Last night's rally was well attinded and proved that the La Grande spirit is not dead or slumbering, either. It is such gatherings as these that swell the pride of La Grande students in their institution. The program was made up as per precedent in these mattersthe freshies brought the wood and the girls brought the noise-making paraphernalia. UPTON FAMILY TAKE UP ABODE IN NEW HOME.

David Clark Take Lumber Company Home-Wilhelms Also Move.

Today has been moving day for several families in La Grande. Dr. C. H. Upton started the arduous tasks by moving from the John Collier residence on Washington to his splendid home on Spring avenue between Fifth and Sixth. Mr. and Mrs. Franc Wilhilm, for the past year or two residing on First street between Main and Washington, are now occupying the John Collier home. County Assessor David Clark also takes possession of the new Wenaha Lumber company's residence in East La Grande. home was only recently completed, too, and is declared to be finished up as elegantly on the interior as any structure in the city.

The coming month will also see several other families located in new H. M. Bay's new bungalow on "The Hill," will be finished shortly and Dr. W. D. McMillan's home on First and Main will be ready for occupancy within a month's time.

"I can guarantee that work will be second feet of water that goes to started on ditches to irrigate the waste each spring on the Grande Grande Ronde valley before another Ronde river and it is 100 of these

This was the remark made last night by J. D. McKennon, a heavy land owner in the valley. He had just received word from State Engineer Lewis that his application for 100 second feet of the flood waters of the Grande Ronde river had been considered favorable, which, according to Mr. McKennon puts things in shape so that he can proceed with physical construction.

"It is to be the La Grande Irrigawill have associated with me outside Records show there is about 6,000

Ronde river and it is 100 of these flood second feet that has been filed upon. The intention is to take out ditches near the sugar factory and water the land in the south end of the valley. Of course there will only be water during the flood period, but Mr. McKennon argues that with this flood water splendid crops are assured each year.

As now understood this filing in no way interferes with any other filing tion company," he continued, "and I formerly made. All rights recorded are intact and the flood waters, being the only waters filed upon, are wasted each year anyway.
