Health and Good Looks

Kitchen work has a lot to do with health and good looks. A woman cannot work overtime in a furnace-like kitchen, with a wood range in hot weather without paying the penalty.
The drudgery, the long hours, the extreme heat, the smoke and ashes, will cut down her energy and make her prematurely old in face and form.
This is a fact that cannot be disputed and all of us can call to mind many examples. Every woman who cooks is entitled to an electric range, and she gets one, too, where the man of the house has her welfare at heart.
An electric range means a cool, clean kitchen, a fire without a minute's wait, that can be regulated with a thumb-screw—meals in half the time and no fuel to handle or ashes to contend with.
Our special rate to users of our electric ranges, makes them as economical to use as wood. Ask about them.

Eastern Oregon Light & Power Co.

LONG SESSION AN ACTIVE ONE

VARIED LINES OF BUSINESS TRANSACTED.

Sidewalks, Sewers, Construction Work and Other Subjects, Too.

With Councilmen Mackey and Church absent, the council met last night for its first of the month session and was busy up to the midnight hour. With liberal spurts of oratory and tie votes the evening presented a varied program, but for all that, the body waded through an immense amount of routine matter.

Residents on Adams avenue between First and Oak streets want cement walks on both sides of the street and their petition for this was read and referred last evening.

To change the name of Twelfth street to Caylor street is the purpose of many of the residents on that street. They petitioned the council last evening for such action and their names were referred to the street committee.

Suit Is Threatened.

J. H. Peare served notice on the council that he would institute proceedings to recover \$1,000 damages said to have been sustained because his property was inaccessible during the present summer in East addition because the city sewer so obstructs a strip of land connecting the land with Adams avenue, that a man cannot cross it. In his communication to the council Mr. Peare pointed out how the city could remedy this obstruction but in the event that it was not changed as requested, proceedings would be commenced. The matter was referred to the city attorney.

Four residents along Lake street want permission to run an 18-inch pipe across the road in such a way that it will carry water to their respective properties and yet be no detriment to the street. They agree to keep the streets clean and offer to have their contracts rejected if they do not do so. The petition was referred.

Sidewalks Discussed.

August 16th the date set for hearing remonstrances on Fir and North Fir streets. Second and H. street committees were given more time to report. Attorney Turner Oliver presented the council with a suggestion that the grading on the Fourth street hill be done at one time and not require the property owners to make the deep fills there and then later have the entire hill graded. In some places the wooden sidewalk is far above the surface of the ground and must be brought down to proper grade before the cement walks are built. It was the opinion of the council that Mr. Oliver's suggestions be adhered to and also that Mrs. Anson's and similarly located walks be not included in the proposed improvements. Mr. Anson's walks are in fine repair and almost exactly on grade, but will be torn out next year.

An ordinance defining more clearly what constitutes a nuisance, and aimed at careless property owners who pile various odds and ends in their alley, was read and passed with an emergency clause.

Allow Water for Contractors.

About one cent per lineal foot frontage is the amount the city will allow property owners who supply water for construction of the cement walks in front of their property.

The report of J. L. Jones, special sewer inspector was read and shows that he has kept close tabs and has found occasional joints of sewer pipe that had to be rejected. There had been 105 such rejections when the report was made out. Bids were received for the construction of cement walks and curbing in Connerdale. The two bids presented were by C. T. Darley whose bid amounted to about \$9,613.13 while the Smith Construction company was represented by a bid of about the same nature. The bids were referred.

The construction of board sidewalks on S avenue were also bid in. L. P. Oesterling offering to do the work for 29 cents per lineal foot. John L. Mars offered to build his own walk for \$1 per lineal foot, using cement instead of board walks.

WANT RAILROAD LINE EXTENDED

SOUTH END OF UMATILLA COUNTY SEEKS RAILROAD.

General Manager O'Brien to Be Asked to View the Territory.

(Pendleton East Oregonian).
Through action of the Pendleton Commercial club an invitation has been extended to General Manager J. P. O'Brien and other Harriman line officials to visit the southern end of this county to investigate the resources of that section with a view to extending the Umatilla Central and the invitation has been accepted.

Thus far no specific time has been set for making the trip but word is expected from Mr. O'Brien setting forth when he may make the trip. As soon as this information is received preparation will be made for taking the trip by auto and a local delegation will accompany the railroad man on the journey.

At the Commercial club meeting last night a report to this effect was given by L. Thompson who has been in negotiation with the railroad men. In his talk Mr. Thompson urged the feasibility of a railroad to the southern end of the county and expressed the hope that after the railroad officials had viewed the country they would look with favor upon the idea of extending the Pilot Rock branch.

But a few days ago Mr. Thompson made the trip to Ukiah by auto and he says he was astonished at the extent of the resources of that section and at the possibilities open to a railroad.

Aside from the timber, which he says should be brought here for manufacture, there is also a vast body of agricultural land awaiting transportation facilities and the people are anxious for the building of a road.

ROCK CREEK IS FIRE'S PATH

FIRE SUPERVISOR GOES TO MASTER BLAZE.

Fire at Medical Springs Has Been Overpowered Is Report.

Baker, August 3.—(Special)—A forest fire is raging out from Rock creek and Supervising Fire Warden Palmer left for that place this morning to direct the work of putting it out. No reports have been received from him today but last night he believed that it was a large blaze from the smoke that was coming from it.

The fire at Medical Springs has been corralled and is giving no further trouble today unless the embers are revived by a sharp wind or it breaks out from some other cause.

Buckeye Solons in Reunion.

Cedar Point, O., August 3.—Present and past members of the Ohio General assembly, together with many politicians from over the state, rounded up here today for their 11th annual reunion. While pleasure and entertainment are supposed to occupy the legislators and other visitors during their outing it is expected they will find time for considerable discussion of political affairs and it is possible that developments of not little importance may result from the gathering.

Much interest centers in the reunion banquet to be held tomorrow night and at which the speakers are to include Governor Harmon, United States Senator Pomerene, Lieutenant Governor Nichols and other public men of prominence.

New York Yacht Club Cruise.

New York, August 3.—Glen Cove's picturesque harbor was the rendezvous today for a fleet of the finest and fastest sailing and steam yachts in the United States, assembled to take part in the annual cruise of the New York Yacht club to Newport. The commodore will order the squadron under way early tomorrow morning for the first run of the cruise from

Glen Cove to Morria Cove, where the night will be spent. There also will be the customary over Sunday stop at New London. Newport will be reached Wednesday. The race for the Astor cups takes place Thursday, and that for the King's cup on the following day.

Oarsmen at St. Catharines.

St. Catharines, Ont., August 3.—Many individual oarsmen, doubles, fours and eights have arrived here with their needle pointed shells in readiness for the annual regatta of the Canadian Association of Amateur Oarsmen. Some of the preliminary races will be pulled off tomorrow, with the final and most important events reserved as usual for Saturday. With an entry list that includes some of the speediest oarsmen from Toronto, Montreal, Ottawa, Buffalo, Detroit, Hamilton and other cities, the regatta promises to be fully up to the high standard established by the association in former years.

Special Train Excursion to Seashore.

The Oregon-Washington Railroad & Navigation company will operate a special train consisting of free reclining chair cars, tourist and standard sleeping cars to Portland in connection with their steamers to North Beach resorts and Astoria. The special train will leave La Grande at 8 p. m. Wednesday, August 23rd, arriving at Portland the following morning at 7:15. Passengers may have their choice of steamer Potter, leaving Portland at 8:30 a. m. August 4th and 5th or the steamer Heasalo, leaving Portland on the same dates at 8 p. m. A round trip rate of \$10.00 will be named which includes stopover privileges at Portland and Astoria on return trip; limit 15 days from date of sale. Make your sleeping car reservations now.
