

Money Invested in a Home Brings You Real Rewards

that cannot be measured alone in dollars and cents. There's satisfaction in knowing you have a home when possibly all other investments fail—it gives you a feeling of security and demands the recognition of your fellow townsmen, because by building you show your faith in the future of the community. And every community is known by its deeds. You can help and at the same time help yourself. A home investment is always the most meritorious, and loss is less likely because you are dealing in values you understand and with people you know. We have supplied the lumber for the homes of many of your friends who are now on the road to success, and want to talk with you whenever you're ready.

A BUSINESS

Is similar to a personality. It has character—good, bad or indifferent, the same as an individual. If the principles of the individual are fundamentally sound he's an O. K. individual. If the policy of the business is right and its methods square it is an O. K. business.

BAPTISTS MEET AN ADDITION TO IN EAST SHORT TERM

PHILADELPHIA IS GATHERING PLACE THIS WEEK.

Is One of the Greatest Gatherings of Its Kind Ever Held.

Philadelphia, Pa., June 13.—Baptists are in possession of Philadelphia today. They fill railway stations, hotels, boarding houses and street cars. Thousands of them are already here and thousands of others are on their way to attend the series of denominational conventions to be held in this city during the remainder of this month, and which promise to form one of the greatest religious gatherings ever held in America.

The first convention on the calendar is the gathering of the Northern Baptists, which had its formal opening today and will continue in session until the end of the week. This gathering embraces the annual meetings of the American Baptist Home Mission society, the American Baptist Foreign Mission society, the American Baptist Publication society and the Women's Home and Foreign Mission societies.

Next week the North American Baptists will convene with delegates in attendance from all parts of the United States and Canada. Simultaneously the Baptist World alliance will begin its sessions. The last-named gathering will be attended by representatives of 20,000,000 Baptists throughout the world.

"Old Homestead" Coming.

There could be no more welcome announcement for the amusement-loving public than the appearance here of "The Old Homestead," at the Steward June 17.

This dear old pastoral play itself is by this so familiar to everyone that any attempt to describe it would be supererogation. The mere mention of the names of Joshua Whitcomb, Cy Prime, Seth Perkins, Aunt Matilda and Ricketty Ann, is sufficient to bring to mind all of these delightful rural characters, and at the same time arise in the background the pictures of the old farm, the homestead in Swaney, Grace Church on Broadway in New York City, and the aristocratic mansion of Henry Hopkins, the metropolitan merchant and millionaire.

The company this season is practically the same as last, and the production is said to be perfect in every detail.

DOMESTIC SCIENCE TO BE TAUGHT DURING SUMMER.

O. A. C. Arranges Special Program for Domestic Science.

Oregon Agricultural College, Corvallis, Ore., June 13.—(Special.) A special two weeks' course in the methods of teaching domestic science subjects in the grade and high schools will be given this summer at the Oregon Agricultural College, beginning June 19, in addition to the regular six weeks' course from June 19 to July 28.

The purpose of the new course is to meet the needs of those interested in introducing domestic economy into the grammar grades and the high schools of the state, and who wish suggestion as to the cost of installing it with the necessary equipment, as to the courses of study to be followed, and the methods of catalog and holding the interest of the pupils.

Young women recently graduated from the college normal course will teach classes of children cookery and sewing as demonstrations to the summer students, that they may see how practical problems are met in the daily classes. Conferences with the regular members of the college staff may also be arranged if there are problems on which information is desired.

In the lectures to be given as illustration of the way laboratory practice may be supplemented by lecture instruction, such subjects will be taken up as marketing, and menu planning art in the home and its application to sewing, dressmaking and millinery. The dean of the department will give series of lectures on the place of domestic science, and its introduction into the country schools; a comparison of the plan of domestic science and art work at the Oregon Agricultural College and at similar eastern institutions; and the preparation that domestic science and art work gives a young woman for professional life.

The six weeks course will afford young women who are busy during the winter an opportunity for study of home problems in cookery, dietetics, serving, plain sewing, dressmaking, home nursing and sanitation. For teachers interested in introducing such work into the schools where they are to be next year, suggestions will be given with regard to what should be taught children of different ages, and how to arouse and sustain interest. Cookery, dressmaking, other sewing, and laundering will be included in the instruction.
