## LA GRANDE'S CORDIAL WELCOME.

This year La Grande will be host and entertain the people of Eastern Oregon at an old-fashioned celebration on the Fourth of July. She is going to make an extra effort to see that every guest has a good time and so long as the laws of the state and city are not violated restraint will be slight and all will be invited to do as they please.

From every part of Baker, Union and Walla counties comes the word that large delegations are coming; coming with a disposition to revive once more the honored memories of revolutionary days, to renew allegiance to the old flag and to incidentally

thank this city for the generous attention and courtesy extended.

The decoration committee is already at work devising proper plans to make the city beautiful on that day. Give them a helping hand.

## WHAT DOES IT ALL AMOUNT TO?

Our old friend, Labor Commissioner Hoff, is an active official and looks after his department, but the question among the people seems to be is the department worth what it costs.

Factory inspection and red tape are strewn from one end of the state to the other, all of which is expensive to the taxpayers. Here is a new law added to the many others, which became effective May 20, 1911:

Section 1. Any person, firm or corporation employing labor, who employs more than three persons at the same time, shall report to the commissioner of labor statistics and inspector of factories and workshops any and all accidents happening to any person in their employment, directly or indirectly, due to said employment, and said person, firm or corporation are required to give the name, sex, age and the particular employment of the person so injured and explain the nature of the accident and the date and place of the occurrence of the same. Provided, however, that no such report need be made if the person be not in any way incapacitated from immediate continuance of his duties, and the services of a physician be not required. When any personal injury, of which notice is required to be sent to the commissioner of labor statistics and inspector of factories and workshops under this act, results in the death of the person injured, notice in writing of the death of such person shall be sent forthwith to the commissioner of labor statistics and inspector of factories and workshops.

Section 2. It shall be the duty of the commissioner of labor statistics and inspector of factories and workshops to keep a correct record of all accidents and deaths reported to his office, giving the cause of the accident or death, the particular industry or employment in which the person was injured, where the accident, or death, occurred, and publish the same in his biennial report.

Section 3. Any employer of labor who shall fail to report such accident within five days from its occurrence shall be liable to a fine of not less than \$25 and not to exceed \$500 or to imprisonment in the county jail for not less than five (5) days nor more than six (6) months, or both, in the discretion of the court.

(Chapter 102, Laws of 1911.)

So far there has been \$109 deposited in the postal savings bank here. That amount represents the deposits of seven individuals.

Nothing under \$1.00 may be deposited but a provision is made for children who are learning to practise economy by saving their nickels and dimes. Uncle Sam has provided cards on which there is a ten-cent deposit stamp. For each successive dime deposited a stamp is given which is pasted on the card. As soon as the card represents \$1.00 it may be deposited in the regular way.

Our friends have helped to make this one of the largest and strongest banks in the West. We have helped in their making, too.

We welcome new friends and will attend to their wants with the same fidelity which has cemented our relations with our older ones.
