JUDGE KNOWLES DECIDES NORTH POWDER CASE.

James E. Carrol Loses Case After Four Years Litigation.

After occupying attention in courts for five years or so, the well known case of James E. Carrol vs. J. R. Mc-Laren, both of North Powder, has been decided finally in circuit court. Judge J. W. Knowles this forenoon; handed down a decision giving the defendant title to five lots in North Powder which have been the bone of contention all along.

To North Powder people the case has been an interesting series of suits and counter actions, though, of course, the amount of property involved was not extensive, another feature which made the case unusual.

DUBLIN AWAITS GUESTS.

Great the most accurate measurement postracts of land have been sold in this way in five and ten acre pieces prices five and six times its cost on small payments, most of which payments are not yet completed. If the postoffice department decides to swoop down on these companies the payments may not yet be completed by a majority of the purchasers. One of the biggest companies recently paid make up for a lack of capital to carry out its agreements. Creditors still are showing anxiety whether that concern will survive and the lenders of the money, who are known as "pawn brokers to the rich," are in control of the company's affairs. This is only one of scores of land concerns which the postoffice department has under investigation. Florida has been a popwildcat land enterprises which have been operating during recent months. but oth∈r localities also have been extheir cash to land companies under the have the capital to improve it and

PRETTIEST THING In My Home is a Macey Book Cabinet

To set one of the new Macey Book Cabinets in your home is to set before your children an example of such good taste that throughout all the days of their lives they will feel its refining

Macey Book Cabinets are the first sectional bookcases ever built after the designs of the old masters. These old masters, Sheraton, Chippendale, Robert Adam and Fra Junipero, were as great in Furniture as Shakespeare in Literature, as Mozart in Music, as Michael Angelo in Painting.

The new Macey Book Cabinets are the only sectional bookcases that can be added to, both upward and sideways, and still not look like sectional bookcases, but like heirlooms of furniture. Can be taken from or rearranged without destroying their beauty

So artful is the cabinet work that dealers frequently have to take them apart to convince customers that they are sectional.

Macey old master designs harmonize with any furniture you now have, and are made in such variety of popular prices, sizes, woods and finishes, that they fit any requirement of space or purse.

Macey Sectional Book Cabinets are built under the direction of Mr. O. H. L. Wernicke, the father of sectional bookcases and President of The Macey Company. Mr. Wernicke's name is still used in the corporate title of a competing firm, with which he has long since had no connection.

If you wish to give your home and your children the most inspiring influence you ever gave them, you will go to a furniture store and see these new Macey Book Cabinets before you forget it
