

The Isis THEATRE

"Along the Danube" ... Pathe
A marvelously beautiful film, showing a trip up the Danube from Passau to Vienna.

"Chinese Pottery Making" ... Pathe
Highly educational and interesting.

"Fighting for Justice" ... Essanay
One of this great company's special productions. Illustrating incidents in the recent great strike of working girls in the big eastern cities.

"The Roundup at Dawn" Kalem
The cowboys are warned to be up before dawn to round up a big bunch of cattle. The cow-girls steal a march on the boys, also their clothes, leaving their own skirts in place of the boys' chaps. The girls round up the cattle before the boys wake up. It is great comedy.

Illustrated song—"Gee, but There's Class to a Girl Like You," sung by Miss Garrick ... Matinee

MAY MEAN CHEAP COAL.

Secretary Fisher Will Consider Plan of Government Operation.

Cordova, Alaska, Aug. 28.—"I am keeping my mind open to impressions but I regard the Oregon plan as one distinctly to be considered," said Secretary Fisher, who is looking into Alaskan affairs. The Oregon plan provides for government ownership and operation of coal mines, the fuel being sold to consumers at cost.

Rich Card at Windsor.

Windsor, Ont., Aug. 28.—What promises to be a banner autumn meeting under the auspices of the Windsor Fair Grounds and Driving Park association opened this afternoon. It will continue for one week. The total purse distribution will be about \$32,000.

Relatives Visit Prisoner.

William Hogg, held a prisoner in the county jail, was the recipient of calls by several relatives from High Valley. They spent much of the day with the prisoner.

STRAY TOPICS FROM LITTLE OLD NEW YORK.

New York, Aug. 26.—Meat prices have gone up and are still continuing their upward movement as if they intended to establish an altitude record. The poor consumers of New York, with the emphasis on the "poor" will have the alternative of choosing between bankrupting themselves to buy meat and pulling their belts tighter after having stricken meat from their bill of fare. It is alleged that the higher prices of corn "compelled" the meat trust to raise the price of meat, as if the meat trust ever bothered about so trivial a thing as a sufficient reason for its doing. Whatever the primary cause may be or may have been, the fact remains that the trust has given the jack screw forcing up

the prices another turn and the retailers, not to be outdone, gave the same screw not one but two or three turns. If the packers raise the price one cent a pound, the retailers promptly charge to the customers from two to five cents more per pound. Many people are of the opinion that it is about time to reopen the cold-storage investigation.

Three New York detectives, attached to some of the Brooklyn police stations, distinguished themselves the other day by a clever piece of work, for which they deserve considerable credit. A physician, returning from a confinement case at night, was run down on his way home by a speeding auto and killed. The auto, which carried five men at the time, sped on after having run down the physician and was quickly lost in the darkness.

With practically no clue for a working basis the three detectives began their investigation and search for the machine and before 24 hours had passed they had not only found the machine but arrested every one of the five men who had been in the machine that fateful night. What made the achievement of the detectives even more noteworthy was the fact that they had found the machine and arrested the men in spite of the distance given to them by some eye witnesses, friends of the doctor who was killed. Two of them stated positively that they saw the license tag of the machine and could swear that the license number contained the figures three and seven, although they were not sure which relative positions the figures occupied. As a matter of fact the license number of the machine was 16,545, containing neither a seven nor a three.

New York City is seriously threatened with a water famine and the authorities are considering the expediency of reducing the pressure to diminish, as much as possible, the wasting of water. The citizens have been requested to be economical in the use of water and to reduce the number of their baths. There are some sections in the city where such a request would be entirely superfluous and where, on the other hand, an order for bathing at any time would cause a riot. It is not in the "hot" sections, however, where any considerable amount of water is wasted.

The police authorities of New York are confronted with a "trunk mystery" which has some rather peculiar features. The other night a good-sized trunk was found on the street at Fifteenth street and Fourth avenue. When it was opened it was found to contain four coats, 9 vests, 11 outing shirts, four nightshirts, four towels, 20 ties, four pairs of shoe laces, 19 pairs of socks, seven suits of underwear, nine handkerchiefs, one pair of white kid gloves, 96 collars, 21 pairs of cuffs and but one solitary pair of trousers. The clothing was of good material and bore the tags of Paris tailors. Many of the articles were embroidered with the name "S. Koarag," which name also appeared upon the tag of the trunk. How the trunk happened to be abandoned on the public streets and what has become of the owner of the trunk, who is supposed to have arrived here on one of the late steamers, the police have been unable, so far, to ascertain.

Mayor Gaynor is a man of many accomplishments and of an outspokenness that is quite startling at times.

The other day he gave the most convincing proof that he has the making of a good literary critic in him, a gift hitherto unsuspected by the general public. Some time ago the committee on book selection of the public library decided to exclude from the shelves of the library a new novel of stage life by an American author, Mildred Holland, president of the Actors' Church Alliance, wrote a letter to Mayor Gaynor, protesting against this decision of the library board and contending that the novel was by no means immoral. Mayor Gaynor obtained a copy of the book and having read it, sent a letter to Miss Holland, answering her protest. With the utmost candor he informed Miss Holland that he had read the book and had found it quite harmless but very stupid and that he felt sure the book had been excluded for no other reason than its stupidity.

Some of the magistrates and justice of New York are not particularly famous for their knowledge of legal phraseology. The other day a fruit peddler was being tried in special sessions for selling decayed fruit. The lawyer for the defense announced to the court that his client pleaded "nolo

contendere," but the presiding justice had never heard of such a thing and wanted to know what it meant. The lawyer explained, but the justice informed him that he would not permit any quibbling and would accept only a direct plea of guilty or not guilty. The defendant pleaded guilty and was promptly sentenced to a fine of \$100 or two months in the workhouse.

When the trained dogs, which form part of the police force of Greater New York and assist in protecting the sparsely settled districts on the outskirts of the city, were sent to Parkville about a year ago, the residents were overjoyed. Choice titbits were left on the front stoops in which the dogs might regale themselves on their midnight patrol, for the residents were certain that the presence of the watchful dogs would keep all burglars and other evil doers out of their district. The dogs made a fine record, helped to make many arrests and kept burglars at a minimum, yet there is growing dissatisfaction among the residents, who have complained to the board of health that the police dogs disturb their slumber with their raucous barking. As the residents of Parkville seem to prefer burglars to barking dogs, the police dogs will be transferred to Staten Island, where the people do not mind the barking of dogs half so much as the safety of their homes.

Excursion to Baker.

Tomorrow is circus day in Baker and several from here are planning on joining the special train leaving here at an early hour. Ringling's circus trains will pass through La Grande tonight.
