Pay By Check

If you have a checking account, the bank does your bookkeeping free of charge and renders you a statement of your receipts and expenditures whenever you ask for it.

Your cancelled checks are receipts for the bills you have paid. You need never pay a bill twice if you pay by check. The check is positive proof that you paid the money.

You cannot be robbed if you carry a check book instead of the actual money. You cannot lose your money by carelessness or fire if you keep it in the bank and pay by check.

If you have a check book in your pocket you always have the "right change," for you can make out a check for any odd amount.

If you pay by check, people will see that you have a bank account and your credit will be greatly improved.

If you have a checking account at the bank, you will be given special consideration should you wish to borrow money.

Your money in the bank keeps the mills running, employs labor, and makes good and prosperous times for all.

If you have a checking account you need not send money through the mails. You can send your check. If the check is lost your money is still safe in the bank.

If a check is stolen or forged, you do not lose anything. The bank is liable for forged checks if it pays them.

All check books, banks books, etc., are free, and it costs you absolutely nothing to have a bank account.

If you have a checking account at the bank, you will always feel free to ask your banker for advice or for a recommendation. He will be glad to furnish either.

BUTTERFLIES INFEST CITY

RESIDENCE AND BUSINESS SECTIONS SWARMING

Many-Hued Butterflies Cause Much Cogitation.

Varied and brilliantly colored butterflies have made La Grande a visit in schools of thousands and almost every street is a fluttering mass. The visitation is indeed unusual and no particular section of the city seems exempt, for the erstwhile caterpillars are visible everywhere. The advent of the butterflies has been noticed for the past several days but as time goes on the number increases very rapidly and even the down town sections are now in the same class as the residence districts. They were first discovered in any appreciable quantity on Fourth street and from there the many-hued insects spread to adjoining streets and so on all over the city. Many causes are advanced to account for the strange gathering of butterflies but none appear plausible.

DAMAGE SUIT HARD FOUGHT.

La Grande Official Testifies at Baker Damage Suit.

Baker, Sept. 12.—Attorney Nichols, attorney for Mrs. Viola Shepard, of Huntington, in her suit for damages against the O. W. R. & N. for the death of her husband, finished his case yesterday forenoon about 10:30. Immediately Attorney Spencer, of the railroad's counsel, moved for a non suit. From that time until nearly two o'clock he argued, and immediately Mr. Nichols took up the argument for the plaintiff, and when he concluded the motion of Mr. Spencer was disallowed by the court. The defense then began its case.

Assistant Division Superintendent Buckley, of La Grande, was the first witness called. His testimony was largely concerning the rules in regard to the display of signals on cars un-

dergoing repairs in railroad yards.

A large number of witnesses from Huntington were on the stand yesterday, and testified that the yard men were instructed to get the fast freight on which Shepard was working at the time of his death, through the yards as fast as possible, in fact, stated that they were instructed to get it through in less than an hour and a half. Some testimony was to the effect that the repair men had been ordered to violate the rule that a blue signal be placed on the cars being repaired at it took too much time. To prove violation of the rules is the object of the defense. The case will probably occupy the greater part of today.

Embassy Sites Are Chosen.

Washington, Sept. 13.—The state department is encountering considerable difficulty in finding suitable sites for embassy and legation sites abroad. When congress passed the bill for purchase by this government of such buildings, it named \$350,000 as the maximum price which could be paid for any one building. From estimates submitted to the department it now appears that this restriction may prevent Uncle Sam owning homes for his diplomatic officers in any of the big foreign cities.

It is only at the smaller posts, it is said, that the government will be able to purchase sites within this figure. It is possible that the state department may ask congress to make an exception in certain cases to permit of extension of the law to such cities as London, Berlin, St. Petersburg, Paris and others.

SCHOOL TEACHER ASSAULTED.

Brutal Fiend is Now Being Pursued by Angry Posses.

Snowflake, Manitoba, Sept. 13.—Poses of 300 men surround a man believed to be Henry Wilson of Hannah, N. Dak., and a lynching is promised if he is caught, following the return of Miss Gladys Price, a school teacher of Riverdale. She was dragged from her school room by a man, after she had told him to shoot her, brutally assaulted, and then was compelled to spend 30 hours in the brush with the man who guarded her, with a rifle. He finally let her go after he had drank all his gin and sobered up.

Would Retain Pacific Fleet.

San Francisco, Sept. 13.—An effort to persuade the navy department to retain the Pacific fleet at San Francisco until after Taft visits here in October to break ground for the exposition is being made today by directors of the big fair. The fleet is under orders to proceed to Hawaii for division battle and target practice, the orders having been issued just before it was announced that the president would journey to the Pacific coast.

Insect Powder Defined.

Washington, Sept. 13.—The department of agriculture in a grave legal opinion, just issued, has decided that "insect powder" must be made of powdered chrysanthemum flowers.

Henceforth, a manufacturer of bug destroyer who labels his product "insect powder," and puts such perfectly good insecticides in the concoction as tobacco or hellebore, will be liable to prosecution as an adulterator.

"The board," the decision reads, "holds that the term 'insect powder' is used in both a generic and specific sense, the former applying in cases where no attempt is made to designate a particular article. A similar condition exists in the use of the word 'flour.' There may be 'rye flour,' for instance, but the word 'flour' standing alone and used to designate a specific article, means 'wheat flour.' Similarly there may be hellebore insect powder and tobacco insect powder but the term 'insect powder' used without a qualification, signifies a definite article—insect powder made from powdered heads of a specie of chrysanthemums." Hereafter "insect powder," if labelled "insect powder," must be not-
