## Health and Good Looks

Kitchen work has a lot to do with health and good looks. A woman cannot work overtime in a furnace-like kitchen, with a wood range in hot weather without paying the penalty.

The drudgery, the long hours, the extreme heat, the smoke and ashes, will cut down her energy and make her prematurely old in face and form.

This is a fact that cannot be disputed and all of us can call to mind many examples. Every woman who cooks is entitled to an electric range, and she gets one, too, where the man of the house has her welfare at heart.

An electric range means a cool, clean kitchen, a fire without a minute's wait, that can be regulated with a thumb-screw—meals in half the time and no fuel to handle or ashes to contend with.

Our special rate to users of our electric ranges, makes them as economical to use as wood. Ask about them.

## SUGAR PRICES IN EASTERN OREGON REMAIN HIGH

**NOT BELIEVED AUGUST WILL SEE MUCH DROP.**

**Rising Eighty-Five Cents, a Month Is Record for Sugar.**

La Grande housewives are studios over the sugar question. With sugar rising 85 cents per hundred pounds during the month of July and with the beginning of another fruit canning month at hand and no indications of a drop, the question is really a somewhat serious one.

Several causes enter into the rise of sugar during the month of July and few authorities predict any sudden drop, but on the other hand, local dealers who keep in touch with the probable turn of prices in the price-setting markets do not anticipate that it will go any higher.

Coming as it does, the sudden and very material rise has been felt by the housewives and their husbands to pay the monthly bills, especially during the fruit canning season.

## WOODMEN HOLD STAG

**EVENING SPENT IN DELIGHTFUL MANNER.**

**Cards and Refreshments Entertain Many Lodge Members.**

About two score Modern Woodmen of America last evening enjoyed a delightful stag party at the lodge hall. Refreshments in the way of fruits, smokes and ice cream, abetted with various card games, made a pleasant month end diversion.

These parties are held regularly the last meeting night of the month and the members look forward to them with a great deal of pleasure. Chess and checkers are to be taken up as pastimes on these evenings by disciples of the those games.

## OFFICER CHASES AUTO

**H. M. Covey of Portland Leads Police in Merry Race.**

(Portland Oregonian)

H. M. Covey, manager of the Covey Motor Car company, was arrested by Motorcycle Patrolman Sims yesterday morning at East Sixteenth street and Belmont avenue, after an exciting chase lasting half an hour, for exceeding the speed limit. Covey explained to Captain Balfour that he tried to run away from Sims because he intended leaving Portland for the east at 7 o'clock this morning, to be gone a month, had his ticket and reservation and did not want to be detained.

Covey was advised to call up Judge Tazwell. He did so and entered a plea of guilty over the telephone in advance of his hearing. He was released on \$25 bail, which he agreed to forfeit, but which will be applied as payment of his fine on a plea of guilty.

Motorcycle Patrolman Sims "tacked in to" Covey when he saw he was exceeding the speed limit. Covey drove several blocks before he discovered the officer was after him. Then, thinking simultaneously of the police station and the necessary appearance in court, his 7 o'clock train and his urgent business in the east, he opened up gears and started to smash track record in the speed limit, clutches and gears. Sims noted the sudden spur, and his motorcycle was soon a streak of sputtering sparks.

Up one street and down another the chase led, the motorcycle gaining little by little, particularly when corners were turned, until Covey gave up at Sixteenth and Belmont and submitted to arrest.

Covey was profuse in his apology, and was so pleased to make the advance arrangement about pleading guilty that he thanked Judge Tazwell and the entire police department and agreed to pay for the extra gasoline. Sims burned in catching him.

## WRENCH NOT HYDRANT BLAMED.

**Water Superintendent Affirms All Hydrants Are Properly Flushed.**

Because the wrong wrench was carried on the hose cart to the Schaffer fire yesterday morning, and not because the hydrant was out of order, is the cause ascribed to the delay in getting water on the burning building yesterday morning. Water Superintendent L. M. Hoyt affirmed today that this hydrant and all other had been properly flushed but that the delay was caused by the wrong wrench being attached to the hose. When the hose was attached, the wrench at hand would turn the valve and it was for this reason that the delay was occasioned.

## ARCADE THEATRE PRODUCES ENTERTAINING FILM.

**Thousand Feet of Film Picture Depicts Interesting Lore.**

As an educational picture, the one at the Arcade theatre this change surpasses any shown in many "months." "Washington Relics" is certainly a picture for old and young and for the boys and girls of school age there is more contained in this 1,000 foot film than in half the books written about the great man.

Every one, old and young should see this picture that brings you in so close a touch to the things that were near and dear to the great father-president of our country.

Tonight is the last night.
