### THE BATTERIES.

Athletics—Plank ; and Thomas  
Giants—Marquard, Crandall and Meyers.

Shibe Park, Philadelphia, Oct. 16.—With Collins on after a double Third Baseman Baker today rapped out the first home run of the present world series and gave to Connie Mack's Athletics the second game of the series after a match of baseball strategy that ranks with the best of any series in years. New York slined three times and one of them was costly.

Plank was on the pitching mound for Philadelphia, lasting the game out and offering benders that, as the game progressed, grew more and more mystifying. Except in the second inning the New Yorkers were at his mercy.

### Marquard Displaced in Eighth.

New York sent out Marquard to essay the task of repeating but after Baker negotiated the home run in the sixth, Marquard began to wobble perceptibly and was pulled from the hill in the eighth, Crandall taking his place. The highly excited crowd of 34,000 was pretty much a Philadelphia audience and Baker and Plank are gods of the Quaker state tonight. Baker's homer went over the right field fence.

The grand stand filled up slowly and the contest was still slower in getting under way. Every seat was taken, for 30,000 were on the grounds when the first ball was thrown and others kept crowding in during the contest, several seeing but the final inning.

From the sixth inning on there was little interest in the game for Plank settled down to such marvelous pitching that the lone hit in the seventh registered by New York was the only matter of interest.

Marquard's wild pitch let Mack score his first run.

Except at the fatal second and sixth Marquard, too, was steady and it was a straightup pitchers' battle, with the home run and New York's errors thrown in as side issues.

The lineup was the same as yesterday in the field.

### Philadelphia Confident.

Philadelphia, Oct. 16.—With superb confidence in the superiority of their world's champion athletes over the New York Giants, Philadelphia fans eagerly await the call of "play ball" at Shibe park.

Philadelphia's enthusiasm is undampened by Saturday's defeat. The weather is gloomy this morning. If it does not rain it is expected that thirty-four thousand will be squeezed into the park, which seats twenty-two thousand. Baker is reported none the worse for the spiking which he received in the game at New York Saturday.

## VENIREMAN IS GRILLED HARD

**DARROW AIMS TIRADE AT PROSPECTIVE JURYMEN.**

Defense Moves to Have Nelson Removed for Cause From Jury.

Hall Records, Oct. 16.—Judge Bordwell, at the end of a bitter arraignment by Clarence Darrow of Juror Nelson, who he said was biased, reserved a decision on the motion to excuse for cause Venireman Nelson. He will render the decision late this afternoon.

In closing Darrow said: "We may try this man on an alibi and we may not. There will be other things in connection with this case. To prove corpus delicti here it must be shown that the crime was committed and we have a perfect to show none was. We may show that it was a gas explosion and then we won't need any alibi. Now what will the state say when we reach a talesman who believes the Times was blown up by gas. I don't think they will argue to permit that venireman to qualify."

That little progress is expected in the McNamara trial today was shown when Judge Bordwell with the consent of both sides excused all veniremen not under guard, until Tuesday. Attorney Scott, for the defense then began the final argument, taking up Nelson's answers, declaring that he was biased and the prosecution didn't want to give the defendant a square deal.

**FIFTEENTH DAY OF STRIKE SEES NO HOPE FOR PEACE**

Strikers and Railroad Companies Agree There Can Be No Compromise for Strikers Have Much Benefit behind Them and Can Last—Company's Own Visible Record Speaks.

Burns Smith, commonly called Joe Smith, and employed in the La Grande shops but a week or so before the strike commenced, was arrested late this afternoon and placed in the county jail for trespassing on company property at the round house. The warrant was sworn out under direction of Attorney Crawford at the instigation of the company officials.

The strikers themselves deny any responsibility for Smith's appearance within the stockade. The said this afternoon. "Smith had no authority to go near the place. He has been drinking and going to the gate he was refused admission by the guard, but he climbed over the fence and was soon arrested and placed in jail. He and all other strikers have strict orders not to go near the place. He was of the wandering class, coming here a short time before the present strike was called and we reiterate that we have no responsibility for his capers. He was playing the hero act while under the influence of liquor." The company officials have no statement to make except that the man was found on the grounds contrary to notices and that he was arrested forthwith. He is now in the county jail.

Sacramento, Oct. 16.—J. G. Taylor, business agent of the international association of machinists and other labor leaders directing the strike, today are taking steps to place before the interstate commerce commission proof which they claim shows the Harriman system is violating the federal law relating to the inspection of passenger trains.

### Action Best Testimony.

San Francisco, Oct. 16.—"What the company is doing is the best evidence of how it is getting along. Everything is O. K. and we have no public statement." This is the way the strike situation was sized up today by F. G. Athearn, head of the economic bureau of the Southern Pacific.
