

RECIPROCITY MADE A PARTY ISSUE AND PRESIDENT TAFT REFUSES RESPONSIBILITY

HURLS THRUST AT MR. CLARK

"HIT BETWEEN THE EYES, SITS VERY STILL."

IF PEOPLE LIKE HIM ALL RIGHT; IF NOT, ALL RIGHT

Disputing Champ Clark's Theories and Asserting It Is a Party Issue, President Taft Explains Own Position on Reciprocity Status at This Time—Goes to Football Game Today.

St. Louis, Sept. 23.—President Taft began his western campaign making three speeches here today. He will accept the responsibility for everything connected with the official acts of his administration it is said, by taking the attitude that the people can repudiate him if they don't like him.

He autographed and attended a football game at the St. Louis university grounds this afternoon. Champ Clark and Pres. Taft were in the same railroad station but they didn't meet, Taft leaving and Clark boarding the train.

"When a decision hits me between the eyes the only thing to do is to sit still," this is President Taft's summary today of how he feels over the reciprocity treaty's fate, and expressed at the breakfast of the Mercantile club. He said: "I am sorry to announce that my reciprocity policy is not going through. I observe that the distinguished speaker of the house is engaged in discussing who is responsible. Well, I am content with Canada's decision and I don't suppose there is any difference who is responsible."

"I had hopes of carrying the reciprocity agreement and I am convinced that it would have been a benefit to both countries. But a majority of the electors in both countries do not coincide with my views. All I can say now is that it is a party issue, except in so far as making me responsible, for putting through something which did not pass is concerned."

ELGIN DOCTOR BADLY HURT

Dr. E. G. Kirby has given his physicians encouragement in their theory that he will be able to recover from his injuries sustained yesterday evening near Elgin, without loss of his left foot, yet it will be impossible to finally ascertain this important fact before the elapse of four or five days. An announcement by Dr. N. Mollitor who has charge of the case now, issued this afternoon, says the Elgin doctor is resting quite easily and as satisfactorily as could be expected.

Dr. Kirby was injured in a fall from his buggy yesterday afternoon when he was returning from La Grande where he and Dr. Mollitor had operated upon an Elgin patient, Mr. Abbott, the night before. When within a half mile of Elgin on his return, one of his horses fell, drawing its mate over with him. In the melee, the doctor hurried

What One Daring Young Aviator Accomplished In Four Months

Photos by American Press Association.

HARRY NELSON ATWOOD of Boston, twenty-seven years old, has been crowned king of all aviators because of his wonderful achievements in the art of aviation. His success is the more remarkable from the fact that it was only on last Memorial day that he made his initial flight. His record of four months not only does credit to the young man, but opens amazing possibilities to the imagination. On June 30 he made a flight from Boston to New London, Conn., carrying his mechanic as a passenger. The next day he flew to New York. On July 3 he flew to Atlantic City on his way to Washington, arriving at the latter city on July 13. On Aug. 14 he started from St. Louis and arrived at New York on Aug. 25. With these laurels Atwood may conclude to retire from the flying game. He realizes that the art has not yet been perfected to the point of safety to aviators and admits that he is seriously considering quitting before he "gets his." In the illustration Atwood is shown flying down the Hudson river and again just as he landed at Governors Island.
