Lulu Glaser will star in an adaptation of a German musical comedy called "Miss Dudelack."

### GUILD HALL IS COMMENCED

THREE MONTHS WILL BE REQUIRED TO CONSTRUCT IT.

Long and Unrelenting Effort to Be Crowned With Success

Hauling rocks for the foundation of the new guild hall has commenced and within 90 days the splendid edifice will be completed according to the contractor. The plans for the new hall have been explained by the Observer and those familiar with them say the house will be an exceptionally fine one, though not perhaps as large as the larger cities claim. The general architecture is catchy and provides ample room for all purposes. The building will stand on Fifth street between Spring and Washington facing west where it will adorn the street to good advantage.

It has long been the aim of the Episcopal church to construct this building and the fact that it is now actually under way is encouraging and stands as a criterion of the unrelenting efforts of the church membership.

California, in which two small additions, involving a total of a little over 17,000 acres, are made. On the other hand the proclamations eliminate a total of nearly 242,000 acres as follows: 85,000 acres in California, nearly 126,000 acres in Oregon, about 6,000 acres in Idaho, and about 25,000 acres in Wyoming. Thus the rearrangement which puts 26 national forests in place of 17 is accompanied by a net reduction in area of 225,000 acres. It is explained by officials of the United States department of agriculture that last summer's fire experience in the northwest made it clear that many of the forest supervisors were in charge of units which were too large for efficient administration. The changes are a part of a general movement to develop, with the aid of last year's experience, the most efficient system of fire protection possible at the present time.

In Idaho the Clearwater, Coeur d'Alene, and Nez Perce national forests were reduced by the establishment of two new units, to be known as the Selway and St. Joe national forests, with headquarters at Kooakia and St. Mary's, Idaho. This was brought about as follows: From the Coeur d'Alene to the St. Joe there was transferred 810,200 acres; from the Clearwater to the St. Joe, 223,300 acres; to the Selway, 1,684,000 acres; to the Nez Perce 16,640 acres, and from the Nez Perce to the Selway 117,140 acres. There was eliminated from the Nez Perce several small tracts aggregating 5,920 acres, which upon examination were found to be non-forest land.

### CHANGES IN THE RESERVES

Washington, July 7.—(Special)—A number of changes in the national forests of California, Oregon, Idaho, and Wyoming, made in the interest of more convenient and economical administration and especially of better protection against fire, have just been announced. These changes have been accomplished by President Taft through a series of proclamations he signed at different times in June, but all becoming effective July 1. The proclamations were drawn so as to dovetail into one another, with the result that taken all together they substitute 26 national forests for a former 17.

The only increase in area is in California, as follows: A total addition to the Klamath of 3,480 acres of forest land; an elimination of 85,000 acres in various small tracts consisting principally of alienated lands lying along the eastern border of the forest; two small transfers from the Siskiyou and the Crater forests to the Klamath; and a transfer of 352,000 acres of land from the Klamath to the Siskiyou, embracing all of the Smith River drainage lying within the forest. In connection with the latter transfer, 13,755 acres of valuable timber land located within the state of California were added to the Siskiyou national forest.

In Oregon changes were made in the Cascade, Chelan, Crater, Deschutes, Fremont, Malheur, Oregon, Siskiyou, Umpqua, Willowa, Whitman and Umatilla forests an dthe new Hinam, Ochoco, Okanogan, Paulina and Santiam forests were established by transfers from the other forests mentioned. Transfers occurred as follows: From the Umpqua to the Cascade, 168,508 acres; from the Cascade to the Santiam 216,821 acres; to the Deschutes 504,864 acres, and to the Paulina 147,720 acres; from the Chelan to the Okanogan 1,732,820 acres; from the Crater, 9,200 acres to the Klamath, and 61,370 acres to the Paulina; to the Deschutes 174,130 acres from the Oregon, 504,864 acres from the Cascade, and from the Deschutes 699,720 acres to the Ochoco and 407,120 acres to the Paulina; from the Fremont to the Paulina 411,000 acres; to the Malheur from the Umatilla 179,550 acres, from the Malheur to the Ochoco 119,310 acres; from the Oregon to the Santiam 493,349 acres, to the Deschutes 174,130 acres, from the Siskiyou to the Crater 12,400 acres, to the Siskiyou from the Klamath 352,000 acres, in connection with which were added 13,755 acres to the Siskiyou; from the Umpqua to the Cascade 168,508 acres, to the Paulina 306,149 acres; from the Willowa to the Minam 448,330 acres; from the Whitman to the Umatilla 276,170 acres; and from the Umatilla 276,170 acres. Eliminations from the forests in Oregon occurred as follows: 320 acres of patented land from the Chelan; 27,931 acres from the Crater; 32,935 acres from the Deschutes, 10,606 acres from the Oregon, 9,160 acres from the Siskiyou, and 44,414 acres from the Umpqua. The land embraced within these eliminations consist of many small bodies lying along the borders of the various forests which upon examination were found to be non-forest lands or patented lands

that could well be excluded from the forests.

Jewish Chautauqua Meeting, Milwaukee, Wis., July 7.—The 15th

### Heinz Euchred Sweet Pickles

Choice vegetables, spiced and preserved in a heavy sweet liquor. Possessing flavor and delicate richness unknown to other sweet pickles.
