\$17.50

has been a very popular price with us for than in the past. Staple cloths and colors trimmed.

Our eastern connections in millinery have placed us in a much better position than we have been heretofore. We are getting, every day, some new style or shape that has become popular in eastern markets. The hat must be becoming; if not, it spoils the appearance of the nicest costume. A visit to our millinery department will convince you that we can furnish your requirements.

SHOES FALL STYLES

We want your shoe business, and feel we are entitled to it on merit. We believe we sell more wear, as much style, for the money, than any store handling shoes in Eastern Oregon. The lines we handle are the very best made, and we buy the best numbers in the line so we know we are selling the best shoes money can buy.

SPRINGFIELD UNDERWEAR

Your needs in underwear may as well be supplied with a good article as an inferior one. Superior is what the word implies—Better and costs you no more than an inferior grade. Men's, Women's, and Children's. Pure wool, per cent wool, pure cotton. All grades and at prices to suit your requirements.

Ladies, have you investigated our made to your own measurement suit and coat line? We started with this line last season, (the Ladies Ideal Tailoring Co) We are showing several hundred styles of cloth, and can make any model you may desire, to your own individual measurements. The garment will fit YOU. Our personal guaran-

tee is back of every garment made, and that of the Ideal Co. as well. They are man tailored and the cost is but a trifle, if any, more than the ready made garment. We would be pleased to have you come in and look this line over.

Dog Team on Junket.

Spokane, Wash., Sept. 30.—Twenty-six hundred miles by dog team from the Arctic ocean via the MacKenzie river to Spokane, is a trip to be undertaken the coming winter by E. S. Dowling of Spokane, who is prospecting on the delta of the northern stream and along the shore of the sea. Writing from Fort McPherson Dowling says in a letter to acquaintances in the city: "There have been but few white men over these arctic wilds, and those who have made the trip have told so little that the lay reader has not even the remotest idea of what it all means. From the beginning at Athabaska Landing, Alberta, Canada, the trip is full of thrilling experiences, which cannot be told in a letter of ordinary length. It would require a book of many pages of text and illustrations to do justice to the subject I have arranged to pass several years in prospecting, but if all goes well I shall make the trip to Spokane with my dogs and sled during the winter." Dowling gives no indication of his success or failure in finding ground of value in the far northern district.
