Wheat Crop Prosperous.

Spokane, Wash., June 28.—Reports received by local bankers and millers from country correspondents in Washington, Oregon Idaho and Montana indicate that the wheat crop in the inland empire this year will be about 65,000,000 bushels, the largest in the history of the district. The figures show the crop in 15 counties in eastern Washington will be 39,000,000 in round numbers as compared with 34,895,000 bushels in 1909. This statement is confirmed in a late federal crop report, which shows 21,441 acres in winter wheat and 842,000 acres in spring wheat in Washington the percentages being 98 and 97 percent respectively. The respective averages for a period of 10 years are 93 and 94 per cent perfect. It is reported the crop will be about two weeks late. Commissioners of horti-

culture in the Pacific and northwestern states report that the fruit crops will be above the average. The apple crop will not be as large as in 1910, but it is likely the prices will be higher. Pears, peaches and other fruits will be plentiful in most of the districts.

Simple Remedy Cures Appendicitis

Sworn proof that simple buckthorn bark, glycerine, etc., as compounded in Adler-I-ka, the new German appendicitis remedy, really does cure appendicitis without operation, can now be seen right in La Grande at the store of A. T. Hill. A SINGLE DOSE of this simple remedy will relieve wind or gas in the stomach or bowels, sour stomach, constipation and other symptoms of chronic appendicitis.

Spokane Likes Commission.

Spokane, Wash., June 28.—Three months' trial of the commission form of government in Spokane has convinced many, including the severest critics of the plan, that the affairs of the municipality today are conducted with great efficiency, economy and dispatch than under any administration since the incorporation of the city in 1881. Many wastes have been stopped, numerous abuses have been corrected and modern methods are now employed in all the departments. The business of the city is conducted in the same manner that a successful merchant or manufacturer operates his store or factory plant. Robert Fairley, commissioner of finance, said today that, while there is nothing certain yet relative to a reduction in taxes, he is prepared to show that the taxpayers have received 100 cents worth of work for every dollar expended by the commission. Commissioner Fairley has received requests from more than 100 cities in various parts of the country for copies of the Spokane charter, which is declared to be the most advanced practical plan in America.

"Father's Day" Popular.

Spokane, Wash., June 28.—Mrs. John Bruce Dodd, living at 610 1-2 Sharp avenue, is the happiest woman in Spokane today, having received hundreds of autographed books, poems, letters and photographs from prominent men all over the United States, Canada, Mexico, Hawaii, Japan, China and countries in Europe, thanking her for originating Father's day, the third Sunday in June. Probably the most interesting letter came from Ira Hayward, a close friend of Abraham Lincoln, who presented Mrs. Dodd a cane and gavel, made from one of the rails the Lincoln supporters carried to the convention that nominated the "rail-splitter" president. Father's day was observed by many in Spokane. Mrs. Dodd and a large party of women visited the homes for the aged and the orphans, the hospitals and the county institutions and carried flowers and books to the inmates. Two thousand members of the Young Women's Christian association participated in special services at Manito park, and many of the ministers referred to the Father's day celebration in their sermons.

China Can't Buy Flour.
 Spokane, Wash., June 28.—"China will have to look to other markets, probably India, for its flour supplies in the future, if the price of American flour remains above \$3.40 a barrel after the next harvest," declared Kwan Kai of Hong Kong, call the "four king of China," who was in Spokane yesterday, accompanied by Moy Back Hui, millionaire Chinese consul at Portland, and J. D. Armstrong of Tacoma. Mr. Kai said he is on a prospecting tour over the Pacific slope country, adding that because of the failure in many parts of the Chinese empire of the rice crop and prospects for cheaper wheat in the northwestern and Pacific states he believes the exports of grain to China the next 12 months will be larger than ever. After visiting various parts of Washington, Oregon, Idaho and Montana, Mr. Kai announced, he will make a tour of the United States at the instance of the viceroys of Canton to inquire into the American library system. The visitor was a resident of San Francisco from 1870 to 1891, when he returned to his native land.

Moran Is Recovering.

M. J. Moran, section foreman at Cayuse who was stabbed during the recent Italian riot, has sufficiently recovered from his injury as to be able to sit up at the St. Anthony's hospital. He was out upon the porch at the hospital yesterday.—Pendleton East Oregonian.
