**There Was a Coolness.**  
Two fashionable Philadelphia women  
met in Chelsen one morning recently.  
As they shook hands and stopped to  
speak Mrs. Brown said to Mrs. Jones,  
"That's a beautiful hat you are wear-  
ing."

"Yes, my dear. Isn't it cunning? And  
I'm so glad you like it. John gave me  
the money, and I had it imported from  
Paris."

Next day little Susie Brown was  
playing with the Jones girl, and she  
said, "My mother says your mother  
has an ugly old hat what is her last  
year's lid made up new?"

And when Mr. Brown and Mr. Jones  
reached a mutual friend's, hoping to  
spend the week end together, they  
found a coolness between the fami-  
lies.—Philadelphia Times.

**Hot Air as a Polisher.**  
Hot air is used for polishing. The  
articles to be treated are placed in a  
basket in a centrifugal machine driven  
at a very high speed and heated air is  
blown from a pipe through the basket.  
A high polish is thus produced very  
rapidly. Nickel plated articles that  
have become tarnished are made bright  
in a few minutes. Wet metal, fresh  
from the bath, needs no preliminary  
dying, for the current of air dries and  
polishes it at the same moment.

**Punishment.**  
"Has Tommie been a good boy since  
I've been out?" said the mother  
"No, he hasn't," replied the father  
"Did you punish him?"  
"No."  
"Oh, yes, you did, pop! Don't you  
remember you sang to me?" came  
from the boy.—Yonkers Statesman.

**Hard Luck Stories.**  
"I don't like to listen to hard luck  
stories, do you?"  
"That depends on whether they are  
remembrances or the preliminaries to  
a touch."—Washington Herald.
