BY UTAH EDUCATOR.

in Every Way-Attendance Large Successful beyond anticipation of the most sanguine in point of numbers in attendance, close attention to scheduled numbers on the program and In every way that makes a convention a success, the annual Sunday school convention of the L. D. S. church-Union stake-was held yesterday at the tabernacle. While sevurdays at K. P. hall. All visiting eral had been expected from Salt Lake business engagements kept all away but Prof. B. W. Griggs, prominent in church circles at Salt Lake, and also one of the very foremost educato; a of

> department of the University of Utah and in addition, has charge of the state conventions or institutes that are required by law to be held in every county of Utah. In this way he comes in contact with every section of the state and his influence in educational circles is a wide one. Compliments Local Sunday Schools

In his church work Mr. Griggs has occasion to visit all the stakes in the district and after listening to the program here yesterday, he reported before leaving for his home that in all his Sunday school work he had never seen a convention of this sort that reflected the vim, the spirit of doing and enterprise clearly shown here. The widespread interest attracted to Sunday school work in the Union stake O. E. S .- Hope Chapter No. 13. O. E outshone all other stakes and was C. holds stated communications the indeed commendable, he said, and he averred that he would take that message to Salt Lake.

Incidentally Prof. Griggs paid the valley a high compliment. "In all my travels I have never seen a finer home community, a prettier valley or section of the country and I can say with vigor that I have never seen anything so pleasing to the eye as the panorama of La Grande and the Grande Ronde valley."

A. S. Geddes took the visitor over the fruit-growing sections in an automobile yesterday evening and on his The program carried out during the

POINTED OUT.

to Back Requests.

Spokane, Wash., Aug. 26.-Waldo G. aine, general traffic manager of the pokane & Inland Empire Electric allway system and president of the Spokane Transportation club, who was the principal speaker at a luncheon by the Spokane Chamber of Commerce in honor of transportation men on August 22, said in the course of frightened by the attempted or threatened regulation and as a result it is difficult at present to secure new capital for railroad enterprises.

"The sky seems to be clearing a little for the railroads," he added, "but similar action is being considered and taking place against many other kinds of business and unless you as individuals and as organizations take an active part in creating a sane and sensible public opinion about business, the same difficulty that now embarrasses the railroads will spread and be a menace to other enterprises."

Reviewing the situation in the Inand Empire Mr. Paine said that the railroads already constructed represent an expanditure of \$250,000,000 and give employment to 25,000 men directly and about 200,000 indirectly,

"The gross annual earnings of the group of railroads in the Inland Empire is \$37,000,000, of which amount, roughly, 75 per cent, or \$27,750,000, is earned in the handling of freight. Fifteen per cent of the freight receipts is 16 per cent forests, 10 per cent manufactures, four per cent merchandise, and four per cent miscellaneous.

"Forty cents of every dollar earned by railroads in 1910 was paid for labor, or \$14,800,000, was expended by the railroads in the Spokane country in cash payments to employes. Fourteen cents was paid for fuel, or \$5,-180,000, principally to mines located in the district. About three cents of every dollar, or \$1,100,000, is paid in taxes to the federal, state and city governments.

"Twenty per cent, or \$7,400,000, is paid out in maintenance of track. buildings and equipment, and outside of steel rails, is principally spent in the territory served by the railroads using the materials. Out of the balance of 13 cents left from our dollar must come loss and damage claims, interest on funded and other indebtedness, and if there is anything left. dividends to our stockholders,

The two street car companies operating in Spokane occupy 92.71 miles of streets and have 154.11 miles of track. The total investment of both companies is \$42,000,000. The combined payroll is \$252,000 a month or \$3,000,000 a year to 2,400 employes. The total taxes are \$182,000 a year. We have nine-tenths of a mile of street occupied by tracks in this city for every 1,000 population, or more than any other city of similar size on the continent."

Robert E. Strahorn, vice president and general manager of the third division of the Oregon-Washington Railroad & Navigation company, spoke of the necessity for more railroads in the northwestern country and urged the business men to continue the work of bringing in capital for development,

"All I ask is that this organization take some action before the next congress and legislatures tending to urge against too much nagging legislation. Edwin T. Coman, president of the

head of the chamber of commerce at dent Lowell of Harvard university. the luncheon, which was attended by 400 business men.

IMPORTANT SESSION OF BAR AS-SOCIATION HELD.

First Session to Be Held Tomorrow-Week Taken Up by Session.
