of navigation. The islands which will grow up, if enough encouraged by enterprising villages, will be delightful places for picnics, grateful and breezy refuges on hot summer days. They can be built with bathing beaches, open air sleeping lodges, and any other attractions. Water festivals can embellish the days and illumine the nights.

"For three generations the lake has been neglected as a source of enjoyment, except for a small band of irrepresible yachtsmen. There it has lain, calling us to come to it for rest, refreshment, sport and diversion. But we have usually sold our birthright for a mess of pottage, so that there and the pleasure drive, which should run right on the edge of the bluffs between here and Milwaukee, is made impossible by private ownership of this land that overlooks the lake."

## HENRY & CARR COMPLETE HOUSEFURNISHERS

#### UNSAUND COMPANIES TO GO.

With Advent of Mobile Bill Insurance Will Be Regulated.

Chicago, June 6.—Sound and unsound fraternal insurance companies now are on diverging paths as a result of the legislative session in many states reported to the Chicago headquarters of the committee of fraternalists who are aiding the Mobile bill of the insurance commissioners.

That safeguard of law relating to eight billion dollars of insurance has been enacted in a dozen states, including such pivotal states as New York and Ohio, and in 12 other states new laws adopted give the insurance departments the right to demand such information from fraternalists as they

may deem necessary to determine the issuing of a license. Under this provision in most of the states where the Mobile bill is not passed the commissioners will demand valuations as a precedent to relicensing. Under the Mobile bill the fraternal societies are given several years in which to prepare for this work but under the regulatory powers of the department they can demand it at once should they deem it necessary.

It is expected that the possession of such powers will lead to the adoption of the Mobile bill by most of the legislatures which meet next year. There are now over 25 states in which no new fraternal insurance society can be organized hereafter with rates lower than those of the National Fraternal congress. In recent years the organizing of such societies by

promoters has become an alarming evil.

## Stevenson's Dental Office

Have you noticed any profession making more rapid strides in the matter of new and improved methods the past few years than Dentistry? These days it takes a live man to keep up and unless he does keep abreast of the times he is hopelessly left.

Sanitation is one of these items that deserves public attention. The floors and walls of a dental office should be in such dress that dust and germs cannot collect. The dental furniture should be steel enameled and of such construction that all instruments can be sterilized.

Dr. G. A. Brown who is a graduate of the Chicago Dental College and who has had ten years office practice, a thoroughly competent man, is associated with me and will be in the office permanently as he has moved here with his family. I have looked into Dr. Brown's record very carefully and can say to you that he is a thorough, reliable man.

When you are in need of a dentist call up STEVENSON'S DENTAL OFFICE and make an appointment or call and we will give you the best service of which we are capable.
