

NOTICE.

Notice of the recorder of the city of La Grande, Oregon, of the assessment of Elm street from the north line of Washington avenue to the south curb line of Jefferson avenue.

Notice is hereby given that the assessment roll for the improvement of Elm street from the north line of Washington avenue to the south curb line of Jefferson avenue, being in improvement district No. 20 in the city of La Grande, Oregon, under the provisions of Ordinance No. 538, Series 1911, entitled: "An Ordinance declaring the cost of improving Elm street from the north line of Washington avenue to the south curb line of Jefferson avenue; determining the property benefited thereby, levying an assessment thereon to defray the costs and expenses of the improvement; providing for the assessment roll of the same and directing the entry of said assessment in the docket of city liens; providing a time when

the same shall become delinquent and requiring the city recorder to prepare a special assessment roll in accordance with the assessment herein levied and to collect said assessment." The same being in improvement district No. 20 in said city of La Grande, Oregon, is now in my hands for collection and that any assessment thereon may be paid to me at any time within ten (10) days from the 10th day of July, 1911, without penalty, interest or cost; and each property owner is hereby notified that on application to the undersigned within ten (10) days from the 10th day of July, 1911, which is the first publication of this notice, they will be allowed to pay such assessment in ten (10) annual installments, the first installment thereof being due and payable on or before the 20th day of July, 1912. If application is not made as above provided, the whole amount will be and become due, payable and delinquent on the 20th day of July, 1911.

All property owners interested are hereby notified to appear at my office in the city hall and pay the same. The assessment roll is as follows:

CLUB AIDING FRUIT GROWERS

WILL ASSIST IN PRESERVING FRUIT FOR EXHIBITION.

General Descriptions of Work May Be Done Published Herewith.

Many of the Commercial clubs, as well as individuals in this community will no doubt wish to preserve in the natural color some of the fine specimens of their fruits this season for exhibition purposes as strawberries and cherries are ripe, and inasmuch as they are especially fine, and the fact that a great many will be needed this fall for the county fairs, also the state fairs of the middle west. The La Grande Commercial club will attend to preserving any fruits of merit brought to their rooms over the La Grande National Bank building, labeling each sample with the grower's name. Many a gallon of fine strawberries should be brought and should be cut from the vine with a pair of scissors, leaving a long stem. The same amount of cherries should be brought with their stems on. The fruit should be handled very carefully to prevent bruising.

Instructions regarding the preservation of fruits in antiseptic fluids.

General Directions.

Select the finest specimens of the fruit, both as to form and size. Handle them carefully to avoid all bruising, and place them in bottles, arranging the specimens so as to show them to the best advantage. Fill each bottle to the neck with fruit, then pour on the fluid recommended, filling the bottles to within one-half of an inch of the stopper, so as to entirely cover the fruit; then place the stopper in the bottle, and run a little melted bees wax or paraffine over the joint to make it air tight. Tie the stopper down with a piece of strong cotton, and attach to each bottle a label containing the following particulars: The name of the variety of fruit, name and address of the grower, with the state in which the person resides. Write also in each case in one corner of the label the letter suggested to indicate the fluid which has been used. Wrap the bottles in paper to exclude the light and preserve in a cellar or other cool place until required for shipment. Strawberries and raspberries should be cut from the plants or bushes with a pair of scissors, leaving a short piece of stem attached to each.

Fluid No. 1.

Formalin (formaldehyde), 1 pound (16 ounces); water, 44 pounds; alcohol, 5 pints. Allow the mixture to stand, and should there be any sediment pour off the clear liquor and filter the remainder through filtering paper. This two per cent solution of formalin or formaldehyde, has been found very useful for preserving the strawberries, so as to give them a natural appearance.

In each case where this fluid is used mark F on one corner of the label.

Fluid No. 2.

A solution of boric acid in the proportion of two per cent. Dissolve one pound of borle (boracic) acid in 45 pounds of water, agitate until dissolved, then add five pounds of alcohol. If the fluid is not clear allow it to stand and settle, when the clear upper portion may be poured off and the remainder filtered.

In each case where this fluid is used mark B on one corner of the label.

Fluid No. 3.

A solution of zinc chlorid in the proportion of 3 per cent. Dissolve one-half pound of zinc chlorid in 15 pounds of water, agitate until dissolved, then add 1 2-3 pints of alcohol. Allow the mixture to stand until settled; then pour off the clear fluid and filter the remainder.

In each case where this fluid is used mark Z on one corner of the label.

Fluid No. 4.

Sulphurous acid one pint, water eight pints, alcohol one pint. Allow the mixture to stand, and should there be any sediment pour off the clear liquor and filter the remainder.

In each case where this fluid is used mark S on one corner of the label. List of fruits with the names of the preservatives to be used in each case. Where two fluids are named either may be used, but the first named is preferred.

Strawberries.—Solution No. 1, for-

- main.
- Raspberries, Red—No. 2, boric acid; No. 1, formalin.
- Raspberries, white—No. 4, sulphurous acid; No. 3 zinc chlorid.
- Raspberries, black—No. 2, boric acid.
- Blackberries—No. 2, boric acid; No. 1, formalin.
- Cherries, red or black—No. 1, formalin; No. 2, boric acid.
- Cherries, white—No. 4, sulphurous acid.
- Currants, red—No. 1, formalin; No. 2, boric acid.
- Currants, white—No. 4, sulphurous acid; No. 3, zinc chlorid.
- Currants, black—No. 2, boric acid.
- Gooseberries—No. 1, formalin; No. 2, boric acid.
- Apples, green and russet—No. 3, zinc chlorid.
- Apples, more or less red—No. 2, boric acid.
- Apples, white or yellow—No. 4, sulphurous acid.
- Pears, Russet—No. 3, zinc chlorid.
- Pears, green or yellow—No. 4, sulphurous acid.
- Plums, dark colored varieties—No. 1 formalin; No. 2, boric acid.
- Plums, green or yellow—No. 4, sulphurous acid.
- Peaches, apricots, nectarines, or quinces—No. 4, sulphurous acid; No. 3, zinc chlorid.
- Grapes, red or black—No. 1, formalin; No. 2, boric acid.
- Grapes, green or yellow—No. 4, sulphurous acid.

ORDINANCE NO. 540, SERIES 1911.

An ordinance authorizing the mayor and recorder of the city of La Grande to enter into a contract with the Smith Construction company for the laying of cement sidewalks on Main avenue.

The city of La Grande does ordain as follows:

Section 1. The mayor and recorder of the city of La Grande are hereby authorized to enter into a contract with Smith Construction company for the laying of cement sidewalks on Main avenue in accordance with the terms of their bid heretofore accepted by the council, and now on file with the recorder of the city of La Grande. Passed the common council on this the 5th day of July, 1911, by eight councilmen voting therefor.

Approved by the mayor on this 8th day of July, 1911.

A. L. RICHARDSON,
Mayor.

Attest:
C. M. HUMPHREYS,
Recorder.

ENVIOUS WOLEV

You Can Have Just as Lovely a Head of Hair as Any Woman.

Don't feel blue because your hair is thin, and faded, use a bottle of Persian Sage and see how quickly it will become brilliant and fascinating. Use it daily for a few days and note how quickly scalp itch ceases and the dandruff vanishes.

It stops falling hair, too, and makes thin scanty hair grow thick and profusely.

It's the real invigorating delightful hair dressing for men, women and children, and best of all, if it doesn't do just as advertised get your money back. It kills the dandruff germ, and for 50 cents you can get a large bottle at the Newlin Drug company and druggists everywhere. The girl with the auburn hair is on every bottle.
